**Colour Coding for Learners with Autism** Adele Devine,2014-04-21 Children on the autism spectrum are often highly visual learners, making colour a powerful and motivating learning tool. This book explains how colour coding helps young people with autism to generalise lessons already learnt. For example, assigning the colour aqua to all personal care activities or the colour purple to timetabling and transitions establishes clear, visual categories. This allows children to draw on learnt experiences, which creates a sense of order, reduces anxiety, and can aid communication, understanding emotions, organisation, coping with change and diversifying diet. A wealth of tried-and-tested printable resources to enable the practical application of colour coding in the classroom and at home are included on a CD-ROM. With colourful illustrations and resources, Colour Coding for Learners with Autism is an effective, must-have teaching tool for anyone involved in the education of young people with autism.

**SHUT UP AND PARENT** Vanessa Kahlon,2020-12-02 Parenting is a difficult and rewarding task that comes with many challenges. No two children are alike, so what works for one may not work for another. The most important thing is to be open to what your children can teach you. As a parent, you will undoubtedly face many challenges. And you can't assume that you know or have it all to raise a well behaved, happy, healthy and successful child. Being open to learning from your children can help you become a better parent overall. Each child is unique and will require a different approach. The key is to be open to what they can teach you. This is the one area that has been consistent with a successful approach. In this pioneering book, “How To Do- Parenting With Confidence, Author Vanessa Kahlon offers a refreshingly honest and practical guide to the highs and lows of parenting. She draws on her years of experience as a parent and child development specialist to show how parents can build strong, confident relationships with their children. The book is a long overdue reminder that parenting is not about getting it right all the time, but about being open to learning from our children. With transparency and empathy, Kahlon guides parents through the challenges and joys of parenting, from dealing with tantrums to coping with sleep deprivation and picky eaters. She shows how even the most challenging situations can be turned into opportunities for growth and connection. Filled with practical tips, expert advice, and real-life examples, this is an essential guide for anyone who wants to build a strong, confident relationship with their children. As we explore the different aspects of parenting, the book takes you through the author's inspirations for writing the book, sharing personal stories and anecdotes from her own parenting journey. This book is an excellent resource for parents who want to build strong, confident relationships with their children. The theoretical and behavioural basis is evidence and research-based while written in clear and easy-to-follow tips and examples. The book introduces solutions that help children across developmental stages with varied behavioural-emotional needs. The author explains and makes it accessible for parents to understand their children's temperament, and how this impacts on parenting styles. Kahlon offers a comprehensive guide that will leave parents feeling equipped and inspired to approach parenting with confidence. The book comprises 40+ guides, divided into sections, that can be leveraged in different situations. Every phase is a complete exploration of the different aspects of parenting and provides parents with the tools they need to approach to communicate with children, set limits, and teach social-emotional skills while maintaining a strong relationship. Kahlon has laid clear and easy-to-follow concepts packed with age-appropriate strategies for parents of children across all developmental stages. By the end of this book, you'll find powerful mindfulness-based practices that will help you feel more connected to your child, as well as tips on how to better deal with difficult emotions. You'll also be better equipped to teach your children essential social-emotional skills like empathy, self-regulation, and gratitude while making parenting more enjoyable for both you and your child.

**How to Keep House While Drowning** KC Davis,2022-04-26 If you're tired of staring at the same mess every day, but struggling to find the time and willpower to clean it, you probably have a very good reason: anxiety, fatigue, depression, ADHD, or lack of support. Designed by therapist KC Davis, this revolutionary method of cleaning and organizing helps end the stress-mess cycle. After KC Davis gave birth to her second child, she didn't fold a single piece of laundry for seven months. Between postpartum depression and ADHD, she felt numb and overwhelmed. She regained

her sanity--and the functionality of her home--after one life-changing realization: You don't work for your home; your home works for you. In other words, messiness is not a moral failing. A new sense of calm washed over her as she let go of the shame-based messaging that interpreted a pile of dirty laundry as I can never keep up and a chaotic kitchen as I'm a bad mother. Instead, she looked at unwashed clothes and thought, I am alive, and at stacks of dishes and thought, I cooked my family dinner three nights in a row. Building on this foundation of self-compassion, KC devised the powerful practical approach that has exploded in popularity through her TikTok account, @domesticblisters. The secret is to stop following perfectionist rules that don't make sense for you--like folding clothes that don't wrinkle anyway, or thinking that every room has to be clean at the same time--and to find creative solutions that accommodate your needs, pet peeves, daily rhythms, and attention span. Inside, you'll learn exactly how to customize your approach and rebuild your relationship with your home, including: -How to stop seeing care tasks as a reflection of your worth, but rather as kindnesses to your future self -How to use calming rituals to keep you from feeling overwhelmed when you look at a big mess -How to stagger tasks that are easy to procrastinate throughout the week and month -How to quickly transform a room from messy to fully functional through the 5 Things tidying method, and other shortcuts requiring minimal energy Read this book to make home feel like a sanctuary again: where you can move with ease, where guilt, self-criticism, and endless checklists have no place, and where you always have permission to rest, even when things aren't finished.

*Make Time* Jake Knapp,John Zeratsky,2018-09-25 From the New York Times bestselling authors of Sprint comes “a unique and engaging read about a proven habit framework [that] readers can apply to each day” (Insider, Best Books to Form New Habits). “If you want to achieve more (without going nuts), read this book.”—Charles Duhigg, author of *The Power of Habit* Nobody ever looked at an empty calendar and said, The best way to spend this time is by cramming it full of meetings! or got to work in the morning and thought, Today I'll spend hours on Facebook! Yet that's exactly what we do. Why? In a world where information refreshes endlessly and the workday feels like a race to react to other people's priorities faster, frazzled and distracted has become our default position. But what if the exhaustion of constant busyness wasn't mandatory? What if you could step off the hamster wheel and start taking control of your time and attention? That's what this book is about. As creators of Google Ventures' renowned design sprint, Jake and John have helped hundreds of teams solve important problems by changing how they work. Building on the success of these sprints and their experience designing ubiquitous tech products from Gmail to YouTube, they spent years experimenting with their own habits and routines, looking for ways to help people optimize their energy, focus, and time. Now they've packaged the most effective tactics into a four-step daily framework that anyone can use to systematically design their days. Make Time is not a one-size-fits-all formula. Instead, it offers a customizable menu of bite-size tips and strategies that can be tailored to individual habits and lifestyles. Make Time isn't about productivity, or checking off more to-dos. Nor does it propose unrealistic solutions like throwing out your smartphone or swearing off social media. Making time isn't about radically overhauling your lifestyle; it's about making small shifts in your environment to liberate yourself from constant busyness and distraction. A must-read for anyone who has ever thought, If only there were more hours in the day..., Make Time will help you stop passively reacting to the demands of the modern world and start intentionally making time for the things that matter.
