**History After Hobsbawm** John Arnold,Matthew Hilton,Jan Rüger,2018 What does it mean--and what might it yet come to mean--to write history in the twenty-first century? History After Hobsbawm brings together leading historians from across the globe to ask what being an historian should mean in their particular fields of study. Taking their cue from one of the previous century's greatest historians, Eric Hobsbawm, and his interests across many periods and places, the essays approach their subjects with an underlying sense of what role an historian might seek to play, and attempt to help twenty-first-century society understand how we got here They present new work in their sub-fields but also point to how their specialisms are developing, how they might further grow in the future, and how different areas of focus might speak to the larger challenges of history--both for the discipline itself and for its relationship to other fields of academic inquiry. Like Hobsbawm, the authors in this collection know that history matters. They speak to both the past and the present and, in so doing, introduce some of the most exciting new lines of research in a broad array of subjects from the medieval period to the present.

**Emancipation and the remaking of the British Imperial world** Catherine Hall,Nicholas Draper,Keith McClelland,2015-11-01 Slavery and the slavery business have cast a long shadow over British history. In 1833, abolition was heralded as evidence of Britain's claim to be the modern global power. Yet much is still unknown about the significance of the slavery business and emancipation in the formation of modern imperial Britain. This book engages

with current work exploring the importance of slavery and slave-ownership in the re-making of the British imperial world after abolition in 1833. The contributors to this collection, drawn from Britain, the Caribbean and Mauritius, include some of the most distinguished writers in the field: Clare Anderson, Robin Blackburn, Heather Cateau, Mary Chamberlain, Chris Evans, Pat Hudson, Richard Huzzey, Zoë Laidlaw, Alison Light, Anita Rupprecht, Verene A. Shepherd, Andrea Stuart and Vijaya Teelock. The impact of slavery and slave-ownership is once again becoming a major area of historical and contemporary concern: this book makes a vital contribution to the subject.

**Migration and Marriage** Barbara Waldis,Reginald Byron,2006 In a world in which migration and the mixing of peoples are increasing while at the same time multicultural ideology has given rise to the reassertion of putative primordial differences between peoples, interesting questions are raised about the relationships between political rhetoric and social action, groupness and individuality, and the public and the private. The rate of intermarriage is considered by sociologists the most important statistical test of the strength or weakness of structural divisions within societies. What do social anthropologists have to say about heterogamy and homogamy in situations of movement and flux, and what does this tell us about processes of boundary-definition?

**Knowledge-Based Explorable Extended Reality Environments** Jakub Flotyński, 2020-12-07 This book presents explorable XR environments—their rationale, concept, architectures as well as methods and tools for spatial-temporal composition based on domain knowledge, including geometrical, presentational, structural and behavioral elements. Explorable XR environments enable monitoring, analyzing, comprehending, examining and controlling users' and objects' behavior and features as well as users' skills, experience, interests and preferences. The E-XR approach proposed in this book relies on two main pillars. The first is knowledge representation technologies, such as logic programming, description logics and the semantic web, which permit automated reasoning and queries. The second is imperative programming languages, which are a prevalent solution for building XR environments. Potential applications of E-XR are in a variety of domains, e.g., education, training, medicine, design, tourism, marketing, merchandising, engineering and entertainment. The book's readers will understand the emerging domain of explorable XR environments with their possible applications.

Special attention is given to an in-depth discussion of the field with taxonomy and classification of the available related solutions. Examples and design patterns of knowledge-based composition and exploration of XR behavior are provided, and an extensive evaluation and analysis of the proposed approach is included. This book helps researchers in XR systems, 3D modeling tools and game engines as well as lecturers and students who search for clearly presented information supported by use cases. For XR and game programmers as well as graphic designers, the book is a valuable source of information and examples in XR development. Professional software and web developers may find the book interesting as the proposed ideas are illustrated by rich examples demonstrating design patterns and guidelines in object-oriented, procedural and declarative programming.

**Everybody Fights** Kim Holderness, Penn Holderness, 2021-03-30 A USA Today and Wall Street Journal bestseller! Learn how to fight better and end your arguments with your partner feeling closer, more loved, and better understood. We take our cars in for oil changes. We mow our lawns and pull weeds. Why don't we do maintenance on our marriages? This relationship is the most important one we will ever have, so why not get better at it? For the last several years, Penn and Kim Holderness of The Holderness Family have done the hard maintenance and the research to learn how to fight better. With the help of their marriage coach Dr. Christopher Edmonston, they break down their biggest (and in some cases, funniest) fights. How did a question about chicken wings turn into a bra fight (no, not a bar fight or a bra fight)? How did a roll of toilet paper lead to tears, resentment, and a stint in the guest bedroom? With their trademark sense of humor and complete vulnerability, Penn and Kim share their 10 most common Fight Fails and how to combat them. Throughout the book, they offer scripts for how to start, continue, and successfully close hard conversations. Couples will emerge equipped to engage and understand, not do battle—and maybe laugh a little more along the way. In *Everybody Fights*, couples will learn how to: Use magic words for healthy conflict resolution Address unspoken and unrealistic expectations Banish the three Ds of unhealthy communication—distraction, denial, and delay Carry individual baggage while helping your partner deal with theirs Penn and Kim want you to know you're not alone. *Everybody fights*. Marriage is messy. Marriage is work. But marriage is worth it. Fight for it!
