**Autonomie Der Vernunft?** Riccardo Dottori,2009 This volume contains the Proceedings of the V Meeting Italian/American Philosophy on the Theme Autonomy of Reason? that took place in Rome from the 16th to the 19th October 2007. Reason that is purely autonomous in self-legislating is completely empty and impotent or incapable of self-determination. Self-determination exists only in that realm of the spirit that is not simply the realm of ends, but a historical society based on reciprocal recognition that is established through law, and finally freely self-determined only through acting in a state that has as its last end the achievement of freedom.

Citrin, Darleen DeRosa, 2021-04-13 A timely and hands-on resource informed by lessons learned from Fortune 500 CEOs and executives *Leading at a Distance* provides executives with the necessary skills to successfully lead in the new virtual workplace, backed by the research and expertise of global leadership firm Spencer Stuart. Although working remotely is not new, the global pandemic has placed virtual work at the center of everyday life. And it has thrust workforce strategies to the core of business operations globally. As the shift towards large-scale virtual work continues to grow and become a permanent fixture—by some estimates, 30% of the workforce will be working virtually — leaders must understand how to build virtual work environments that foster connected, engaged, and high-performing teams. Although some forward-thinking companies and not-for-profit organizations have made significant investments in technology and virtual collaboration, many

others have simply joined the “Zoom culture” without fully appreciating what it takes to operate effectively at a distance on a sustained basis. *Leading at a Distance* is a timely, research-based, and highly practical guide for developing and implementing strategies for conducting high-impact virtual work, building trust, and enhancing team unity. Designed to help leaders shape organizational culture remotely, this must-have resource demonstrates how to conduct virtual onboarding for senior leaders, build top teams from a distance, manage accountability in the new virtual environment, and much more. A hands-on toolkit filled with compelling examples, expert insights, and invaluable advice, this book:

- Provides clear guidance on establishing effective leadership in the virtual workplace
- Offers practical approaches for establishing strong relationships, increasing employee engagement, and coaching from a distance
- Addresses ways to keep geographically dispersed team members aligned and accountable
- Illustrates creative ideas for boosting team morale
- Features an overview of the unique challenges facing leaders in the virtual workplace
- Discusses often-overlooked topics such as virtual hiring and onboarding
