Make Time Jake Knapp, John Zeratsky, 2018-09-25 From the New York Times bestselling authors of *Sprint* comes "a unique and engaging read about a proven habit framework [that] readers can apply to each day" (Insider, Best Books to Form New Habits). "If you want to achieve more (without going nuts), read this book."—Charles Duhigg, author of *The Power of Habit* Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned design sprint, Jake and John have helped hundreds of teams solve important problems by changing how

they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. *Make Time* is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. *Make Time* isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., *Make Time* will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.

Our Class is a Family Shannon Olsen, 2020-04-07 Family isn't always your relatives. It's the ones who accept you for who you are. The ones who would do anything to see you smile, and who love you no matter what. -Unknown Teachers do so much more than just teach academics. They build a sense of community within their classrooms, creating a home away from home where they make their students feel safe, included, and loved. With its heartfelt message and colorfully whimsical illustrations, *Our Class is a Family* is a book that will help build and strengthen that class community. Kids learn that their classroom is a place where it's safe to be themselves, it's okay to make mistakes, and it's important to be a friend to others. When hearing this story being read aloud by their teacher, students are sure to feel like they are part of a special family. And currently, during such an

unprecedented time when many teachers and students are not physically IN the classroom due to COVID-19 school closures, it's more important than it's ever been to give kids the message that their class is a family. Even at a distance, they still stick together.

The 2030 Spike Colin Mason, 2013-06-17 The clock is relentlessly ticking! Our world teeters on a knife-edge between a peaceful and prosperous future for all, and a dark winter of death and destruction that threatens to smother the light of civilization. Within 30 years, in the 2030 decade, six powerful 'drivers' will converge with unprecedented force in a statistical spike that could tear humanity apart and plunge the world into a new Dark Age. In the face of both doomsaying and denial over the state of our world, Colin Mason cuts through the rhetoric and reams of conflicting data to muster the evidence to illustrate a broad picture of the world as it is, and our possible futures. Ultimately his message is clear; we must act decisively, collectively and immediately to alter the trajectory of humanity away from catastrophe. Offering over 100 priorities for immediate action, The 2030 Spike serves as a guidebook for humanity through the treacherous minefields and wastelands ahead to a bright, peaceful and prosperous future in which all humans have the opportunity to thrive and build a better civilization.
