**Born to Run** Christopher McDougall,2010-12-09 A New York Times bestseller 'A sensation ... a rollicking tale well told' - The Times At the heart of Born to Run lies a mysterious tribe of Mexican Indians, the Tarahumara, who live quietly in canyons and are reputed to be the best distance runners in the world; in 1993, one of them, aged 57, came first in a prestigious 100-mile race wearing a toga and sandals. A small group of the world's top ultra-runners (and the awe-inspiring author) make the treacherous journey into the canyons to try to learn the tribe's secrets and then take them on over a course 50 miles long. With incredible energy and smart observation, McDougall tells this story while asking what the secrets are to being an incredible runner. Travelling to labs at Harvard, Nike, and elsewhere, he comes across an incredible cast of characters, including the woman who recently broke the world record for 100 miles and for her encore ran a 2:50 marathon in a bikini, pausing to down a beer at the 20 mile mark.

**Developing Minds** Arthur L. Costa,2001 What does research tell us about the effects of school leadership on student achievement? What specific leadership practices make a real difference in school effectiveness? How should school leaders use these practices in their day-to-day management of schools and during the stressful times that accompany major change initiatives? Robert J. Marzano, Timothy Waters, and Brian A. McNulty provide answers to these and other questions in School Leadership That Works. Based on their analysis of 69 studies conducted since 1970 that met their selection criteria and a recent survey of more than 650 building principals, the authors have developed a list of 21 leadership responsibilities that have a significant effect on student achievement. Readers will learn the specific behaviors associated with the 21 leadership responsibilities; the difference between first-order change and second-order change and the leadership responsibilities that are most important for each; how to work smart by choosing the right work to focus on to improve student achievement; the advantages and disadvantages of comprehensive school reform models for improving student achievement; how to develop a site-specific approach to improving student achievement, using a framework of 11 factors and 39 action steps; and a five-step plan for effective school leadership. Combining rigorous research with practical advice, School Leadership That Works gives school administrators the guidance they need to provide strong leadership for better schools.

**Strange Country** Mark Dapin,2008-11-01 This book is about the people I met as I crisscrossed Australia by train and plane and L-plated car: the undefeated dreamers and wild-hearted romantics, the obsessed hobbyists and beautiful failures. It is about heroes and legends, illusions, delusions and hope, and one or two men with shit for brains who ought to be locked up. As anyone who's ever read Mark Dapin's column and features in Good Weekend knows, he's an immensely funny, acute and vivid observer of Australian life. In Strange Country, he takes us on a journey through a very different Australia - a country that's eccentric, puzzling, big-hearted, small-minded, nostalgic and sometimes just plain mad. From the last travelling boxing tent to feral urban sewer rats to Vietnam Veteran bikies and the annual Parkes Elvis Festival, his writing illuminates the stranger side of Australian life in a travel book like no other.

**Sin and Confession on the Eve of the Reformation** Thomas N. Tentler,2015-03-08 Although John Calvin often likened sacramental confession to butchery, the Council of Trent declared that for those who approached it worthily, it was made easy by its great benefits and consolations. Thomas Tentler describes and evaluates the effectiveness of sacramental confession as a functioning institution designed to cause guilt as well as cure guilt, seeing it in its proper place as a part of the social fabric of the Middle Ages. The author examines the institution of confession in practice as well as in theory, providing an analysis of a practical literature whose authors wanted to explain as clearly as they safely could what confessors and penitents had to believe, do, feel, say, and intend, if sacramental confession were to forgive sins. In so doing he recreates the mentality and experience that the Reformers attacked and the Counter-Reformers defended. Central to his thesis is the contention that Luther, Calvin, and the Fathers of Trent regarded religious institutions as the solution to certain social and psychological problems, and that an awareness of this attitude is important for an assessment of the significance of confession in late medieval and Reformation Europe. **Car Business 101** Max Zanan,2018-12-24 Automotive retail is at crossroads--either it gets better or becomes extinct. Consumers are dissatisfied with the sales process in brick and mortar dealerships and that is the driving force behind the rise of Carvana and other industry disrupters. However, it is not too late to fix the way car dealerships operate and improve their reputation. Car Business 101 highlights irrational and counterproductive behavior that car dealers engage in on a daily basis. If you own or work in a car dealership it will be easy to recognize insanity that goes on in Sales, F&I, BDC, HR, and Parts & Service departments. This book offers a fresh perspective and plenty of practical solutions that should be implemented as soon as possible. It is informative and entertaining at the same time. It is a must read for dealer principals, dealership employees, and vendors that service car dealers.

The Invention of Improvement Paul Slack,2015 The idea of improvement - gradual and cumulative betterment - was something new in 17th century England. It became commonplace to assert that improvements in agriculture, industry, commerce, and social welfare would bring infinite prosperity and happiness. The word improvement was itself new, and since it had no equivalent in other languages, it gave the English a distinctive culture of improvement which they took with them to Ireland, Scotland, and America. Slack explains the political, intellectual, and economic circumstances which allowed notions of improvement to take root.
