Here Comes the Miracle Anna Beecher,2022-04-28 It begins with a miracle: a baby born too small and too early, but defiantly alive. This is Joe. Decades before, another miracle. In a patch of nettle-infested wilderness, a seventeen year old boy falls in love with his best friend, Jack. This is Edward. Joe gains a sister, Emily. From the outset, her life is framed by his. She watches him grow into a young man who plays the violin magnificently and longs for a boyfriend. A young man who is ready to begin. Edward, after being separated from Jack, builds a life with Eleanor. They start a family and he finds himself a grandfather to Joe and Emily. When Joe is diagnosed with stage 4 cancer, Emily and the rest of the family are left waiting for a miracle.

When Light Is Like Water Molly McCloskey,2017-04-27 'It is brilliant: her finest book yet' Anne Enright 'A triumph' Joseph O'Connor 'Fresh and raw and completely entrancing' Sara Baume 'Powerful' Edmund White Alice, a young American on her travels, arrives in the West of Ireland with no plans and no strong attachments - except to her beloved mother, who raised her on her own. She falls in love with an Irishman, marries him, and settles down in a place whose codes she struggles to crack. And then, in the course of a single hot summer, she embarks on an affair that breaks her marriage and sets her life on a new course. After years working in war zones around the world, and in the immediate aftermath of her mother's death, Alice finds herself back in Ireland and contemplating the forces that led her to put down roots and then tear them up again. What drew her to her husband, and what pulled her away? Was her husband strangely complicit in the affair? Was she always under surveillance by friends and neighbours who knew more than they let on? When Light is Like Water is at once a gripping story of passion and ambivalence and a profound meditation on the things that matter most: the definition of love, the value of family and the meaning of home. 'Adultery is often sentimentalised in fiction, but in her ferociously well written second novel Molly McCloskey gives it to us straight ... Each brilliant vignette offers a new angle on Alice's ballooning sense of disorientation ... In spite of its lyrical title and exquisite prose, When Light Is Like Water is a brutal examination of sexual self-delusion. But it also has much that's memorable to say about love - not the affair kind, but the real thing... McCloskey writes with shattering insight on loss and the way that it can make us feel tender towards the world' Guardian 'Powerful ... When Light Is Like Water is a tender depiction of love and loss that combines the personal pull of a memoir with the precision of a short story ... McCloskey's novel is packed with wisdom, and never heavy-handed with it. The details of the affair and the tawdry aspect of forbidden desire are brilliantly related' Sunday Times 'Written with brilliant precision and insight' Sunday Business Post Books of the Year 'McCloskey describes everything with a luminous exactitude ... It's entirely beguiling' Mail on Sunday 'A thoughtful meditation on connection set against the backdrop of a world on the move ... Though McCloskey has no shortage of ideas, she also engages the heart: she's particularly good on the contrariness of our desires ... Fans of Anne Enright will find much to admire and enjoy.' Daily Mail 'Luminous' Irish Times 'McCloskey has the observational eye of the outsider, able to pinpoint the intricacies and mannerisms of the Irish people and landscape. ... But the writing's the thing. Oh, the writing. McCloskey is the master of the metaphor, the doyenne of the deceptively simple sentence. ... Hers is a wondrous turn of phrase, and yet somehow it makes Alice's life and interiority seem all the more real' Sunday Business Post 'A delightful fish-out-of-water account stitched together with gentle yet wondrous prose' Irish Independent Books of the Year 'When Light is Like Water is as gripping as a memoir and as intimate as a poem. Molly McCloskey has written a novel that is both urgent and reflective, a tender and unsentimental exploration of love's dark corners. It is brilliant: her finest book yet.' Anne Enright 'Molly McCloskey's prose has such immense authority, precision and seriousness. This shimmering, beautiful,restless work will stir recognitions without seeming to try. If you've ever fallen in love with someone you shouldn't have fallen in love with - as who hasn't, once or twice - be prepared to encounter the novel as mirror, her finest book to date, a triumph.' Joseph O'Connor 'McCloskey writes with such care and craft; every description of the landscape of the west and the life of her captivating narrator is imbued with poetry and truth. When Light is Like Water is fresh and raw and completely entrancing.' Sara Baume 'I loved When Light is Like Water. It is absorbing, tense, and beautifully written. Molly McCloskey has written a wonderful novel.' Roddy Doyle 'This is a short but powerful novel about love - love for a mother, love for a husband, love for a lover. When Light Is Like Water will be read for many years to come for its wisdom and precision.' Edmund White 'A powerful and deeply affecting novel ... In writing that sparkles with intelligence and insight, the ordinary moments of everyday existence are charged with a beauty and tenderness that render them only just bearable' Mary Costello Praise for Molly McCloskey: 'An extravagantly gifted writer' Rachel Cusk, Daily Telegraph 'One of our finest writers' Colum McCann 'Every once in a while, a writer's voice hits such a clear note, the resulting book has the kind of sweetness that makes you hold it in your hands a moment before finding a place for it on your shelves. Circles around the Sun is this kind of book: it's a keeper.' Anne Enright, Guardian

The Silence of the Lambs Thomas Harris,2009-12-28 An ingenious, masterfully written novel, Thomas Harris's The Silence of the Lambs is a classic of suspense and storytelling and the basis for the Oscar award-winning horror film starring Jodie Foster as Clarice Starling and Anthony Hopkins as Dr. Hannibal Lecter. A serial murderer known only by a grotesquely apt nickname—Buffalo Bill—is stalking particular women. He has a purpose, but no one can fathom it, for the bodies are discovered in different states. Clarice Starling, a young trainee at the F.B.I. Academy, is surprised to be summoned by Jack Crawford, Chief of the Bureau's Behavioral Science section. Her assignment: to interview Dr. Hannibal Lecter, a brilliant psychiatrist and grisly killer now kept under close watch in the Baltimore State Hospital for the Criminally Insane. Lecter's insight into the minds of murderers could help track and capture Buffalo Bill. Smart and attractive, Starling is shaken to find herself in a strange, intense relationship with the acutely perceptive Lecter. His cryptic clues—about Buffalo Bill and about her—launch Clarice on a search that every reader will find startling, harrowing, and totally compelling.

Understanding Football Hooliganism Ramón Spaaij,2006-01-01 Football hooliganism periodically generates widespread political and public anxiety. In spite of the efforts made and

resources invested over the past decades, football hooliganism is still perceived by politicians, policymakers and media as a disturbing social problem. This highly readable book provides the first systematic and empirically grounded comparison of football hooliganism in different national and local contexts. Focused around the six Western European football clubs on which the author did his research, the book shows how different clubs experience and understand football hooliganism in different ways. The development and effects of anti-hooligan policies are also assessed. The emphasis throughout is on the importance of context, social interaction and collective identity for understanding football hooliganism. This book will be essential reading for anyone interested in football culture, hooliganism and collective violence.

The Silencing Kirsten Powers,2015-05-11 Lifelong liberal Kirsten Powers blasts the Left's forced march towards conformity in an exposé of the illiberal war on free speech. No longer champions of tolerance and free speech, the illiberal Left now viciously attacks and silences anyone with alternative points of view. Powers asks, What ever happened to free speech in America?

The Last Lecture Randy Pausch,2008-04-08 After being diagnosed with terminal cancer, a professor shares the lessons he's learned—about living in the present, building a legacy, and taking full advantage of the time you have—in this life-changing classic. We cannot change the cards we are dealt, just how we play the hand. —Randy Pausch A lot of professors give talks titled The Last Lecture. Professors are asked to consider their demise and to ruminate on what matters most to them. And while they speak, audiences can't help but mull over the same question: What wisdom would we impart to the world if we knew it was our last chance? If we had to vanish tomorrow, what would we want as our legacy? When Randy Pausch, a computer science professor at Carnegie Mellon, was asked to give such a lecture, he didn't have to imagine it as his last, since he had recently been diagnosed with terminal cancer. But the lecture he gave—Really Achieving Your Childhood Dreams—wasn't about dying. It was about the importance of overcoming obstacles, of enabling the dreams of others, of seizing every moment (because time is all you have . . . and you may find one day that you have less than you think). It was a summation of everything Randy had come to believe. It was about living. In this book, Randy Pausch has combined the humor, inspiration and intelligence that made his lecture such a phenomenon and given it an indelible form. It is a book that will be shared for generations to come.

One Place after Another Miwon Kwon,2004-02-27 A critical history of site-specific art since the late 1960s. Site-specific art emerged in the late 1960s in reaction to the growing commodification of art and the prevailing ideals of art's autonomy and universality. Throughout the 1970s and 1980s, as site-specific art intersected with land art, process art, performance art, conceptual art, installation art, institutional critique, community-based art, and public art, its creators insisted on the inseparability of the work and its context. In recent years, however, the presumption of unrepeatability and immobility encapsulated in Richard Serra's famous dictum to remove the work is to destroy the work is being challenged by new models of site specificity and changes in institutional and market forces. One Place after Another offers a critical history of site-specific art since the late 1960s and a theoretical framework for examining the rhetoric of aesthetic vanguardism and political progressivism associated with its many permutations. Informed by urban theory, postmodernist criticism in art and architecture, and debates concerning identity politics and the public sphere, the book addresses the siting of art as more than an artistic problem. It examines site specificity as a complex cipher of the unstable relationship between location and identity in the era of late capitalism. The book addresses the work of, among others, John Ahearn, Mark Dion, Andrea Fraser, Donald Judd, Renee Green, Suzanne Lacy, Inigo Manglano-Ovalle, Richard Serra, Mierle Laderman Ukeles, and Fred Wilson.

The Global History of Black Girlhood Corinne T. Field,LaKisha Michelle Simmons,2022-09-27 The Global History of Black Girlhood boldly claims that Black girls are so important we should know their histories. Yet, how do we find the stories and materials we need to hear Black girls' voices and understand their lives? Corinne T. Field and LaKisha Michelle Simmons edit a collection of writings that explores the many ways scholars, artists, and activists think and write about Black girls' pasts. The contributors engage in interdisciplinary conversations that consider what it means to be a girl; the meaning of Blackness when seen from the perspectives of girls in different times and places; and the ways Black girls have imagined themselves as part of a global African diaspora. Thought-provoking and original, The Global History of Black Girlhood opens up new possibilities for understanding Black girls in the past while offering useful tools for present-day Black girls eager to explore the histories of those who came before them. Contributors: Janaé E. Bonsu, Ruth Nicole Brown, Tara Bynum, Casidy Campbell, Katherine Capshaw, Bev Palesa Ditsie, Sarah Duff, Cynthia Greenlee, Claudrena Harold, Anasa Hicks, Lindsey Jones, Phindile Kunene, Denise Oliver-Velez, Jennifer Palmer, Vanessa Plumly, Shani Roper, SA Smythe, Nastassja Swift, Dara Walker, Najya Williams, and Nazera Wright

The Virtual Life of Film D. N. RODOWICK,David Norman Rodowick,2009-06-30 As almost every aspect of making and viewing movies is replaced by digital technologies, even the notion of watching a film is fast becoming an anachronism. With the likely disappearance of celluloid film stock as a medium, and the emergence of new media, what will happen to cinema--and to cinema studies? In the first of two books exploring this question, Rodowick considers the fate of film and its role in the aesthetics and culture of the twenty-first century.

Screening Nature Anat Pick,Guinevere Narraway,2013-11-01 Environmentalism and ecology are areas of rapid growth in academia and society at large. Screening Nature is the first comprehensive work that groups together the wide range of concerns in the field of cinema and the environment, and what could be termed “posthuman cinema.” It comprises key readings that highlight the centrality of nature and nonhuman animals to the cinematic medium, and to the language and institution of film. The book offers a fresh and timely intervention into contemporary film theory through a focus on the nonhuman environment as principal register in many filmic texts. Screening Nature offers an extensive resource for teachers, undergraduate students, and more advanced scholars on the intersections between the natural world and the worlds of film. It emphasizes the cross-cultural and geographically diverse relevance of the topic of cinema ecology.

The Cambridge Handbook of Meeting Science Joseph A. Allen,Nale Lehmann-Willenbrock,Steven G. Rogelberg,2015-07-15 This first volume to analyze the science of meetings offers a unique perspective on an integral part of contemporary work life. More than just a tool for improving individual and organizational effectiveness and well-being, meetings provide a window into the very essence of organizations and employees' experiences with the organization. The average employee attends at least three meetings per week and managers spend the majority of their time in meetings. Meetings can raise individuals, teams, and organizations to tremendous levels of achievement. However, they can also undermine effectiveness and well-being. The Cambridge Handbook of Meeting Science assembles leading authors in industrial and organizational psychology, management, marketing, organizational behavior, anthropology, sociology, and communication to explore the meeting itself, including pre-meeting activities and post-meeting activities. It provides a comprehensive overview of research in the field and will serve as an invaluable starting point for scholars who seek to understand and improve meetings.

Imaging Our Solar System: The Evolution of Space Mission Cameras and Instruments Bernard Henin,2022-01-28 As we speak, stunning new snapshots of our Solar System are being transmitted to Earth by a fleet of space probes, landers, and rovers. Yet nowadays, it is all too easy to take such images for granted amidst the deluge of competing visuals we scroll through every day. To truly understand the value of these incredible space photos, we first need to understand the tools that made them possible. This is the story of imaging instruments in space, detailing all the technological missteps and marvels that have allowed us to view planetary bodies like never before. From the rudimentary cameras launched in the 1950’s to the cutting-edge imaging instruments onboard the Mars Perseverance rover, this book covers more than 100 imaging systems sent aboard various spacecraft to explore near and distant planetary bodies. Featured within are some of the most striking images ever received by these pioneering instruments, including Voyager’s Pale Blue Dot, Apollo’s Blue Marble, Venera’s images from the surface of Venus, Huygens’ images of Titan, New Horizon’s images of Pluto and Arrokoth, and much more. Along the way, you will learn about advancements in data transmission, digitization, citizen science, and other fields that revolutionized space imaging, helping us peer farther and more clearly across the Solar System.

The Struggle for Equal Adulthood Corinne T. Field,2014-09-02 In the fight for equality, early feminists often cited the infantilization of women and men of color as a method used to keep them out of power. Corinne T. Field argues that attaining adulthood--and the associated political rights, economic opportunities, and sexual power that come with it--became a common goal for both white and African American feminists between the American Revolution and the Civil War. The idea that black men and all women were more like children than adult white men proved difficult to overcome, however, and continued to serve as a foundation for racial and sexual inequality for generations. In detailing the connections between the struggle for equality and concepts of adulthood, Field provides an essential historical context for understanding the dilemmas black and white women still face in America today, from glass ceilings and debates over welfare dependency to a culture obsessed with youth and beauty. Drawn from a fascinating past, this book tells the history of how maturity, gender, and race collided, and how those affected came together to fight against injustice.
