*Identity and Memory in Post-Soviet Central Asia* Timur Dadabaev, 2015-08-11 Central Asian states have experienced a number of historical changes that have challenged their traditional societies and lifestyles. The most significant changes occurred as a result of the revolution in 1917, the incorporation of the region into the Soviet Union, and gaining independence after the collapse of the USSR. Impartial and informed public evaluation of the Soviet and post-Soviet periods has always been a complicated issue, and the 'official' descriptions have often contradicted the interpretations of the past viewed through the experiences of ordinary people. *Identity and Memory in Post-Soviet Central Asia* looks at the tradition of history construction in Central Asia. By collecting views of the public's experiences of the Soviet past in Uzbekistan, the author examines the transformation of present-day Central Asia from the perspective of these personal memories, and analyses how they relate to the Soviet and post-Soviet official descriptions of Soviet life. The book discusses that the way in which people in Central Asia reconcile their Soviet past to a great extent refers to the three-fold process of recollecting their everyday experiences, reflecting on their past from the perspective of their post-Soviet present, and re-imagining. These three elements influence memories and lead to selectivity in memory construction, emphasising the aspects of the Soviet era

people choose to recall in positive and negative lights. Presenting a broader picture of Soviet everyday life at the periphery of the USSR, the book will be a useful contribution for students and scholars of Central Asian Studies, Ethnicity and Identity Politics.

**Nationalism In Uzbekistan** James Critchlow, 2018-03-09

Drawing from a wide range of Uzbek and Russian sources, James Critchlow analyzes significant developments leading up to Uzbekistan's declaration of sovereignty and examines the outlook for the republic's emergence as an independent international player. The author's primary focus is on the Uzbek elites' attitudes and their efforts to throw off Moscow's hegemony by using popular grievances to mobilize mass support against the central Soviet government. Critchlow traces local grievances to two roots. The first is Uzbekistan's decades-long economic exploitation by Moscow through the imposition of an intensive cotton monoculture, the accumulated effects of which have been massive environmental degradation, illness, and death. The second is the central government's failure to adequately compensate Uzbekistan for these hardships and for the republic's overall contribution to the Soviet economy, while having further impoverished Uzbeks by limiting the range of their cultural and political expression. Among the manifestations of Uzbek resistance explored here are protests against russification and compulsory military conscription; persistent and open adherence to religious traditions; and loyalty above all to local political, ethnic, and family ties-- which frequently has led Moscow to charge the republic's leadership with nepotism and corruption. Now that their campaign for sovereignty has triumphed, will Uzbek leaders be able to solve the knotty political and economic problems their republic still faces? The analysis offered here illuminates this question and suggests possible answers.

*Routledge Handbook of Russian Foreign Policy* Andrei P.

Tsygankov, 2018-03-20 Providing a comprehensive overview of

Russia's foreign policy directions, this handbook brings together an international team of scholars to develop a complex treatment of Russia's foreign policy. The chapters draw from numerous theoretical traditions by incorporating ideas of domestic institutions, considerations of national security and international recognition as sources of the nation's foreign policy. Covering critically important subjects such as Russia's military interventions in Ukraine and Syria, the handbook is divided into four key parts: Part I explores the social and material conditions in which Russia's foreign policy is formed and implemented. Part II investigates tools and actors that participate in policy making including diplomacy, military, media, and others. Part III provides an overview of Russia's directions towards the United States, Europe, Asia, the Middle East, Eurasia, and the Arctic. Part IV addresses the issue of Russia's participation in global governance and multiple international organizations, as well as the Kremlin's efforts to build new organizations and formats that suit Russia's objectives. The Routledge Handbook of Russian Foreign Policy is an invaluable resource to students and scholars of Russian Politics and International Relations, as well as World Politics more generally.

*Is There a Human Rights Double Standard?* United States. Congress. House. Committee on Foreign Affairs. Subcommittee on International Organizations, Human Rights, and Oversight, 2007

A Critical Reader in Central Asian Studies Rico

Isaacs, 2022-06-01 Central Asian Survey has remained as the premier world-leading peer-reviewed journal for Central Asian studies for four decades. To mark the 40th anniversary of the journal, this volume is intended to be a reader of selected essays from the journal over the last four decades. This book is not just a mere collection, but also a critical reflection on the field over that time. Each of the nine sections in the book feature a critical appraisal of the selected excerpts by young scholars who analyse the reproduced excerpts and the contribution they make to advancing our understanding of the field. The nine sections

encapsulate prominent themes in Central Asian studies: history, identity and nationalism, Islam, governing and the state, informal institutions, contentious politics, gender, everyday life, and regional and global perspectives. The book is not just intended to reflect on the role of Central Asian Survey in the development of Central Asian studies, but also the aim is for the volume to be used as a teaching resource where the different sections in the collection could correlate to specific teaching weeks in courses on the region. The different contributions cover many case studies from across a range of countries that have featured in the journal over the years, and thus is not just restricted to the Central Asian republics but also includes Mongolia, Azerbaijan, and Xinjiang. This book will serve as a great resource for researchers and students of Central Asian history, politics, culture, society, and international relations.

**The European Union, China and Central Asia** Fabienne Bossuyt, Bart Dessein, 2021-10-04 This book examines the involvement of the European Union (EU) and China in Central Asia and critically assesses the implications this has for the region as a whole. The volume adopts a comprehensive, interdisciplinary approach, combining insights from International Relations, EU Studies, International Economics, International Law, Sinology, and History. It concentrates on three thematic levels: (1) historical and contextual, (2) geopolitical and geo-economic, and (3) socio-cultural and institutional. Paying particular attention to the role of the EU and the factors driving the EU's and China's relations with Central Asia, it looks at how the Central Asian countries position themselves vis-à-vis China's growing influence, and how the balance of power between China, Russia, and the EU plays out. Contributors also explore the important historical context of the 'Silk Routes', as well as of the erstwhile connection of the Central Asian states with the Soviet Union. Critically analysing the potential areas for collaboration and synergy between the EU and China, the book also discusses the extent to which they share a

common ground in Central Asia that could serve as a basis for long-term cooperation. It will be of interest to all scholars and students of International Relations, Economics, Sinology, and History.

**The Sound State of Uzbekistan** Kerstin Klenke, 2019-05-06

*The Sound State of Uzbekistan: Popular Music and Politics in the Karimov Era* is a pioneering study of the intersection between popular music and state politics in Central Asia. Based on 20 months of fieldwork and archival research in Tashkent, this book explores a remarkable era in Uzbekistan's politics (2001–2016), when the Uzbek government promoted a rather unlikely candidate to the prominent position of state sound: estrada, a genre of popular music and a musical relic of socialism. The political importance it attached to estrada was matched by the establishment of an elaborate bureaucratic apparatus for state oversight. *The Sound State of Uzbekistan* shows the continuing legacy of Soviet concepts to frame the nexus between music, artists and the state, and explains the extraordinary potency ascribed to estrada. At the same time, it challenges classical readings of transition and also questions common binary models for researching culture in totalitarian or authoritarian states. Proposing to approach lives in music under authoritarianism as a form of normality instead, the author promotes a post-Cold War paradigm in music studies.

**Mapping Research and Innovation in the Republic of Uzbekistan** Elçi, Sirin, UNESCO, 2020-10-14

*The New Great Game in Muslim Central Asia* Mohammed E. Ahrari, 1996

Public Administration and Public Affairs Nicholas Henry, 2010

For introductory courses in public administration, public affairs, and public policy. *Public Administration and Public Affairs* examines the realities underlying the stereotypes that are brought out by both phrases. *Public Administration and Public Affairs* is about both the means used to fulfill the public interest, and the

human panoply that is the public interest. It keeps up with the tumultuous world of public administration and public affairs and it reports that tumult in a reasonably engaging manner.

### **The Current Digest of the Soviet Press ,1987**

Constructing the Uzbek State Marlene Laruelle,2017-12-20

Over the past three decades, Uzbekistan has attracted the attention of the academic and policy communities because of its geostrategic importance, its critical role in shaping or unshaping Central Asia as a region, its economic and trade potential, and its demographic weight: every other Central Asian being Uzbek, Uzbekistan's political, social, and cultural evolutions largely exemplify the transformations of the region as a whole. And yet, more than 25 years after the collapse of the Soviet Union, evaluating Uzbekistan's post-Soviet transformation remains complicated. Practitioners and scholars have seen access to sources, data, and fieldwork progressively restricted since the early 2000s. The death of President Islam Karimov, in power for a quarter of century, in late 2016, reopened the future of the country, offering it more room for evolution. To better grasp the challenges facing post-Karimov Uzbekistan, this volume reviews nearly three decades of independence. In the first part, it discusses the political construct of Uzbekistan under Karimov, based on the delineation between the state, the elite, and the people, and the tight links between politics and economy. The second section of the volume delves into the social and cultural changes related to labor migration and one specific trigger – the difficulties to reform agriculture. The third part explores the place of religion in Uzbekistan, both at the state level and in society, while the last part looks at the renegotiation of collective identities.

*All Shook Up* Nigel Raab,2017-04-01 Earthquakes, nuclear accidents, and floods were among the many unexpected tragedies that struck the Soviet Union over its history. Requiring the immediate mobilization of vast resources and aid, and embedded

within a specific context and time, these catastrophes provide critical insights into the nature of the twentieth-century Communist state. *All Shook Up* takes a close look at the representation in film, the political repercussions, and the social opportunities of large-scale catastrophes in separate Soviet epochs, including the 1927 earthquake in the Crimean peninsula, the 1948 earthquake in Ashgabat, the Tashkent earthquake in 1966, the Chernobyl explosion in 1986, and the Armenian earthquake in 1988. Juxtaposing various disaster responses and demonstrating the ways both Soviet authorities and citizens molded them to their own cultural needs, Nigel Raab highlights the radical shifts in disaster policy from one leader to the next. Given the opportunity to act outside regular parameters, Soviet residents not only rebuilt their devastated cities, but also experimented with new values and crafted their own worldview while the state struggled to return the situation to normal. Based on archival research conducted in Russia and Ukraine, *All Shook Up* fills a gap in a global literature and challenges stereotypical representations of the Soviet Union as a monolithic state.

**Exploring Religious Diversity and Covenantal Pluralism in Asia** Dennis R. Hoover, 2022-12-26 This book examines the growing diversity of religions and worldviews across South & Central Asia, and the factors affecting prospects for 'covenantal pluralism' in these regions. Going beyond banal appeals for mere 'tolerance', the theory of covenantal pluralism calls for a constitutional order of religious freedom and equal treatment combined with a culture of practical religious literacy and everyday virtues of engagement across lines of religious difference. According to the Pew Religious Diversity Index, half of the world's most religiously diverse countries are in Asia. The presence of deep religious/worldview difference is often seen as a potential threat to socio-political cohesion or even as a source of violent conflict. Yet in Asia (as elsewhere) the degree of this diversity is not consistently associated with socio-political

problems. Indeed, while religious difference is implicated in some social challenges, there are also many instances of respectful multi-faith engagement, practical collaboration, and peaceful debate. Volume II offers a pioneering exploration of the prospects for this robust and non-relativistic type of pluralism in South & Central Asia. (Volume I examined East & Southeast Asia.) The chapters in these volumes originally appeared as research articles in a series on covenantal pluralism published by The Review of Faith & International Affairs.

**The Postsocialist Religious Question** C. M. Hann, 2006

Assumptions of increasing secularization have been called into question across the globe but under the socialist variants of modernity traditional forms of religious belief and practice were subject to quite specific forms of repression in favour of 'scientific atheism'. What is the legacy of this socialist experience for the postsocialist era? How is religion mobilized in the public sphere to support assertions of ethnic identity and the building of nations and states? In the private sphere, how does religion help persons to cope with uncertainty and dislocation? What has been the impact of external influences, including pressures to implement religious human rights as well as the missionising efforts of modernist, 'universalizing' faiths, both Christian and Muslim? This book explores new configurations of local, national and global religious communities through ethnographic studies from two regions, Central Asia and East-Central Europe. The main focus is on the consequences of changes in the sphere of religion for generalized civility, which is understood minimally as the acceptance of diverse beliefs and practices in everyday social life.

*The European Union's Normative Power in Central Asia* G.

Voloshin, 2014-08-19 The normative power of the European Union has historically been a key element of its foreign policy. This study considers the EU's Central Asia policy, questioning whether the EU's normative power can work in this remote region.
