Hype Gabrielle Bluestone,2021-04-06 Hype is the best kind of nonfiction: juicy, sharp, savage and wildly entertaining, with a celebrity behaving badly on every page. What more could you want?” -Cat Marnell, New York Times-bestselling author of *How to Murder Your Life* From former Vice journalist and executive producer of hit Netflix documentary *Fyre* comes an eye-opening look at the con artists, grifters and snake oil salesmen of the digital age—and why we can’t stop falling for them. We live in an age where scams are the new normal. A charismatic entrepreneur sells thousands of tickets to a festival that never happened. Respected investors pour millions into a start-up centered around fake blood tests. Reviewers and celebrities flock to London’s top-rated restaurant that’s little more than a backyard shed. These unsettling stories of today’s viral grifters have risen to fame and hit the front-page headlines, yet the curious conundrum remains: Why do these scams happen? Drawing from scientific research, marketing campaigns, and exclusive documents and interviews, former Vice reporter Gabrielle Bluestone delves into the irresistible hype that fuels our social media ecosystem, whether it’s from the trusted influencers that peddled *Fyre* or the consumer reviews that sold Juicero. A cultural examination that is as revelatory as it is relevant, *Hype* pulls back the curtain on the manipulation game behind the never-ending scam season—and how we as consumers can stop getting played.

Essays in Honour of Michael Bliss Elsbeth A. Heaman,Alison Li,Shelley McKellar,2008-03-22 A leading public intellectual, Michael Bliss has written prolifically for academic and popular audiences and taught at the University of Toronto from 1968 to 2006. Among his publications are a comprehensive history of the discovery of insulin, and major biographies of Frederick Banting, William Osler, and Harvey Cushing. The essays in this volume, each written by former doctoral students of Bliss, with a foreword by John Fraser and Elizabeth McCallum, do honour to his influence, and, at the same time, reflect upon the writing of history in Canada at the end of the twentieth century. The opening essays discuss Bliss's career, his impact on the study of history, and his academic record. Bliss himself contributes an autobiographical essay that strengthens our understanding of the business of scholarship, teaching, and writing. In the second section, the contributors interrogate public mythmaking in the relationship between politics and business in eighteenth-, nineteenth-, and twentieth-century Canada. Further sections investigate the relationship between fatherhood, religion, and historiography, as well as topics in health and public policy. A final section on 'Medical Science and Practice' deals with subjects ranging from early endocrinology, lobotomy, the mechanical heart, and medical biography as a genre. Going beyond a collection of dedicatory essays, this volume explores the wider subject of writing social and medical history in Canada in the late twentieth century.

The United States of Medievalism Tison Pugh,Susan Aronstein,2021-08-31 *The United States of Medievalism* contemplates the desires, dreams, and contradictions inherent in experiencing the Middle Ages in a nation that is so temporally, spatially, and at times politically removed from them. The European Middle Ages have long influenced the national landscape of the United States through the medieval sites that permeate its self-announced republican landscapes and cities. Today, American-built medievalisms continue to shape the nation’s communities, collapsing the binaries between past and present, medieval and modern, European and American. The volume’s chapters visit the nation’s many medieval-inspired spaces, from Sherwood Forest in Texas to California’s San Andreas Fault. Stops are made in New York City’s churches, Boston’s gardens, Philadelphia’s Bryn Athyn Cathedral, Orlando’s Magic Kingdom, Appalachian highways, Minnesota’s Viking Villages, New Orleans’s Mardi Gras, and the Las Vegas Strip. As the editors and their fellow essayists take the reader on this cross-country trip across the United States, they ponder the cultural work done by the nation’s medievalized spaces. In its exploration of a seemingly distant period, this collection challenges the underexamined legacy of medievalism on the western side of the Atlantic. Full of intriguing case studies and reflections, this book is informative reading for anyone interested in the contemporary vestiges of the Middle Ages.

Implementing Climate Change Measures in the EU Merle Grobbel,2008-12-19 What changed in the United States with Hurricane Katrina was a feeling that we have entered a period of consequences. – Al Gore On February 05, 2007, the Intergovernmental Panel on Climate Change (IPCC) published the executive summary of its fourth assessment report (to be published April 06, 2007). In the summary, it not only acknowledged that climate change is happening at an accelerated rate, but also that its consequences would be dreary: changes in precipitation and in wind patterns, a rise of the sea levels, and desert- cation will globally impact the frequency of disasters and impair living standards. Whether or not we believe climate change is happening, over the past two years, we have witnessed a rise of the topic from oblivion to ubiquity and have experienced a growing emphasis on finding measures to prevent climate change. There is an unprecedented agreement among environmentalists, politicians, the public, and industry that we have to take effective action. Politicians are putting their creative plans to action unusually fast: Australia bans the light bulb, Belgium switches off lamps along lighted highways, and the US introduces daylight savings time two weeks earlier than in previous years. Industry, the most unlikely candidate for support, is rallying together in action groups like US-Cap or 2 Grad, and more and more consumers are offsetting their emissions through websites like myclimate.
