Buying a Used Car ,2002

The Secrets of Car Flipping Cleveland Williams,2012-09 In todays economy, being a smart consumer and investor is very important. Having a system you can use to help generate extra income can make a huge difference in so many peoples lives, so Im excited to put it out there. Everything in this book comes from what I have learned through trial and error and actually being in the business. Cleveland Williams The Secrets of Car Flipping is a very unique step by step guide that instructs on everything anyone would need to know for buying and selling used cars. This book teaches the reader where to find good used cars and alerts the reader of the dangers of buying from certain places, such as a car auction. Step by step, the reader will learn where to find cars, how to evaluate the condition of a car, how to determine how much the car is worth, and how to decide what one should pay for a car. This book is the ultimate guide for buying and selling used cars because it actually teaches the reader how to negotiate prices, gives the user sales strategies on how to get information from the seller about the car, and gives the reader tips on closing the deal. The second part of the book reverses this scenario and gives the reader step by step instructions on reselling the car and dressing the car for a buyer. The second part of the book also discusses how to advertise the car, deal with potential buyers, negotiate a price, and close the sale. This book has it all, and as a bonus, there are several secrets and tricks of the trade included. Along with giving the readers warning signs, I have also included things the reader should look for, dos and donts when buying and selling a car, and sample forms like a bill of sale. This is the only book that I know of that supplies the reader with all this information.

Finding Los Angeles by Foot Bob Inman,2014-01-05 This book is about finding what is notable, historical, quizzical and beautiful in this great city while walking. It is about learning and using pedestrian-ways where a car may not go: public stairways, walk streets, pedways and pathways. This guidebook describes nearly 500 walkable passages and over 300 great things to see while you are there. From Highland Park to Venice, from Beachwood Canyon to San Pedro, 29 great walking neighborhoods are

covered by 40 annotated maps drawn just for the urban explorer on foot. The book includes 150 photographs. The author has led hundreds on LA city walks and he narrates 23 of his favorites inside. Described are 175 miles of walking from Palos Verdes to the Arroyo Seco, from Boyle Heights to Rustic Canyon. This is a book about history, about architecture and about neighborhood character. Discussed are pedestrian and planning issues in Los Angeles. Included in the back is a concise directory of 336 public stairways in Los Angeles and its surrounding communities. Also covered is the history of the Inman 300, America's first urban thru-hike. This is the Black and White interior edition revised with edits January 2014.
