Marine Corps Martial Arts MCRP 3-02B U. S. Marine U.S. Marine Corps,2020-12-04 Official unabridged U.S. Marine Corps Manual. Close combat is the physical confrontation between two or more opponents. It involves armed and unarmed and lethal and nonlethal fighting techniques that range from enforced compliance to deadly force. The purpose of close combat is to execute armed and unarmed techniques to produce both lethal and nonlethal results. Unarmed techniques include hand-to-hand combat and defense against hand-held weapons. Armed techniques include techniques applied with a rifle, bayonet, knife, baton, or any weapon of opportunity.

*Close Combat - MCRP 3-02B* U. S. Marine Corps,2015-02-03 Today's Marines operate within a continuum of force where conflict may change from low intensity to high intensity over a matter of hours. Marines are also engaged in many military operations other than war, such as peacekeeping missions or noncombatant evacuation operations, where deadly force may not be authorized. During noncombative engagements, Marines must determine if a situation warrants applying deadly force. Sometimes Marines must decide in a matter of seconds because their lives or the lives of others depend on their actions. To make the right decision, Marines must understand both the lethal and nonlethal close combat techniques needed to handle the situation responsibly without escalating the

violence unnecessarily. Marine Corps Reference Publication (MCRP) 3-02B, Close Combat, provides the tactics, techniques, and procedures of Marine Corps close combat. It also provides the doctrinal basis for the Marine Corps Close Combat Training Program (MCCCTP).

*The Marine Corps Martial Arts Program* United States Marine Corps, 2013-06 Marine Corps Reference Publication (MCRP) 3-02B. Marine Corps Martial Arts Program (MCMAP), is designed for Marines to review and study techniques after receiving initial training from a certified Marine Corps martial arts instructor or martial arts instructor trainer. It is not designed as a self-study or independent course. The true value of Marine Corps Martial Arts Program is enhancement to unit training. A properly implemented program can help instill unit esprit de corps and help foster the mental, character, and physical development of the individual Marine in the unit. This publication guides individual Marines, unit leaders, and martial arts instructors/instructor trainers in the proper tactics, techniques, and procedures for martial arts training. MCRP 3-02B is not intended to replace supervision by appropriate unit leaders and martial arts instruction by qualified instructors. Its role is to ensure standardized execution of tactics, techniques, and procedures throughout the Marine Corps. Although not directive, this publication is intended for use as a reference by all Marines in developing individual and unit martial arts programs. For policy on conducting martial arts training, refer to Marine Corps Order 1500.59, Marine Corps Martial Arts Program (MCMAP). WARNING Techniques described in this manual can cause serious injury or death. Practical application in the training of these techniques will be conducted in strict adherence with training procedures outlined in this manual as well as by conducting a thorough operational risk assessment for all training.

Small Wars Manual United States Marine Corps, 2021-12-03 The Small Wars Manual is a manual on

tactics and strategies for engaging in certain types of military operations created by the United States Marine Corps. The purpose of this work is sharing experience and preserving the achievements of tactics and organization of small wars, or different military operations of the United States in countries where government is unstable, inadequate, or unsatisfactory for the preservation of life and of such interests as are determined by the foreign policy of the United States. The book starts with the definition of the term small war and continues into more than 500 pages on tactics, personnel structure, communication chain, transportation and logistics, military-civil relationship, psychological side of war, training, and support of native armed organizations and much more. The book is extremely interesting as a manual on tactics, whether it is used for a military operation or any other sort of massive campaign involving a large part of population, like elections. For example, it contains a chapter telling how to plan and organize legally the disarmament of local population. It tells what laws should be issued and what organizations form, what sort of personnel should be involved and what should be their roles. A reader will find guidelines on how to distribute and spare resources needed for a campaign, and how to properly cross a river in a dangerous area. Given the book's organization, structure and abundance of important information, covering different aspects of civil and military campaigns, this volume is a must-read for any person engaged in a state service or a student considering career in serving their country.

**THE KA-BAR KNIFE COMBAT MANUAL** James Loriega, 2020-04-02 The United States Marine Corps does not have this manual-or any manual on the combat use of the Ka-Bar knife. This, however, is not because they lack a structured knife combat method for training new recruits, or because the method is in any way secret or classified. They have a structured method, and it's not secret or classified. They just don't teach from a manual! Why? Simply because Marine Combat Instructors

have their knife combat method internalized. They can teach it in their sleep, they can use the knife without even waking up-and they want Marine recruits to know this method in the same manner. Not to learn it-to internalize it. To own it! Because they won't have a manual with them when they need this knowledge to save their lives. Learn what they already know!

Warfighting Department of the Navy,U.S. Marine Corps,2018-10 The manual describes the general strategy for the U.S. Marines but it is beneficial for not only every Marine to read but concepts on leadership can be gathered to lead a business to a family. If you want to see what make Marines so effective this book is a good place to start.

**U.S. Army Hand-to-Hand Combat** U.S. Department of the Army,2009-11-03 In close-quarter combat, there is no second chance and no room for error. On the street, as in military combat, even the smallest mistake can make the difference between life and death. U.S. Army Hand-to-Hand Combat is the official field manual (FM 21-150) used by U.S. Army soldiers—men and women trusted, trained, and tasked to protect the United States from enemies in every kind of situation. When weapons are unavailable or not advisable, the techniques in this manual will show every reader the skills necessary to neutralize an attacker swiftly and effectively.
