Jane Viggle

As Thyself Jane Viggie, 2023-08-22 Post-Dust Bowl Kansas, 1950. Joyce Killion, a 17-year-old piano prodigy, is running from her grandma. But it's not easy to hide from an intrusive tormentor who's constantly invading Joyce's living room, practice time, and personal business. Richard Wood is running too—from his neglectful stepfather, his fear of mediocrity, and his family's poverty. When they both find refuge at Harper's railway station, Richard as an apprentice telegrapher, and Joyce as her father's assistant, they build an unshakable connection. But while the railroad brings them together, their futures tear them apart, and Joyce fears she must choose between the boy she is growing to love and earning the music degree she's always dreamed of. After all, college-bound girls cannot marry transient railway workers. Based on the lives of real people, *As Thyself* is a fictionalized account of a true love story with a large helping of family drama.

Social TV Cory Barker, 2022-06-27 Winner of the 2023 SCMS Media Industries Scholarly Interest Group Outstanding Book Award sponsored by the Center for Entertainment & Media Industries On March 15, 2011, Donald Trump changed television forever. The Comedy Central Roast of Trump was the first major live broadcast to place a hashtag in the corner of the screen to encourage real-time reactions on Twitter, generating more than 25,000 tweets and making the broadcast the most-watched Roast in Comedy Central history. The #trumproast initiative personified the media and tech industries' utopian vision for a multi-screen and communal live TV experience. In *Social TV: Multi-Screen Content and Ephemeral Culture*, author Cory Barker reveals how the US television industry promised—but failed to deliver—a social media revolution in the 2010s to combat the imminent threat of on-demand streaming video. Barker

examines the rise and fall of Social TV across press coverage, corporate documents, and an array of digital ephemera. He demonstrates that, despite the talk of disruption, the movement merely aimed to exploit social media to reinforce the value of live TV in the modern attention economy. Case studies from broadcast networks to tech start-ups uncover a persistent focus on community that aimed to monetize consumer behavior in a transitional industry period. To trace these unfulfilled promises and flopped ideas, Barker draws upon a unique mix of personal Social TV experiences and curated archives of material that were intentionally marginalized amid pivots to the next big thing. Yet in placing this now-forgotten material in recent historical context, Social TV shows how the era altered how the industry pursues audiences. Multi-screen campaigns have shifted away from a focus on live TV and toward all-day “content” streams. The legacy of Social TV, then, is the further embedding of media and promotional material onto every screen and into every moment of life.

Connected Viewing Jennifer Holt, Kevin Sanson, 2013-12-04 As patterns of media use become more integrated with mobile technologies and multiple screens, a new mode of viewer engagement has emerged in the form of connected viewing, which allows for an array of new relationships between audiences and media texts in the digital space. This exciting new collection brings together twelve original essays that critically engage with the socially-networked, multi-platform, and cloud-based world of today, examining the connected viewing phenomenon across television, film, video games, and social media. The result is a wide-ranging analysis of shifting business models, policy matters, technological infrastructure, new forms of user engagement, and other key trends affecting screen media in the

digital era. Connected Viewing contextualizes the dramatic transformations taking place across both media industries and national contexts, and offers students and scholars alike a diverse set of methods and perspectives for studying this critical moment in media culture.

Social Media Kehbuma Langmia, Tia C. M. Tyree, Pamela O'Brien, Ingrid Sturgis, 2013-12-23
Social Media: Pedagogy and Practice examines how interactive technologies can be applied to teaching, research and the practice of communication. This book demonstrates how social media can be utilized in the classroom to build the skillsets of students going into journalism, public relations, integrated marketing, and other communications fields.

Television and the Second Screen James Blake, 2016-11-10
Television is changing almost beyond recognition. In the battle for consumers, social media sites, smart phones and tablets have become rivals to traditional linear TV. However, audiences and producers are also embracing mobile platforms to enhance TV viewing itself. This book examines the emerging phenomenon of the second screen: where users are increasingly engaging with content on two screens concurrently. The practice is transforming television into an interactive, participatory and social experience. James Blake examines interactive television from three crucial angles: audience motivation and agency, advances in TV production and the monetisation of second screen content. He also tracks its evolution by bringing together interviews with more than 25 television industry professionals - across the major UK channels - including commissioning editors, digital directors, producers and advertising executives. These reveal the successes and failures of recent experiments and the innovations in second screen projects. As the second screen becomes second nature for viewers

and producers, the risks and opportunities for the future of television are slowly beginning to emerge. Television and the Second Screen will offer students and scholars of television theory, industry professionals and anyone with an abiding interest in television and technology, an accessible and illuminating guide to this important cultural shift.

Norine Haverty Dickey, 1999

Sweet and Sour Pie Dave Crehore, 2009-05-05 As a young boy, Dave Crehore moved with his parents from northern Ohio to the shipbuilding town of Manitowoc on the shores of Wisconsin's Lake Michigan, where the Germanic inhabitants punctuate their conversations with "enso," the local radio station interrupts Beethoven for commercials, and the outdoors are a wellspring of enlightenment. Crehore's stories of his youth in 1950s Wisconsin are peppered with engaging characters and a quiet wit. A grouse-hunting expedition goes awry when an eccentric British businessman bags an escaped bantam rooster with a landing net. Crehore's great-grandfather gets in trouble one Christmas when he sneaks a whoopee-cushion under a guest's seat. The elderly Frau Blau gets trapped in an outhouse by a shady auctioneer during a farm sale. Through all the adventures—and misadventures—in a small town and in the great outdoors of Wisconsin, family is always at the center. This gently humorous look back at a baby-boomer's awakening to adulthood will be appreciated by members of any generation. History of the Big Bonanza William Wright, 1876

History of the Big Bonanza Mark Twain, One easily gets a surface-knowledge of any remote country, through the writings of travelers. The inner life of such a country is not very often presented to the reader. The outside of a strange house is interesting, but the people, the life, and the furniture inside, are far more so. Nevada is peculiarly a surface-known country, for no one has written of that land who had lived long there and made himself competent to furnish an inside view to the public. I think the present volume supplies this defect in an eminently satisfactory way. The writer of it has spent sixteen years in the heart of the silver-mining region, as one of the editors of the principal daily newspaper of Nevada; he is thoroughly acquainted with his subject, and wields a practiced pen. He is a gentleman of character and reliability.

Requirements Engineering: Foundation for Software Quality Samuel A. Fricker, Kurt Schneider, 2015-03-13 This book constitutes the refereed proceedings of the 20th International Working Conference on Requirements Engineering: Foundation for Software Quality, REFSQ 2014, held in Essen, Germany, in April 2013. The 23 papers presented together with 1 keynote were carefully reviewed and selected from 62 submissions. The

REFSQ'15 conference is organized as a three-day symposium. The REFSQ'15 has chosen a special conference theme “I heard it first at RefsQ”. Two conference days were devoted to presentation and discussion of scientific papers. The two days connect to the conference theme with a keynote, an invited talk and poster presentations. There were two parallel tracks on the third day: the Industry Track and the new Research Methodology Track. REFSQ 2015 seeks reports of novel ideas and techniques that enhance the quality of RE’s products and processes, as well as reflections on current research and industrial RE practices.
