Voices from the Easter Rising Joseph McKenna, 2017-06-09 For a week in April 1916, 2,000 Irish Volunteers rose up in armed rebellion against the British Empire in a bid to establish an independent Irish state. Tracing the establishment of the various organizations involved, this account of the Easter Rising provides a day to day narrative by those who took part, along with personal accounts of the trial, the execution of the rebel leaders and the imprisonment of the surviving Volunteers. Atrocities and murders that took place on both sides are described in detail based on coroners' reports.

The Secret Voices MJ White, 2022-04-28 'BLOODY BRILLIANT. If you like your crime dark and twisty...The Secret Voices is all this and more.' Joanna Cannon, author of A Tidy Ending They said they'd keep me safe. They said, 'It's okay, Hannah. You know you can trust me.' They lied. When eight-year-old Hannah Perry goes missing in the small Suffolk village of St Just, the community is rocked. Heading up the investigation is Acting DS Rob Minshull, but he's out of his depth in an investigation full of dead ends. As the kidnapper taunts the police with deliveries of Hannah's belongings and cryptic notes, her life hangs perilously in danger. Until Dr Cora Lael enters the picture. A psychologist with a unique ability, Cora's rare gift allows her to sense emotions attached to discarded objects. When she is shown the first of Hannah's belongings, she hears the child's piercing scream. With few leads on the case, could Cora prove Hannah's only hope? And as time runs out, can they find Hannah before an unimaginable tragedy occurs...? A twisty, original and utterly gripping detective thriller. Don't miss the crime thriller debut from the bestselling women's fiction author, Miranda Dickinson. Praise for The Secret Voices: 'A superb crime debut from a massive talent. Cora is a character you won't forget.' Steve Cavanagh, author of Fifty-Fifty 'Had me gripped from the moment I started reading it! One of the best thrillers of 2022.' Reader Review 'A corker of a debut with a brilliantly drawn main character.' Simon Toyne, author of Solomon Creed 'An unusual premise and an engaging cast of characters. What more could you want from a crime debut? I flew through it.' Mari Hannah, author of Her Last Request and Without a Trace 'Gripping, full of twists and unpredictability that had me guessing until the end. I couldn't put it down.' Reader Review 'I was well and truly hooked...The writing was well researched, the storyline gripping, and the characters were spot on!...This was fantastic! Would definitely recommend!' Reader Review 'This was excellent... There were many twists and I loved the plot development...I will pick up anything by this author in the future!' Reader Review 'Wow! What a fantastic story...I read it in a day, just couldn't put it down.' Reader Review 'Suspense, intrigue, great police work and a great storyline! It definitely had my heart pumping!' Reader Review 'Truly could not put this down... so many twists and turns... Great characters which are also believable' Reader Review 'Touchingly compassionate, desperately exciting and achingly well-written...a superlative crime novel' Rob Parker, author of Far From The Tree 'I love a good police procedural and this one is an impossible-to-put-down one! With a cast of really interesting characters...it moves at a perfect pace.' Fionnuala Kearney, author of You, Me and Other People and The Book of Love

Data Science and Digital Transformation in the Fourth Industrial Revolution Jongbae Kim, Roger Lee, 2021-01-02 This edited book presents scientific results of the International Semi-Virtual Workshop on Data Science and Digital Transformation in the Fourth Industrial Revolution (DSDT 2020) which was held on October 15, 2020, at Soongsil University, Seoul, Korea. The aim of this workshop was to bring together researchers and scientists, businessmen and entrepreneurs, teachers, engineers, computer users, and students to discuss the numerous fields of computer science and to share their experiences and exchange new ideas and information in a meaningful way. Research results about all aspects (theory, applications and tools) of computer and information science, and to discuss the practical challenges encountered along the way and the solutions adopted to solve them. The workshop organizers selected the best papers from those papers accepted for presentation at the workshop. The papers were chosen based on review scores submitted by members of the program committee and underwent further rigorous rounds of review. From this second round of review, 17 of the conference's most promising papers are then published in this Springer (SCI) book and not the conference proceedings. We impatiently await the important contributions that we know these authors will bring to the field of computer and information science.

Disaster Robotics Satoshi Tadokoro, 2019-01-20 This book introduces readers to the latest findings on disaster robotics. It is based on the ImPACT Tough Robotics Challenge, a national project spearheaded by the Japan Cabinet Office that focuses on developing robotics technologies to aid in disaster response, recovery and preparedness. It presents six subprojects that involve robot platforms and several component technologies used in conjunction with robots: cyber rescue canines, which are digitally empowered rescue dogs; serpent-like robots for searching debris; serpent-like robots for plant/infrastructure inspection; UAVs for gathering information on large areas struck by disaster; legged robots for plant/infrastructure inspection in risky places; and construction robots for recovery tasks that require both power and precision. The book offers a valuable source of information for researchers, engineers and practitioners in safety, security and rescue robotics, disaster robotics, and plant and infrastructure maintenance. It will also appeal to a wider demographic, including students and academics, as it highlights application scenarios and the total concept for each robot in various scientific and technical contexts. In addition to a wealth of figures and photos that explain these robots and systems, as well as experimental data, the book includes a comprehensive list of published papers from this project for readers to refer to. Lastly, an external website offers video footage and updated information from the International Rescue System Institute.

The Healing Power of Sound Mitchell L. Gaynor, M.D., 2002-08-13 A guide to the surprising benefits of music on your mind, spirit, and body—complete with sound-based breathing and meditation exercises Since 1991, Dr. Mitchell Gaynor has been achieving remarkable results by integrating music, vocalization, breathing, and meditation techniques in his work with patients. In *The Healing Power of Sound*, he presents his sound-based techniques for self-healing—techniques that anyone can use, whether faced with a life-threatening disease or simply seeking relief from the stresses of daily life. Numerous studies have demonstrated the health benefits of music: it can lower blood pressure and heart and respiratory rates; reduce cardiac complications; increase the immune response; and boost our natural opiates. Gaynor shows how, when integrated as part of a mind-body-spirit approach to wellness, music can play a significant part in maintaining a healthy lifestyle or in healing serious disease. *The Healing Power of Sound* includes twelve exercises involving breathing, meditation, and “toning”—using pure vocal sound to resolve tension, release emotion, and spur the healing process—that can be used by anyone to improve health and quality of life.

Voice Search Marketing. Strategies for the successful use of digital voice assistants Patricia Gomes Fernandes, 2021-09-08 The application of digital voice assistants has been spreading in the US since 2015. In Germany, about one third of the population between the ages of 17 and 69 used such a tool in 2017. This not only creates new opportunities but also new challenges for businesses as the results of a voice search often only deliver a single result. How can businesses ensure the visibility of their product or brand regardless? According to Patricia Gomes Fernandes, dealers particularly fear that voice assistants don't play advertisements. For this reason, she explains how businesses best use applications for digital voice assistants. She offers recommendations for producers and dealers and shows how they can have voice assistants like Alexa present their products. In this publication: - Online Marketing; - Amazon; - Advertising; - Voice Search Marketing; - Customer Journey

Geographical Voices Peter Gould, Forrest R. Pitts, 2002-03-01 These highly personal essays reflect experiences and insights of key geographers of the past half-century. Contributors not only document the growing concern for research on social conditions and social justice, they also prove that scholarly commitment .is still vibrant and healthy in the discipline. A unique contribution in North American geographical publishing, this book is ideal for undergraduate courses in the history and philosophy of geography, and for early graduate seminars on recent developments in geographic thought.
