DEATH HULK: Orders to chase down the French frigate Elita off the Cape of Good Hope come as welcome news to Captain Havelock, stranded with the rest of the fleet at Spithead and waiting for France to initiate hostilities. Here is a chance for glory – and wealth. Very soon, however, Captain Havelock will come to realise that theirs are not the only two warships in the southern ocean. An enemy thought long since vanquished has risen from the deeps...

**Age of Anxiety** Anthony M. Wachs, Jon D. Schaff, 2019-11-29 *Age of Anxiety: Meaning, Identity, and Politics in 21st Century Film and Literature* analyzes literature and films that speak to our age of anxiety resulting from the decline of narratives that provided individuals with a meaningful human life. The authors argue that the twentieth-century sought to free individuals from the constraints of authoritative cultural traditions and institutions, liberating the autonomous self. Yet this has given rise to anxiety rather than liberation. Instead of deriving one's sense of purpose from one's role and place within a community, the consumer has been deceived into thinking that their identity can be purchased through the meaning represented by the conspicuous consumption of a brand. The same phenomenon manifests itself in politics within recent populist revolts against globalist politics. In addition, the rapid pace of technological development is driving an unprecedented faith in the malleability of human beings, raises doubts as to what it means to be a person. Utilizing paradigms from the fields of Communication/Rhetoric and Political Philosophy the book shows how the self has been displaced from its natural habitat of the local community. The book traces the origins of modern anxiety as well as possible remedies. Considered in the book are such popular culture artifacts as *Downton Abbey*, *WALL-E*, *Hacksaw Ridge*, *Westworld*, and *Lord of the Rings* and zombie films.

**The Secret of the Stone Frog** David Nytra, 2012-09-11 *Siblings* Leah and Alan wake one morning in the middle of an enchanted forest and encounter a strange and spectacular world filled with foppish lions, giant rabbits, and a talking stone frog for a guide.

In the Earth of the future, humans are on the run from an alien force—giant blobs who suck up electrical devices wherever they can find them. Strata and her family are part of a caravan of digital rescuers, hoping to keep the memory of civilization alive by saving electronics wherever they can. Many humans have reverted to a pre-electrical age, and others have taken advantage of the invasion to become dangerous bandits and outlaws. When Strata and her brother are separated from the caravan, they must rely on a particularly beautiful and rare robot pony to escape the outlaws and aliens—and defeat the invaders once and for all.
