**The Encyclopedia of Musicians and Bands on Film** Melissa U. D.

Goldsmith,Paige A. Willson,Anthony J. Fonseca,2016-10-07 Musicians, both fictional and real, have long been subjects of cinema. From biopics of composers Beethoven and Mozart to the rise (and often fall) of imaginary bands in The Commitments and Almost Famous, music of all types has inspired hundreds of films. The Encyclopedia of Musicians and Bands on Film features the most significant productions from around the world, including straightforward biographies, rockumentaries, and even the occasional mockumentary. The wide-ranging scope of this volume allows for the inclusion of films about fictional singers and bands, with emphasis on a variety of

themes: songwriter–band relationships, the rise and fall of a career, music saving the day, the promoter’s point of view, band competitions, the traveling band, and rock-based absurdity. Among the films discussed in this book are Amadeus, The Blues Brothers, The Buddy Holly Story, The Commitments, Dreamgirls, The Glenn Miller Story, A Hard Day’s Night, I’m Not There, Jailhouse Rock, A Mighty Wind, Ray, ’Round Midnight, The Runaways, School of Rock, That Thing You Do!, and Walk the Line. With entries that span the decades and highlight a variety of music genres, The Encyclopedia of Musicians and Bands on Film is a valuable resource for moviegoers and music lovers alike, as well as scholars of both film and music.

Routledge International Handbook of Music Psychology in Education and the Community Andrea Creech, Donald A. Hodges, Susan Hallam, 2021-05-26 This handbook provides an evidence-based account of psychological perspectives on issues in music education and music in the community through the life course, exploring our understanding of music learning and participation across contexts. The contributors draw on multidisciplinary research from different cultures and contexts in order to set out the implications of music psychology for music education and music in the community. Highlighting the intersecting issues across education and community contexts, the book proposes new theories as well as offering important refinements to existing conceptual models. Split into six parts, it considers the role of music in society as well as for groups and individuals, and explores topics such as

processing and responding to music; pedagogical and musical practices that support or pose challenges to the emotional, cognitive, social or physical wellbeing of learners and participants in a range of contexts; and 'music in identity' or 'identity in music'. With the final part on future directions and the implications for professional practice in music education and music in the community, the book concludes by exploring how the two sectors might work more closely together within a post-COVID-19 world. Based on cutting-edge research from an international team, this is essential reading for anyone interested in music psychology, education and community, and it will be particularly helpful for undergraduate and graduate students in music psychology, music education and community music.
