This title is a comprehensive resource for understanding all aspects of the American flag and its relationship to the American people. The encyclopedia provides a thorough historical examination of key developments in the flag's design as well as laws and court decisions related to the flag and the First Amendment. In relation to the flag's history, it also discusses evolving public attitudes about its importance as a national symbol. The encyclopedia contains illuminating scholarly essays on presentations of the flag in American politics, the military, and popular culture including art, music, and journalism. Home Front Peter Elliott,2002 After the horrendous events of September 2001, photographer Peter Elliott loaded his cameras and some clothes into his car and began a cross-country journey, looking for the flag. He found it everywhere: painted on a retaining wall in Tacoma, flying over a trailer in Bozeman, carried billowing by a lone man walking a sandbar in Florida, made of plastic cups stuck in a fence in Mississippi, draped over a fake horse in Salinas, immaculately hanging from a Beverly Hills mansion's window. Home Front is both a tribute to the profound emotions of the country and a testament to Elliott's eye. His genius in these eighty-seven arresting images is to wed these serendipitous meetings with the flag to a language of light and composition that draws as much from classic landscape photography as it does from urban visual idioms. Elliott manages to convey here America's stirring and complex national character, one in which those who have not benefited from the nation's prosperity nonetheless feel the same sense of pride as those who have. With its inspiring introduction by Julia Reed, Home Front is the record—both somber and joyous—of Elliott's encounters with spontaneous patriotism.
