Bloomsbury Girls Natalie Jenner, 2022-05-17 Delightful. --People, Pick of the Week *Named a Most Anticipated Book of 2022 by Katie Couric Media, the CBC, the Globe and Mail, BookBub, POPSUGAR, SheReads, Women.com and more!* Natalie Jenner, the internationally bestselling author of *The Jane Austen Society*, returns with a compelling and heartwarming story of post-war London, a century-old bookstore, and three women determined to find their way in a fast-changing world in *Bloomsbury Girls*. Bloomsbury Books is an old-fashioned new and rare book store that has persisted and resisted change for a hundred years, run by men and guided by the general manager's unbreakable fifty-one rules. But in 1950, the world is changing, especially the world of books and publishing, and at Bloomsbury Books, the girls in the shop have plans: Vivien Lowry: Single since her aristocratic fiancé was killed in action during World War II, the brilliant and stylish Vivien has a long list of grievances--most of them well justified and the biggest of which is Alec McDonough, the Head of Fiction. Grace Perkins: Married with two sons, she's been working to support the family following her husband's breakdown in the aftermath of the war. Torn between duty to her family and dreams of her own. Evie Stone: In the first class of female students from Cambridge permitted to earn a degree, Evie was denied an academic position in favor of her less accomplished male rival. Now she's working at Bloomsbury Books while she plans to remake her own future. As they interact with various literary figures of the time--Daphne Du Maurier, Ellen Doubleday, Sonia Blair (widow of George Orwell), Samuel Beckett, Peggy Guggenheim, and others--these three women with their complex web of relationships, goals and dreams are all working to plot out a future that is richer and more rewarding than anything society will allow.

Eye Level Jenny Xie, 2018-04-03 FINALIST FOR THE NATIONAL BOOK AWARD FOR POETRY Winner of the Walt Whitman Award of the Academy of American Poets, selected by Juan Felipe Herrera For years now, I've been using the wrong palette. Each year with its itchy blue, as the bruise of solitude reaches its expiration date. Planes and buses, guesthouse to guesthouse. I've gotten to where I am by dint of my poor eyesight, my overreactive motion sickness. 9 p.m., Hanoi's Old Quarter: duck porridge and plum wine. Voices outside the door come to a soft boil. —from "Phnom Penh Diptych: Dry Season" Jenny Xie's award-winning debut, *Eye Level*, takes us far and near, to Phnom Penh, Corfu, Hanoi, New York, and elsewhere, as we travel closer and closer to the acutely felt solitude that centers this searching, moving collection. Animated by a restless inner questioning, these poems meditate on the forces that moor the self and set it in motion, from immigration to travel to estranging losses and departures. The sensual worlds here—colors, smells, tastes, and changing landscapes—bring to life questions about the self as seer and the self as seen. As Xie writes, "Me? I'm just here in my traveler's clothes, trying on each passing town for size." Her taut, elusive poems exult in a life simultaneously crowded and quiet, caught in between things and places, and never quite entirely at home. Xie is a poet of extraordinary perception—both to the tangible world and to "all that is untouchable as far as the eye can reach."

Limelight Amy Poeppel,2019-05-14 In a smart and funny novel by the author of the critically acclaimed “big-hearted, charming” (*The Washington Post*) *Small Admissions*, a family’s move to New York City brings surprises and humor. Allison Brinkley—wife, mother, and former unflappable optimist—discovers that her decision to pack up and move her family from suburban Dallas to the glittery chaos of Manhattan may have been more complicated than she and her husband initially thought. New York is more unruly and bewildering than she expected, defying the notions she developed from romantic movies and a memorable childhood visit. After a humiliating call from the principal’s office and the loss of the job she was counting on, Allison begins to accept that New York may not suit her after all. When she has a fender-bender, witnessed by a flock of mothers at her son’s new school, she is led to the penthouse apartment of a luxurious Central Park West building and encounters a spoiled, hungover, unsupervised teenager who looks familiar. It doesn’t take long to recognize him as Carter Reid—a famous pop star who has been cast in a new Broadway musical. Through this brush with stardom, Allison embraces a unique and unexpected opportunity that helps her find her way in the heart of Manhattan. “A tribute to Broadway, teen celebrity life, and a mother who has now seen it all, this work is tough love at its finest and a great read for those wanting a

ride on the wild side” (Booklist, starred review).

Loving and Hating Mathematics Reuben Hersh, Vera John-Steiner, 2010-12-13 Mathematics is often thought of as the coldest expression of pure reason. But few subjects provoke hotter emotions--and inspire more love and hatred--than mathematics. And although math is frequently idealized as floating above the messiness of human life, its story is nothing if not human; often, it is all too human. *Loving and Hating Mathematics* is about the hidden human, emotional, and social forces that shape mathematics and affect the experiences of students and mathematicians. Written in a lively, accessible style, and filled with gripping stories and anecdotes, *Loving and Hating Mathematics* brings home the intense pleasures and pains of

mathematical life. These stories challenge many myths, including the notions that mathematics is a solitary pursuit and a young man's game, the belief that mathematicians are emotionally different from other people, and even the idea that to be a great mathematician it helps to be a little bit crazy. Reuben Hersh and Vera John-Steiner tell stories of lives in math from their very beginnings through old age, including accounts of teaching and mentoring, friendships and rivalries, love affairs and marriages, and the experiences of women and minorities in a field that has traditionally been unfriendly to both. Included here are also stories of people for whom mathematics has been an immense solace during times of crisis, war, and even imprisonment--as well as of those rare individuals driven to insanity and even murder by an obsession with math. This is a book for anyone who wants to understand why the most rational of human endeavors is at the same time one of the most emotional.
