America's Vacation Deficit Disorder William D. Chalmers,2013-05-23 It is no secret that America is the No Vacation Nation. Our vacations nowadays consist of nothing more than a few long weekends a year...when we're not on staycations. Workplace stress and burnout in America are at all-time highs. That Americans are over-caff einated and sleep deprived is not surprising given that our work-leisure balance is so severely lopsided. Depression is epidemic. Chalmers' estimates that these seemingly isolated, yet wholly interconnected cultural data points cost the U.S. economy a trillion dollars a year in lost productivity...and may be shortening the life spans of Americans too! But it wasn't always like this in America...and it surely doesn't have to be either. A stunningly well-researched book, offering readers an explanation of why Americans are suffering from an acute case of Vacation Deficit Disorder...and what the unintended consequences mean to every American couple, parents, families, workers, bosses, and our nations economy. It explains clearly why Americans dont travel...and why they really should! What really makes humans happy; and offers profound insight into how the lucky few Americans who do take vacations can enjoy them better and reap their life-enhancing benefits. And it passionately explains how all Americans would benefi t from his 4% Solution prescription. This book offers a compelling American centric cultural narrative that explains in great detail and with erudite analysis just who stole our vacation.

Disney World Within Reach Lauralyn Johnson,2017-05-26 I fell in love with Disney World in 2013. Since then, I've made it my mission to go back to Disney as often as possible. Moms are my true passion and helping them get to Disney is my way of supporting them. I've travelled to Disney from my home in Kentucky over 24 times in 2 years, usually with my four kids (ages 7, 5, 3 and 8 months) in tow. It took some creativity to spend over 120 days at Disney on an income that is below the median. Let me help you get there! I hope you're ready to laugh and learn because that's what I'm about. The book is seriously helpful, but not overly serious. I've done all the math for you so you can concentrate on the strategy, not adding and subtracting. But I do show you how to do it, so if you're so inclined you can apply it to your own situation. This isn't information that you can glean from a casual search on Pinterest. I have been actively and passionately searching for money saving ideas for over four years. And I've added my own original money saving ideas (which I've never shared before). Plus, I've put it all together into a convenient, easy and fun to read package. Because I'm not about that dry-book reading life. Throughout the book, I have two fictitious families: The Smiths who are a family of four, doing Disney as inexpensively as possible and the Robinsons who are a larger family, going all out, but doing it responsibly. We follow them through each strategy seeing how it effects their budget. Spoiler alert: both families save well over 50% by stacking certain strategies! Whether you're the Smiths or the Robinsons, or maybe you're the Johnsons (we fall somewhere in the middle), this book is going to change your vacation. And maybe your whole life.
