The Journalist's Toolbox Mike Reilley, 2023-12-22 Focusing on the how and why of digital reporting, this interactive textbook equips readers with all the skills they need to succeed in today's multimedia reporting landscape. The Journalist's Toolbox is an extension of the JournalistsToolbox.ai website, which provides links to tools, organized by beats and topics, as well as social channels, a newsletter, and more than 95 training videos relevant to journalists. This handbook offers a deep dive into these digital resources, explaining how they can be manipulated to build multimedia stories online and in broadcast. It covers all the basics of data journalism, fact-checking, using social media, editing and ethics, as well as video, photo, and audio production and storytelling. The book considers digital journalism from a global perspective, including examples and interviews with journalists from around the world. Packed full of hands-on exercises and insider tips, The Journalist's Toolbox is an essential companion for students of online/digital journalism, multimedia storytelling and advanced reporting. This book will also make an ideal reference for practicing journalists looking to hone their craft. This book is supported by training videos, interactive charts and a pop-up glossary of key terms which are available as part of an interactive e-book+ or online for those using the print book.

Deep Stories Mariela Nuñez-Janes, Aaron Thornburg, Angela Booker, 2017-03-20 Have you ever wondered what makes storytelling and digital media a powerful combination? This edited volume examines the opportunities to think, do, and/or create jointly afforded by digital storytelling. The editors of this volume contend that digital storytelling and digital media can create spaces of empowerment and transformation by facilitating multiple kinds of border crossings and convergences involving groups of peoples, places, knowledge, methodologies, and teaching pedagogies. The book is unique in its inclusion of anthropologists and education practitioners and its emphasis on multiple subfields in anthropology. The contributors discuss digital storytelling in the context of educational programs, teaching anthropology, and ethnographic research involving a variety of populations and subjects that will appeal to researchers and practitioners engaged with qualitative methods and pedagogies that rely on media technology.

How to Edit Videos That People Want to Watch Rachel Bastarache Bogan, 2017-07 Go beyond what buttons to push on your computer and what trendy effects to use in your videos. Transform your editing with skills that you can apply to any project, no matter what software program you use. Whether you run a video production studio or you're an independent freelancer, a YouTuber or in-house content creator, this short, easy-to-read and easy-to-apply book will give you the tools you need to assemble your videos quickly and powerfully. Apply these skills whether you're editing videos for web, social media, corporate businesses or non-profits. Discover why an edit point works or doesn't, what kinds of edits to use, when to cut your footage to the best advantage, where to use effects and transitions, and how to weave everything together into a compelling story for your audience. Learn how to cut and make videos that keep your audience engaged and watching until the very last frame. Author and professional editor, Rachel Bastarache Bogan, has spent the last ten years working with video producers, directors and editors across the United States and Canada. In this book she shares her decade of editing experience and gives you the tools and theory to create videos that keep audiences watching again and again.

Media Convergence Handbook - Vol. 1 Artur Lugmayr, Cinzia Dal Zotto, 2015-11-20 The Media Convergence Handbook sheds new light on the complexity of media convergence and the related business challenges. Approaching the topic from a managerial, technological as well as end-consumer perspective, it acts as a reference book and educational resource in the field. Media convergence at business level may imply transforming business models and using multiplatform content production and distribution tools. However, it is shown that the implementation of convergence strategies can only succeed when expectations and aspirations of every actor involved are taken into account. Media consumers, content producers and managers face different challenges in the process of media convergence. Volume I of the Media Convergence Handbook encourages an active discourse on media convergence by introducing the concept through general perspective articles and addressing the real-world challenges of conversion in the publishing, broadcasting and social media sectors.
