Sounds Like Titanic: A Memoir Jessica Chiccehitto Hindman, 2019-02-12 A young woman leaves Appalachia for life as a classical musician—or so she thinks. When aspiring violinist Jessica Chiccehitto Hindman lands a job with a professional ensemble in

New York City, she imagines she has achieved her lifelong dream. But the ensemble proves to be a sham. When the group “performs,” the microphones are never on. Instead, the music blares from a CD. The mastermind behind this scheme is a peculiar and mysterious figure known as The Composer, who is gaslighting his audiences with music that sounds suspiciously like the Titanic movie soundtrack. On tour with his chaotic ensemble, Hindman spirals into crises of identity and disillusionment as she “plays” for audiences genuinely moved by the performance, unable to differentiate real from fake. *Sounds Like Titanic* is a surreal, often hilarious coming-of-age story. Hindman writes with precise, candid prose and sharp insight into ambition and gender, especially when it comes to the difficulties young women face in a world that views them as silly, shallow, and stupid. As the story swells to a crescendo, it gives voice to the anxieties and illusions of a generation of women, and reveals the failed promises of a nation that takes comfort in false realities.

Understanding the Active Economy and Emerging Research on the Value of Sports, Recreation, and Wellness Finch, David J.,Legg, David,2021-06-04 The active economy incorporates several disciplines that include sport performance, sport business, recreation, tourism, physical activity, urban planning, leisure, and health and wellness, among others. From an academic and policy perspective, these disciplines are typically viewed as distinct, with only limited spillover, and consequently, limited research explores the interaction between them. However, each individual sector can be studied as interdependent rather than autonomous. By viewing the various sectors as part of a complex active ecosystem, policymakers and practitioners are better positioned to shape broad

opportunities while maximizing the community value of sports, recreation, and wellness. Understanding the Active Economy and Emerging Research on the Value of Sports, Recreation, and Wellness provides a new view on the fields of sport, recreation, and health and wellness by exploring the interaction between these traditional separate disciplines. It includes sub-groups of the active economy such as health and wellness, active apparel and accessories, active equipment and sports betting but also ties in sub-groups from the ancillary sector such as tourism, design and infrastructure, media and content, and professional services. This book is intended for professionals, educators, and researchers working in the fields of sports, recreation, and health and wellness, as well as economists, executives, managers, practitioners, stakeholders, researchers, academicians, and students interested in how sports, recreation, and wellness operate in the active economy.

Teachable Monuments Sierra Rooney, Jennifer Wingate, Harriet F. Senie, 2021-03-11 Monuments around the world have become the focus of intense and sustained discussions, activism, vandalism, and removal. Marion Sims, questioning their legitimacy as present-day heroes that their place in the public sphere reinforces.
