Telecommunications and Business Strategy Richard A. Gershon, 2009-03-04 With today's communications industry experiencing major changes on an almost daily basis, media managers must have a clear understanding of the different delivery platforms, as well as a grasp of critical management, planning, and economic factors in order to stay current and move their organizations forward. *Telecommunications and Business Strategy* helps current and future media professionals understand the relationship and convergence patterns between the broadcast, cable television, telephony, and Internet communication industries. Author Richard A. Gershon examines telecommunications industry structures and the management practices and business strategies affecting the delivery of information and entertainment services to consumers. He brings in specialists to present the finer points of management and planning responsibilities. Case studies from the International Radio and Television Society (IRTS) competition supplement the main text and offer an invaluable perspective on management issues. Developed for students in telecommunications management, electronic media management, and telecommunication economics, this volume also serves as a practical reference for the professional manager.

Media, Telecommunications and Business Strategy Richard A.

Gershon, 2020-07-19 As the clear lines and historic boundaries that once separated broadcasting, cable, telephone and Internet communication dissolve, this comprehensive new edition examines the relationship and convergence patterns between industries by exploring the effects of digitalization in media and information technology. With today's dynamic and rapidly evolving communication environment, media managers need to have a clear understanding of the different delivery platforms as well as critical management and planning strategies going forward. Advancements in new media and communication technology coupled with a rapidly changing global economy promise a new set of hybrid-media companies that will allow for the full integration of information and entertainment services and give new meaning to the term programming. This book provides a detailed look at seven key sectors of the media and telecommunications field as well as ongoing changes within the industry. The new edition includes updated research throughout including material on major business and technology changes as well as the importance of digital lifestyle reflected in E-commerce and developments in Over-the-Top Video-streaming services. Special attention is given to such areas as strategic planning, innovation, marketing, finance and leadership. Perfect for courses in media management and media industries, as well as professional managers, this book serves as an important reference guide during this transitional time.

Managing Today's News Media Samir Husni, Debora Halpern Wenger, Hank

Price, 2015-07-29 The business of journalism is in the midst of massive change. *Managing Today's News Media: Audience First* offers practical solutions on how to cope with and adapt to the evolving media landscape. News media experts Samir Husni, Debora Halpern Wenger, and Hank Price introduce a forward-looking framework for understanding why change is occurring and what it means to the business of journalism. Central to this new paradigm is a focus on the audience. The authors introduce The 4Cs Strategy to describe how customers, control, choice, and change are all part of a strategy for successful media organizations. Every chapter in the book relates to one or more of these four key principles: Customer – Each platform must offer a unique experience to the customer. Choice – The audience has more options than ever, and news organizations must work harder to be the preferred choice. Control – Sharing power and control with the audience is now a necessary part of running a successful news operation. Change – Companies can manage change through adaptation. Real-world case studies, important theoretical grounding, and a focus on understanding rather than resisting the customer's desire for choice and control make this an unbeatable resource for students and managers alike who want to succeed in this

changed media business landscape.
