The Most Expensive Game in Town Mark Hyman, 2012-03-20 Building on the eye-opening investigation into the damaging effects of the ultra-competitive culture of youth sports in his previous book, *Until It Hurts*, Mark Hyman's new book looks at the business of youth sports, how it has changed, and how it is affecting young Americans. Examining the youth sports economy from many sides--the major corporations, small entrepreneurs, coaches, parents, and, of course, kids--Hyman probes the reasons for rapid changes in what gets bought and sold in this lucrative marketplace. Just participating in youth sports can be expensive. Among the costs are league fees, equipment, and perhaps private lessons with a professional coach. With nearly 50 million kids playing organized sports each year, it is easy to see how profitable this market can be. Hyman takes us to tournaments sponsored by Nike, Gatorade, and other big businesses, and he talks to parents who sacrifice their vacations and savings to get their (sometimes reluctant) junior stars to these far-off, expensive venues for a chance to shine. He introduces us to videos purporting to teach six-month-old babies to kick a ball, to professional athletes who will coach an eight-year-old for a hefty fee, to a town that has literally staked its future on preteen sports. With its extensive interviews and original reporting, *The Most Expensive Game in Town* explains the causes and effects of the commercialization of youth sports, changes that the author argues are distorting and diminishing family life. He closes with strong examples of individuals and communities bucking this destructive trend.

Match-Fixing in Sport Stacey Steele, Hayden Opie, 2017-11-20 Match-fixing represents a greater potential threat to the integrity of sport than doping. It has been linked to organised crime, illegal drugs and money-laundering. Law enforcement and sporting authorities are struggling to establish legal and regulatory responses to this emerging threat, particularly in light of cross-border internet gambling. This book examines match-fixing and the legal responses to it in three key Asian sporting nations: Australia, Japan and Korea. It explores the significance of legal, regulatory and cultural differences, and draws lessons in terms of best practice and enforcement for legal and sporting authorities around the world. Including key insights from players, the betting industry, law enforcement and prosecution authorities, it discusses the strengths and weakness of current anti-corruption strategies in the three jurisdictions. *Match-Fixing in Sport: Comparative Studies from Australia, Japan, Korea and Beyond* offers important insights for all students and scholars with an interest in sport studies, law, criminology and Asian studies.
