The Sound of the Future Tobias Dengel, 2023-10-10 A Wall Street Journal Bestseller A USA Today Bestseller Why voice technology is the next big thing in technology, as big as mobile a decade ago and the internet in the late 90s, fundamentally altering the way companies do business. Voice is the next technology – remarkably similar in potential impact to the internet and mobile computing - poised to change the way the world works. Tobias Dengel is in the vanguard of this breakthrough, understanding the deep, wide-ranging implications voice will have for every industry. In *The Sound of the Future*, he connects the dots about this emerging paradigm to vividly illustrate how business leaders can stay ahead of the game, rather than scrambling to catch up, as voice technology gradually reveals its power, creating a host of new winners and losers. Using fascinating, colorful stories, Dengel explains how the “voice-first” experience is becoming part of the global technology mainstream, exploring the ways voice will do a better job of serving basic human needs such as safety, speed, accuracy, convenience, and fun, as well as making it possible for hundreds of millions of people around the planet to participate more fully and productively in today's high-tech world by making interactions with technology virtually effortless. A pervasive technology like the internet and mobile, voice, with applications in marketing, sales, service, manufacturing, and logistics, will change the way we work at every level and every function, driving down costs, boosting productivity, and enabling the creation of entirely new business models. This is not simply about Siri and Alexa. They are the tantalizing but incomplete precursors of the ultimate interface that will make technology easier, faster, more accurate, and more human.

Fanatical Military Recruiting Jeb Blount, 2019-03-05 Military Recruiting is a war. It's just a different kind of war than what you were prepared and trained to fight for. Recruiting is a war for talent. Smart, competent, and capable people are rare and in high demand. Every organization, from commercial enterprises, healthcare, non-profit, sports, and education, to the military is in an outright battle to recruit and retain these bright and talented people. Rather than bullets and bombs, the war for talent is won through high-impact prospecting activity, time discipline, intellectual agility, emotional intelligence, and human to human relationships. On this highly competitive, ever changing, asymmetrical battlefield, to win, you must operate at a level of excellence beyond anything asked of military recruiters before. Yet, in this new paradigm, many recruiters are struggling, and most recruiting units are staring down the barrel at 50 percent or more of their recruiters consistently missing Mission. It is imperative that we arm military recruiters with the skills they need to win in this challenging environment. The failure to make Mission is an existential threat to the strength and readiness of America's fighting forces and our democracy. Fanatical Military Recruiting begins where the Recruiting and Retention colleges of the various branches of the military leave off. It is an advanced, master's level training resource designed specifically for the unique demands of Military Recruiting. In FMR, you'll learn: The Single Most Important Discipline in Military Recruiting How to Get Out of a Recruiting Slump The 30-Day Rule and Law of Replacement Powerful Time and Territory Management Strategies that Put You in Control of Your Day The 7 Step Telephone Prospecting Framework The 4 Step Email and Direct Messaging Framework The 5 C's of Social Recruiting The 7 Step Text Message Prospecting Framework How to Leverage a Balanced Prospecting Methodology to Keep the Funnel Full of Qualified Applicants Powerful Human Influence Frameworks that Reduce Resistance and Objections The 3 Step Prospecting Objection Turn-Around Framework Mission Drive and the 5 Disciplines of Ultra-High Performing Military Recruiters In his signature right-to-the-point style that has made him the go-to trainer to a who's who of the world's most prestigious organizations, Jeb Blount pulls no punches. He slaps you in the face with the cold, hard truth about what's really holding you back. Then, he pulls you in with stories, examples, and lessons that teach you exactly what you need to do right now to become an ultra-high performing recruiter. Fanatical Military Recruiting is filled with the high-powered strategies, techniques, and tools you need to keep your funnel packed with qualified applicants. As you dive into these powerful insights, and with each new chapter, you'll gain greater and greater confidence. And, with this new-found confidence, your performance as a military recruiter will soar and you will Make Mission, Fast.
