The Vatican Museums Paul Den Arend,2015-08-06 Visiting the Vatican Museums is a truly unique experience. It is such an amazing place with such an abundance of artwork. Some of the most famous pieces of art in the world can be found there. Be amazed by the ceiling of the Sistine Chapel by Michelangelo and enjoy the beautiful frescos of Raphael. There are statues from Roman times, paintings from artists as different as Giotto, Leonardo and Caravaggio and so much more. In fact, the museums are enormous. It can be quite overwhelming. What's worse, the museums were never built as museums. The artworks are displayed in the rooms and halls that were once used by the Pope and his court. This is why most of the museum is one direction only. Moreover, mass tourism has caused the amount of visitors to the museums to spike in recent years. Many people stand in line for hours outside, just to be able to visit the museums. In this guidebook, I will try to show you the best way to visit the museums and I will tell you all the stories and details about the most important works in the museums. In addition, I'll give you essential tips for visiting the museums. I've worked for many years as a guide inside the museums. This is truly a special place. I have put all that I have learned in these years in this book. I hope it will help to make your visit to the museums an unforgettable experience.

The Vatican and Saint Peter's Basilica of Rome Paul Letarouilly,2010 French architect Paul Letarouilly (1795-1855), author of the masterpiece Edifices de Rome Moderne, was unequalled in his observational ability and impeccable drawing skills. He devoted many years of his life living in austerity and refusing paying commissions to compile and draw the intricate details and decorative elements of the most breathtaking buildings in Italy's Vatican City, including St. Peter's Basilica, the Sistine Chapel, the Pontifical Palace, the Museo Pio Clementino, and the Villa Pia. Published in 1882, after his death, Vatican served as an unparalleled sourcebook of everything from plans, elevations, interior room views, and perspective drawings to mosaics, wall panels, door frames, fountains, towers, domes, cornices, and moldings. Prior to the books original publication, these details were not easily replicated in other parts of the world. Vatican gave access to rigorous documentation of the work of some of the most significant Renaissance architects Michelangelo, Bernini, Bramante, Sangallo, and Peruzzi and is now often credited as one of the primary catalysts for the American Renaissance style, the results of which can be seen in any capital city in America. The precision and attention to detail that Letarouilly demanded of his engravers advanced the art of etching in the nineteenth century. Exquisite rendering techniques and precise execution make this book as beautiful as it is useful. Originally published in three volumes, Vatican is presented as a single facsimile edition in our Classic Reprints series and includes a new foreword by architectural historian Ingrid Rowland. Published in association with the Institute of Classical Architecture and Classical America.

Michelangelo Loren W. Partridge,1996 Michelangelo's frescoes on the Vatican's Sistine Chapel ceiling are arguably one of the greatest masterpieces of western art. The text and color images in this volume together explore central themes concerning this extraordinary fresco style, bringing information into focus for the general reader and for the tens of thousands of people who visit this masterpiece yearly. 36 color plates.

Masterpieces of the Vatican Enrico Bruschini,2004 The Vatican conserves perhaps one of the oldest and most renowned art collections. Collected by the papacy since the fifteenth century, thousands of works dating from 2050 BC to the present day are displayed within a one-way itinerary. Professor Enrico Bruschini, eminent Vatican expert and former curator to the American embassy in Rome, presents 100 key masterpieces in their itinerary order, and sets them in their art-historical context with his lively and engaging text

The Sistine Chapel Ulrich Pfisterer,2018 The art of the Sistine Chapel, decorated by artists who competed with one another and commissioned by popes who were equally competitive, is a complex fabric of thematic, chronological, and artistic references. Four main campaigns were undertaken to decorate the chapel between 1481 and 1541, and with each new addition, fundamental themes found increasingly concrete expression. One overarching theme plays a central role in the chapel: the legitimization of papal authority, as symbolized by two keys—one silver, one gold—to the kingdom of heaven. The Sistine Chapel: Paradise in Rome is a concise, informative account of the Sistine Chapel. In unpacking this complex history, Ulrich Pfisterer reveals the remarkable unity of the images in relation to theology, politics, and the intentions of the artists themselves, who included such household names as Botticelli, Michelangelo, and Raphael. Through a study of the main campaigns to adorn the Sistine Chapel, Pfisterer argues that the art transformed the chapel into a pathway to the kingdom of God, legitimizing the absolute authority of the popes. First published in German, the prose comes to life in English in the deft hands of translator David Dollenmayer.
