Summary of Stu Heinecke's How to Get a Meeting with Anyone Everest

Media,2022-04-23T22:59:00Z Please note: This is a companion version & not the original book.

Sample Book Insights: #1 Contact Marketing is the art of breaking through to specific people of strategic importance, often against impossible odds, to produce a critical sale, partnership, or connection. It is a form of marketing that directly involves salespeople as the response channel. #2 Marketing campaigns have three critical metrics: cost, response, and return on investment or ROI. In the world of contact marketing, every one of these is wonderful and bizarre. #3 The Sandler franchisee targeted five Fortune 1000 CEOs, and after meeting with them, two bought starter programs on the spot, worth an estimated \$50,000 each. The campaign generated a 100 percent response and an 8,000 percent ROI. #4 The use of gimmicks in marketing is not a gimmick, but it is a understandable reaction based on conventional expectations of marketing and sales performance.

Revitalizing Health for All International Development Research Centr,2017-06-30 The concept of Comprehensive Primary Health Care focuses on health system efforts to improve equity in health care access, community empowerment, participation of marginalized groups, and actions on the social determinants of health. Despite its existence since the late 1970s very few studies have been able to highlight the outcomes of this concept, until now. *Revitalizing Health for All* examines thirteen cases of efforts to implement CPHC reforms from around the globe including Australia, Brazil, Democratic Republic of Congo, Iran, South Africa, and more. The findings presented in this volume originate from an international action-research set of studies that utilized triads of senior and junior researchers and knowledge users from each country's public health system. Primary health care reform is an important policy discourse both at the national level in these countries and in the global conversations, and this volume reveals the similarities among CPHC projects in diverse national contexts. These similarities provide a rich evidence base from which future CPHC reform initiatives can draw, regardless of their country.
