Kasinomics GG Alcock, 2015-10-01 Kasinomi is a book as eclectic, mysterious and colourful as the places and people it explores. eKasi, the lokasie, the South African township, once an apartheid ghetto, is today an amazingly transformed place. This township today is an eclectic mix of mansions, shacks, spaza shops, rocking taverns, hawkers, taxis and hot wheels. In this kasi there are vibrant businesses, energetic people, a tightly networked social community and abundant hope. That is not to say there isn't extreme poverty, suffering and dissatisfaction, particularly on the peripheries in the huge shack settlements, but to paint the place as a slum is a massive mistake. Kasinomi attempts to cast a light on the invisible matrix at the heart of South Africa's informal economies and the people who live in them. Living and doing business in African marketplaces requires an ethos uniquely suited to the informal, to the invisible, to the intangible. Kasinomi will take you down those rural pathways, weave between claustrophobic mazes of shacks, browse a muti market, visit a spirit returning ceremony and save money with gogo in a stokvel among many more people and places. After almost twenty years of focusing on marketing to the informal sector, GG Alcock, CEO of specialist marketing company Minanawe, showcases a number of groundbreaking and very successful case studies in this invisible informal world. His vivid anecdotes and life experiences and how they link to understanding and inspiration for business ideas will make you gasp, laugh and shake your head in wonder.

Models of Protection Against HIV/SIV Gianfranco Pancino, Guido Silvestri, Keith Fowke, 2011-12-02 A successful vaccine for the prevention and/or immunotherapy against HIV/AIDS is one of the prominent challenges of the 21st century. To date, all human vaccine trials against this virus/disease have resulted in failure, or at best have shown very low efficacy. The scientific community dealing with HIV/AIDS has unanimously proposed a focus on basic science, with the intention of identifying

correlates of protection that can serve as guides in developing and evaluating vaccine preparation. However, Nature seems to have already found several ways of dealing with infections by HIV and related primate lentiviruses, either by resisting infection or, once infected, avoiding immune damage and immunodeficiency. Models of Protection Against HIV/SIV will allow for an in-depth reflection on the perspectives for vaccine and therapy research derived from important recent studies. It will be authored by some of the most well known specialists in the field of HIV resistance/protection: including F. Barré-Sinoussi (2008 Nobel Prize for Medicine winner), B. Walker, S. Rowland-Jones, A. Telenti, M. Lederman and F. Plummer. This book is structured in a unique way, looking at three models of resistance/protection separately and then comparing the models against one another to provide its readership with a detailed examination of the research that is most predominant in the search for a vaccine. This structure presents the information in an easy-to-understand format and gives the book a cross-discipline appeal -- an important reference for those in the scientific community, medical care, public health and academia alike. Provides extensive descriptions and comparisons on the different models of protection against HIV/AIDS Comprehensive writing and illustrations Contributors are among the most eminent specialists in the field

Managing in Recovering Markets S. Chatterjee, N.P. Singh, D.P. Goyal, Narain Gupta, 2014-10-27 The changing dynamics of business worldwide have led organizations to look beyond traditional managerial practices while at the same time attempting to retain their core competitive advantages. This development has called upon academicians and practitioners alike to reassess the different aspects of business management such as macroeconomic variables, the nature of the market, the changing features of the workplace, the new work ethos, and/or employer-employee exchanges. In this context, the book provides essential insights on industry innovations, academic advances and policy movements with regard to recovering markets in India and around the globe. The individual papers highlight potential avenues that could allow industry to better understand and respond to the global crisis.
