**C.J. Peters, Mark Olshaker**

Virus Wars Drew Mallery, 2022-05-25 In a world that is ravaged by a virus, the government craves ultimate control over a post-apocalyptic wasteland. With the world left in ruins, one family fights back. The world has been devastated by a virus and a one world government has been formed to ensure the safety of the human race. All who accept their rule are welcome, but those who oppose it are deemed a threat and must be removed. Three brothers faced with the capture of their sister, by a power-hungry government, are aided by their God given gifts and set out on the most dangerous journey of their lives. Their action-packed adventure leads them to old friends, diabolical enemies, battles with bandits and government enforcement officers. If they make it alive to the Capital, how will they find their sister, and escape without being captured, or worse? We live in a world crippled by fear and an uncertain future. The Virus Wars will allow readers to imagine themselves taking control of a world where everything around them seems chaotic. The feeling of wanting to be a part of something, even when it means betraying long held values, is a struggle many of us face. How will this family respond? How will you respond when the challenge arises?

**Virus Wars** Raymond Youngblood, 2014-11-03 VIRUS WARS: CURE vs CULTURE The EBOLA Wars: Ebola is curable through social behavior and cultural attitude. Ebola is currently not curable through any form of medication. Ebola is a social virus disease, meaning a person can become infected through their daily activities. The focus to stop the spread of the virus disease. Let us declare and established the focus is not Africans, it's the virus disease. The focus is stoping the spread of a killer virus disease. We are focusing on the spread because there is no medicine to cure, so by default you have to focus on the spread. CDC and WHO say's the infection can only occur in humans and other mammals. Ebola is spread through direct contact, which is Ebola infection methods making contact with you or you making contact with it;

through broken skin, mucous membranes with blood or body fluids of a person who is infected. CURE: Simplicity: Ebola has no cure through drugs, no proven treatment, nothing proven. Complexity: Ebola is 90% +/- fatal once you are infected whether transmitted intentional or accident. Economics: Cost is \$5 billion with no facts on long-term effects. It kills through social behavior, no one has focused long/short term strategies and goals towards. Focus is placed on a drug cure, with treatment and some public awareness. CULTURE: Simplicity: Ebola is 100% non-fatal when the populous is adjusting their behavior and attitude. Complexity: Ebola has a cure through culture and attitude adjustments, a proven cure. Economics: Cost is \$1 billion or less with a guarantee of long term effects. It cannot kill when adjustments have been adapted in the culture. Attitudes And Behavior: What if people refuse to adjust their behavior or attitudes? And they probably will. Problem: Ebola is a social virus disease that kills when you are medically unprepared to care for an infected person,...come in physical contact with and infected person without you or the person knowing. Solution: Ebola is a social virus that cannot kill if you properly isolate and treat those already infected,...personal space and build infrastructure that reduces poverty.

**Eternity** Maggie Lynch, 2017-05-30 Living 800 years is like the fountain of youth for some...and for others it's worse than a death sentence. Eternity, Inc. owns a virus that allows humans to live up to 800 years-their physical bodies age only one year for every ten years of life. Miki Yokoyama leads a rebel organization known as the Agers. Her goal is to create a counter agent to reintroduce "natural" death, no matter the cost. When Eternity learns of the Ager plan, they send their best agents to infiltrate Miki's organization and to sabotage any efforts to distribute a counter-virus. Rohin Chawla and Miki were science partners and passionate lovers when they originally discovered the Eternity virus in Antarctica two hundred years ago. But they separated as enemies. When they meet again, Rohin realizes he must rally his resources

to stop the Ager virus or risk the only viable future he sees. But no one can foresee the extent human treachery will go when there are astronomical profits and world-wide political power at stake. Will Rohin and Miki combine forces against a greater evil, or fight each other over prolonged life or natural death? Their decision will determine who survives—and, ultimately, the outcome of humanity's future.

**CORONA VIRUS -WELCOME TO DISTOPIA - VIRUS WARS THE UNMANNED WORLD AND ESOTERIC ORGANIZATIONS**  
GÜLHAN KARADAĞ AĞKURT,2020-02-07 “NOVUS ORDO SECLORUM” (NEW WORLD ORDER) is the name of the esoteric organizations, which have been operating in secrecy for centuries, to reshape the world with few elected citizens of the world, as Prophet Noah. Although these esoteric groups, which occasionally had great blows from groups with different political and religious tendencies, were mixed in the darkness of centuries, they emerged in different names and groups. A pillar of this order (reducing HUMAN POPULATION- RHP) project that is Project based REDUCTION OF HUMAN EXTINCTION. However, this project has a real aspect, even a monument, without a conspiracy theory. This monument, which is unknown for what reason and by whom it was financed and built, is located in the state of Georgia, USA. There are 10 recommendations written in 8 different languages behind and in front of the stones, each weighing 20 tons and 5 meters in height. First recommend is very important: MAINTAIN HUMANITY UNDER 500,000,000 IN PERPETUAL BALANCE WITH NATURE. Today, the emergence of deadly and widespread viruses such as MERS, SARS, CORONA, this project is emerging in the background of the mind of anyone who knows. Whatever the allegations actually are, it seems that the states, esoteric groups, or dynasties that rule the world seem to have pushed the button for immoral, asymmetrical and HYBRID wars, including viruses, chemicals, biotechnology, microorganisms, climate and earthquake weapons (HAARP).

Anxieties of Biological VIRUS WAR Prof. Manjunatha Ulavathi Shettar, 2021-09-17 What is the source of all the tragedies in today's modern world? Historian and thinker Will Durant concludes that time has been a source of religious distraction. Considering the phenomena around us, it is the home of all the tragedies that have made people feel religious. Buyer ideologies are responsible for the wars that haunt the world today. There has been a conflict between these two values since the time of the orphans. In the past, humanity's original quality of violence has prevailed. Modern society has embraced various forms of violence. Human history is characterized by numerous epidemics and several worldwide epidemics. While some pandemics have caused the pronouncement of millions of people, some other ubiquitous diseases have sometimes brought entire civilizations to the brink of extinction. Microscopic organisms, invisible insects; these are like insects. All the great novelists who have no power in front of them are helpless. The great man, who brought these insects to the world along with humans, plays a neutral role in the pestilence he has demonstrated. Indeed, in today's developing countries, failing to adequately manage basic amenities, including education, health and employment, will be a poor decision in terms of future development. The history of the world has already informed us the global truth that the war has begun, not ended.

**Cell Wars** Frances R. Balkwill, 1993-01-01 Explains how cells fight off diseases and viruses in the human body.

Cell Wars II A. Miles, 2015-03-12 \*\* SILVER MEDAL winner of The Wishing Shelf Independent Book Awards 2014 \*\* Bands, a white blood cell, is on a dangerous mission to find and destroy all the deadly flu viruses rapidly spreading through the body. His teacher Master Baso and Captain Neutro have taught him so much, but will it be enough? Follow the award winning adventures of Bands, in the second book of the 'Cell Wars' series and find out if it is the flu virus or Bands who is exterminated! Cell Wars is a

series of fictional illustrated books that teaches children what happens in the body: diseases, bacteria and viruses, blood vessels, the heart and the transport of oxygen and carbon dioxide. An educational fictional book for students studying for KS 3 biology, GCSE and A level Biology and younger readers wanting to know more about Biology and how the body works. Parents - This book helps to explain how the flu virus works and how to keep healthy but in an entertaining fictional story, full of real life characters and facts. Cell Wars was awarded the silver medal in The Wishing Shelf Independent Book Awards. A fantastic book for kids. The author cleverly balances adventure and biology. It was also a finalist in The Rubery Book Award 2014. An ingenious idea..beautifully illustrated.

**Cold Wars** David Arthur John Tyrrell, Michael Fielder, 2002 Cold Wars tells the story of the common cold, the most widespread disease of all. From ancient Egypt to the space age, colds have plagued mankind, and many attempts have been made to find a cure. Today, we spend millions of pounds on remedies and businesses lose millions of pounds through employee sickness- but are we any closer to conquering the cold? In the aftermath of the Second World War, a concerted effort was made in the UK to resolve the scientific conundrum of the common cold. A Common Cold Unit was established near Salisbury, making use of some rather primitive facilities provided by the American Red Cross, and for nearly 50 years was part of the British medical establishment. Much of the research was done on volunteers, who came in large numbers to the CCU to spend days in isolation while scientists attempted to give them a cold. Many eminent scientists, including James Lovelock, were part of the attempt to understand the common cold. This book begins with a brief history of colds through the centuries, describing what earlier generations believed and the strange treatments they tried. That the cold was caused by a virus was only uncovered at the beginning of the last century. The authors vividly describe the establishment of the

Common Cold Unit, and its work in uncovering the causes and transmission of the cold and analysing possible treatments. Finally, they assess the progress made in recent years in understanding the psychological aspects of colds, and the latest research on prevention and cures. *Cold Wars* offers a fascinating account of an eccentric, but effective, attempt to unravel the mysteries of the common cold.

**Epidemics and War** Rebecca M. Seaman, 2018-04-12

Through its coverage of 19 epidemics associated with a broad range of wars, and blending medical knowledge, demographics, geographic, and medical information with historical and military insights, this book reveals the complex relationship between epidemics and wars throughout history. How did small pox have a tremendous effect on two distinct periods of war—one in which the disease devastated entire native armies and leadership, and the other in which technological advancements and the application of medical knowledge concerning the disease preserved an army and as a result changed the course of events? *Epidemics and War: The Impact of Disease on Major Conflicts in History* examines fascinating historical questions like this and dozens more, exploring a plethora of communicable diseases—viral, fungal, and/or bacterial in nature—that spread and impacted wars or were spread by some aspect of mass human conflict. Written by historians, medical doctors, and people with military backgrounds, the book presents a variety of viewpoints and research approaches. Each chapter examines an epidemic in relation to a period of war, demonstrating how the two impacted each other and affected the populations involved directly and indirectly. Starting with three still unknown/unidentified epidemics (ranging from Classical Athens to the Battle of Bosworth in England), the book's chapters explore a plethora of diseases that spread through wars or significantly impacted wars. The book also examines how long-ended wars can play a role in the spread of epidemics a generation later, as seen in the 21st-century mumps epidemic in

Bosnia, 15 to 20 years after the Bosnian conflicts of the 1990s.

VIRUS APOCALYPSE Biological Warfare, Bioweapons and China Coronavirus Pandemic. Here's what you NEED to know! In response to deepening concerns of the threat of germ warfare and bioterrorism, Germs, Biological Warfare, Vaccinations: MILITARY VIRUS APOCALYPSE: Biological Warfare, Bioweapons and China Coronavirus Pandemic discusses both the history of Biological Warfare and also traditional methods of combating germ warfare while also offering alternative approaches to preventing and treating diseases caused by biological agents. Biological, chemical and atomic weapons have the regular property of unleashing mass annihilation. Despite the fact that biological warfare is not the same as chemical warfare, there has consistently been the propensity to examine one regarding the other, or both together. MILITARY VIRUS APOCALYPSE: Biological Warfare, Bioweapons and China Coronavirus Pandemic includes: a historical review of the use of biological weapons to the present day, a list of bacteria, viruses, fungi, and toxins considered to be biological weapons, including anthrax, botulism, and ebola viruses--along with definitions and descriptions of the various agents, symptoms, and treatment options, information on how to detoxify, deacidify, and de-stress, as well as on natural ways to boost your immune system. This book now includes updated information about the new epidemic, the Coronavirus, where it originated from and ways to shield yourself and your family from the Coronavirus epidemic. *Feelings Poetry* Gary McLauchlan, 2012-05-03 All poetry, no  
matter what genre, has to come from the heart. For without  
feeling behind the words then the words are but shallow empty  
shells upon the page. Poetry has to be felt by the writer in order to  
pass on that same feeling to the reader of the piece. In *Feelings  
Poetry*, author Gary McLauchlan presents a poignant collection of  
poems that expresses his innermost feelings deep within his heart.

**Tlön : Journey to a Utopian Civilisation** Aristidis G.  
Romanos, 2015-07-15 The narrative in this book, in abridged form,  
was awarded 1st prize at the UIA (International Union of  
Architects) 2014 International Architectural Ideas Competition  
Utopia and Happiness. This is a story revealed in a Manuscript  
written by Ladislav, a 14th century Lithuanian explorer, who  
traveled in remote regions of the East and discovered ruins of Tln,  
a, hitherto unknown, utopian civilisation. Ladislav describes a  
society which practiced peaceful co-existence and tolerance in all  
its manifestations and whose mainstream philosophy was  
idealism. The extraordinary fact was that the Manuscript remained

in obscurity for about five hundred years until it passed, sometime in the middle of the 19th century, to the possession of Leonid Krk, one of the leading rare book collectors in London. Krk, a notable scholar in Baltic literature, who translated the manuscript into English, was later sentenced for fraud; most of his possessions and his Drury Lane residence, or what remained of it after the 1868 fire, were confiscated. The manuscript was sold at an auction to Caspar Amorson, a Scandinavian urban planner, who donated to the author an English copy. The Manuscript contains entities about the language, the philosophy, the social values, and the history of the civilisation discovered; it also describes, in an extended section, its architecture and town design and building. As the reader travels through the story, it becomes increasingly clearer that the four Ages in the history of TIn resemble, in some ways, our stages of evolution. In particular the third, alluding to the environmental crisis, forewarns a Huxley-like scenario of overcoming it.

**War Without Rules** Robert Spalding, 2022-04-19 In its fight for global dominance, Communist China has thrown out the old rules of war. China expert General Robert Spalding walks us through their new playbook. Many Americans are finally waking up to the alarming reality of China's stealth war on the United States and puzzling over how to push back against its insidious infiltration. What few realize is that we have one real advantage in this war: the Chinese Communist Party strategy for total war has been written out in *Unrestricted Warfare*, the Chinese book, well known there, that has become their new *Art of War*. In *War Without Rules*, retired Air Force Brigadier General Rob Spalding takes Americans inside *Unrestricted Warfare*. He walks readers through the principles of this book, revealing the Chinese belief that there is no sector of life outside the realm of war. He shows how the CCP itself has promised to use corporate espionage, global pandemics, and trade violations to achieve dominance. Most importantly, he provides insight into how, once Americans

are aware of the tactics, we can fight back against CCP's creeping influence. More than a vital read for those interested in China, *War Without Rules* is essential reading for anyone—from policymakers and diplomats to businessmen and investors—finally waking up to the stealth war. Knowledge is power, and it's time to arm yourself.

*Starborn* Catherine Asaro, 2023-08-15 Following her heart, she left Earth behind—and now only she can save it . . . Tina Santis Pulivok never thought anyone would make sense of the strange way her mind could become saturated with other people's moods. But then she met Althor, an empathic starfighter pilot from hundreds of years in the future. As their love grows, she leaves her Earth to join his universe where she has no ties except to Althor and their vulnerable marriage. Althor comes from a race of rare psions whose abilities are vital to the survival of humanity, making him coveted by three interstellar civilizations. His enemies sabotaged his starfighter and never expected him to return. Now he faces betrayals from every side. He and Tina become the targets of a merciless enemy who thrives on pain—and who will do anything to destroy the budding alliance between Althor's people and Tina's Earth . . . The completion of the thrilling interstellar adventure that began with *Earthborn*. Praise for *Lightning Strike* "From the L.A. barrios to the universe! **Lightning Strike** Catherine Asaro, 2023-08-15 A two-part adventure of time travel, romance, and interstellar intrigue that takes you "from the L.A. barrios to the universe! Excellent" (The San Diego Union-Tribune). Born in Mexico but living in East LA much of her young life, Tina Santis Pulivok has always felt different from her friends and family. Her mind picks up the moods of others, but she's never understood why—until a bizarre meeting

gives her a one-of-a-kind connection to a soldier from the future. Their connection will transcend both time and space—and the future of both their worlds depends on it . . . Earthborn Tina knows the strange man on the street must be lost, but she can't imagine just how far he is from home. Althor, an Imperial Space Command pilot, left his planet in 2328 to attend a reception in Washington DC—and somehow ended up in 1987 Los Angeles. When the military captures his starfighter, he and Tina race to recover the ship before it detonates—and takes a large swath of California with it . . . Starborn Following her heart, Tina leaves Earth behind when she travels to a future universe with starfighter pilot Althor. But the more she learns about his powerful, telepathic family, the more she realizes how much danger they're in, as a merciless enemy targets the newlywed couple in a treasonous plan to conquer human civilization. Praise for *Lightning Strike* "A space adventure for the twenty-first century." —Nancy Kress, Hugo and Nebula Award-winning author "A truly masterful accomplishment of world-building, an example of consummate craftsmanship and an impeccable feel for the technical and social possibilities that lie ahead of us. Hard science fiction fans can rejoice—the next superstar is here." —Romantic Times

Virus Hunter C.J. Peters, Mark Olshaker, 1998-04-13 A New York Times Notable Book The man who led the battle against Ebola in *The Hot Zone* teams up with the bestselling co-author of *Mind Hunter* to chronicle his extraordinary thirty-year career fighting deadly viruses. For three decades, Dr. C. J. Peters was on the front lines of our biological battle against "hot" viruses around the world. In the course of that career, he learned countless lessons about our interspecies turf wars with infectious agents. Called in to contain an outbreak of deadly hemorrhagic fever in Bolivia, he confronted the despair of trying to save a colleague who accidentally infected himself with an errant scalpel. Working in Level 4 labs on the Machupo and Ebola viruses, he saw time and again why expensive high-tech biohazard containment equipment

is only as safe as the people who use it. Because of new, emerging viruses, and the return of old, “vanquished” ones for which vaccines do not exist, there remains a very real danger of a new epidemic that could, without proper surveillance and early intervention, spread worldwide virtually overnight. And the possibility of foreign countries or terrorist groups using deadly airborne viruses—the poor man’s nuclear arsenal—looms larger than ever. High-octane science writing at its best and most revealing, *Virus Hunter* is a thrilling first-person account of what it is like to be a warrior in the Hot Zone.
