**The Sumerians** Samuel Noah Kramer, 2010-09-17 The Sumerians, the pragmatic and gifted people who preceded the Semites in the land first known as Sumer and later as Babylonia, created what was probably the first high civilization in the history of man, spanning the fifth to the second millenniums B.C. This book is an unparalleled compendium of what is known about them. Professor Kramer communicates his enthusiasm for his subject as he outlines the history of the Sumerian civilization and describes their cities, religion, literature, education, scientific achievements, social structure, and psychology. Finally, he considers the legacy of Sumer to the ancient and modern world. There are few scholars in the world qualified to write such a book, and certainly Kramer is one of them. . . . One of the most valuable features of this book is the quantity of texts and fragments which are published for the first time in a form available to the general reader. For the layman the book provides a readable and up-to-date introduction to a most fascinating culture. For the specialist it presents a synthesis with which he may not agree but from which he will nonetheless derive stimulation.—American Journal of Archaeology An uncontested authority on the civilization of Sumer, Professor Kramer writes with grace and urbanity.—Library Journal

**Landscape Theories** Olaf Kühne,2019-04-08 In the past decades, the discussion about theoretical approaches to the topic of 'landscape' has increased. This book presents the currently discussed theoretical approaches to landscape and shows its potentials and limits. The theoretical approaches are discussed on the basis of current questions, such as socialisation and the hybridisation of landscape, and combined with empirical results. This is followed by a discussion of the landscape policy operationalisation of theoretical considerations and empirical findings.

A History of Writing in Japan Christopher Seeley, 2023-11-20 This book deals chronologically with the history of writing in Japan, a subject which spans a period of 2,000 years, beginning with the transmission of writing from China in about the first or second century AD, and concluding with the use of written Japanese with computers. Topics dealt with include the adoption of Chinese writing and its subsequent adaptation in Japan, forms of writing employed in works such as the Kojiki and Man'yoshu, development of the kana syllabaries, evolution of mixed character-kana orthography, historical kana usage, the rise of literacy during the Edo period, and the main changes that have taken place in written Japanese in the modern period (ca. 1868 onwards). This is the first full-length work in a European language to provide the Western reader with an overall account of the subject concerned, based on extensive examination of both primary and secondary materials.

Achtung-Panzer! Heinz Guderian, 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years

later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

**MGM Style** Howard Gutner, 2019-09-17 MGM Style is an overview of the career and achievements of Hollywood's most famous art director. Cedric Gibbons was the supervisor in charge of the art department at Metro-Goldwyn-Mayer film studios from its inception in 1924 until Gibbons chose to retire in 1956. Lavishly illustrated with over 175 pristine duotone photographs, the vast majority of which have never before been published, this is the first volume to trace Gibbons' trendsetting career. At its height in the late 1930s and early 1940s, Gibbons was regularly acknowledged by his peers as having shaped the craft of art direction in American film; his work was recognized as representing the finest in motion picture sets and settings. Gibbons and his associates constructed the villages, towns, streets, squares and edifices that later appeared in hundreds of films, and whose mixed architecture stood in for army camps and the wild west, Dutch New York and Dickensian London, ancient China and modern Japan. Inspired by the work of Le Corbusier and the Bauhaus masters, as well as the 1925 Exposition Internationale des Arts Décoratifs et Industriels

Modernes in Paris and Frank Lloyd Wright's experiments with open planning, Gibbons championed the notion that movie decor should move beyond the commercial framework of the popular cinema

*Edge of the Map* Johanna Garton, 2020-04-01 *Edge of the Map* is equal parts inspiring, dramatic, and heartbreaking. One of America's greatest high altitude mountaineers, Christine Boskoff was at the top of her career when she and her partner died in an avalanche in 2006. Charismatic, principled, and humble, Boskoff was also a deeply loved role model to her climbing partners and the Sherpa community. *Edge of the Map* traces the sharp twists and turns in Boskoff's life, from her early years as a Lockheed engineer, through her first successes in the climbing world, to her purchase of Seattle-based Mountain Madness after owner and climber Scott Fischer died in the 1996 Everest disaster. Her life was one of constant achievement mixed with personal tragedy. The story follows Boskoff as she perseveres and moves on to even bigger peaks, earning acclaim as a world-class mountaineer, then later as she finds an alpine partnership with legendary Colorado climber Charlie Fowler.
