How To Typeset Your Project Report In LATEX Aniruddha Subhashchandra Rumale, Abhidnya Aniruddha Rumale, This book is useful for people in engineering and education for writing project reports, seminars, conference/research papers. LATEX is becoming more popular day by day due to its excellent typesetting and ease of use. But there is no good book available in the market which can talk in terms of the need of the student and/or researchers. This book is a ready reckoner for typesetting a good report/book using LATEX. It covers all necessary and essential information of LATEX required to typeset a good report/book. While typesetting our reports/books, we found that, out of 2600 packages, we hardly used not more than 20 packages. And, if the report/book is heavy in the text then many time not more than 5 packages are ever required to typeset it. This showed us a

definite structure to follow for typesetting a report/book.
