The Public Mapping Project Michael P. McDonald,Micah Altman,2018-11-15 The Laurence and Lynne Brown Democracy Medal is an initiative of the McCourtney Institute for Democracy at Pennsylvania State University. It annually recognizes outstanding individuals, groups, and organizations that produce exceptional innovations to further democracy in the United States or around the world. Micah Altman and Michael P. McDonald unveil the Public Mapping Project, which developed DistrictBuilder, an open-source software redistricting application designed to give the public transparent, accessible, and easy-to-use online mapping tools. As they show, the goal is for all citizens to have access to the same information that legislators use when drawing congressional maps—and use that data to create maps of their own. Thanks to generous funding from The Pennsylvania State University, the ebook editions of this book are available as Open Access volumes from Cornell Open (cornellpress.cornell.edu/cornell-open) and other repositories.

Democracy for Hire Dennis W. Johnson,2017 Though they work largely out of the public eye, political consultants to candidates play a crucial role in shaping campaigns. Economic Geography Trevor J. Barnes,Brett Christophers,2018-01-09 This volume in the celebrated Critical Introductions to Geography series introduces readers to the vibrant discipline of economic geography. The authors provide an original definition of the discipline, and they make a strong case for its vital importance in understanding the dynamic interconnections, movements, and emerging trends shaping our globalized world. Economic Geography addresses the key theories and methods that form the basis of the discipline, and describes its “communities of practice”

and relations to related fields including economics and sociology. Numerous illustrative examples explore how economic geographers examine the world and how and why the discipline takes the forms it does, demonstrating the critical value of economic geography to making sense of globalization, uneven development, money and finance, urbanization, environmental change, and industrial and technological transformation. Engaging and thought-provoking, Economic Geography: A Critical Introduction is the ideal resource for students studying across a range of subject areas, as well as the general reader with an interest in world affairs and economics.

The New Urban Crisis Richard Florida,2018-05-08 Richard Florida, one of the world's leading urbanists and author of The Rise of the Creative Class, confronts the dark side of the back-to-the-city movement In recent years, the young, educated, and affluent have surged back into cities, reversing decades of suburban flight and urban decline. and yet all is not well. In The New Urban Crisis, Richard Florida, one of the first scholars to anticipate this back-to-the-city movement, demonstrates how the forces that drive urban growth also generate cities' vexing challenges, such as gentrification, segregation, and inequality. Meanwhile, many more cities still stagnate, and middle-class neighborhoods everywhere are disappearing. We must rebuild cities and suburbs by empowering them to address their challenges. The New Urban Crisis is a bracingly original work of research and analysis that offers a compelling diagnosis of our economic ills and a bold prescription for more inclusive cities capable of ensuring prosperity for all.
