The Customer Service Revolution John R.

Dijulius,2015-01-06 In The Customer Service Revolution, Dijulius points out how numerous companies have made Customer service their biggest competitive advantage, are dominating their industries, and have made price irrelevant. As a result of this Customer service revolution, people are being treated differently, better, and in a way like never before. This is a result of how companies and management are treating their employees and how employees are treating each other and the Customer—which ultimately permeates into people's personal lives at home and in their communities. Can the way you run your business or treat your Customers have an effect on the world at large? John Dijulius will show you just that! Drawing on years of experience consulting with the top customer service companies around the world and in his role building his first business, John Robert's Spa, into one of the top 20 salons in the US, Dijulius will show you exactly how to create your very own Customer service revolution and make price

irrelevant.

La Confiance Créative Tom Kelley,David Kelley,2016-04-27 La Confiance créative est au coeur de l'innovation. Croire que la créativité et l'innovation sont l'apanage de certains esprits dits créatifs est une idée fausse. Dans cet ouvrage, illustré de nombreux exemples, les frères Kelley, deux grandes figures de l'innovation, nous montrent de façon lumineuse et vivante que nous sommes tous -hommes ou organisations- capables de faire preuve d'innovation et de créativité si nous apprenons à nous faire confiance avec un bon outil : le Design Thinking - que ce soit pour résoudre un problème, optimiser ou créer un produit.

Looking Beyond the Runway Nawal K.

Taneja,2016-12-05 The global airline industry, facing significant changes and discontinuity is prompted and forced to deal with a new normal. Who would have imagined a few years ago that: - a significant percentage of consumers in the US now prefer to fly low-cost airlines instead of full-service airlines because they perceive the product to be better, - airlines would generate up to a third of their total income from non-ticket revenue, - many low-cost airlines would add complexity to their original simple business models through the development of code-share agreements, the use of global distribution systems, and travel agents to distribute their seats, - Jetstar, a low-cost subsidiary of Qantas, would grow faster and be more profitable than its parent, - a survey carried out by Ryanair

would show that 42 percent of passengers would be willing to stand on short (one hour) flights if they could pay 50 percent less than seated passengers, - passengers could pay as little as US\$2,000 for a transatlantic Business Class ticket on top-brand airlines, - Lufthansa would have ownership in airlines based in Austria, Belgium, Italy, Switzerland, Turkey, the UK, and the US, and that it would continue to pursue equity ownership in airlines based in Poland and Scandinavia, or - the Japanese and Canadian governments would struggle to find different ways to bail out their heretofore flag carriers? To deal with this upcoming new normal, airlines have to go beyond their short-term circumstantial strategies - they need strategic renewal of their ageing business model. In this candidly-written book, Nawal Taneja explains what will separate the winners from the losers. He maintains the leaders will be the airlines that: (1) exploit this crisis-driven change to their best advantage, (2) learn to work around the airline-inherent constraints that prevent them from running their businesses just like other businesses, (3) learn from successes and failures of other global enterprises, (4) sharpen their business intelligence, analytics, and strategic agility, and (5) proactively explore the pockets of growth in this emerging-markets century. To help airline executives become informed of new competitive games, the author analyzes numerous business sectors such as auto, hospitality, retail, technology, and entertainment. For example, relevant lessons can be learned from the strategic mistakes made by the US automakers. Likewise, emergent and compelling insights can be gained in superior customer experience from Ritz Carlton and Zappos, and in value-creating innovation from Cirque du Soleil and Zipcar. The book also features a multitude of forewords from airlines and related businesses to provide readers with multiple

perspectives on the changing landscape in the global airline industry. Nawal Taneja is a career analyst of the global airline industry with wide-ranging experience in the aviation industry, academia, and public policy. Encouraged by industry executives, he has written five other books for practitioners in the global airline industry, including FASTEN YOUR SEATBELT: The Passenger is Flying the Plane and Flying Ahead of the Airplane.
