Advances in Library Administration and Organization

Delmus E. Williams,Janine Golden,2014-02-21 Volume 32 of Advances in Library Administration and Organization brings together a collection of studies which highlight up and coming issues that today's library managers and researchers face.

Allen Tate Thomas A. Underwood,2021-04-13 Despite his celebrity and his fame, a series of literary feuds and the huge volume of sources have, until now, precluded a satisfying biography of Allen Tate. Anyone interested in the literature and history of the American South, or in modern letters, will be fascinated by his life. Poetry readers recognize Tate, whom T. S. Eliot once called the best poet writing in America, as the author of some of the twentieth century's most powerful modernist verse. Others know him as a founder of *The Fugitive*, the first significant poetry journal to emerge from the South. Tate joined William Faulkner and others in launching what came to be known as the Southern Literary Renaissance. In 1930, he became a leader of the Southern Agrarian movement, perhaps America's final potent critique of industrial capitalism. By 1938, Tate had departed politics and written *The Fathers*, a critically acclaimed novel about the dissolution of the antebellum South. He went on to earn almost every honor available to an American poet. His fatherly mentoring of younger poets, from Robert Penn Warren to Robert Lowell, and of southern novelists--including his first wife, Caroline Gordon--elicited as much rebellion as it did loyalty. Long-awaited and based on the author's unprecedented access to Tate's personal papers and surviving relatives, *Orphan of the South* brings Tate to 1938. It explores his attempt, first through politics and then through art, to reconcile his fierce talent and ambition with the painful history of his family and of the South. Tate was subjected to, and also perpetuated, fictional interpretations of his ancestry. He alternately abandoned and championed Southern

culture. Viewing himself as an orphan from a region where family history is identity, he developed a curious blend of spiritual loneliness and ideological assuredness. His greatest challenge was transforming his troubled genealogy into a meaningful statement about himself and Southern culture as a whole. It was this problem that consumed Tate for the first half of his life, the years recorded here. This portrait of a man who both made and endured American literary history depicts the South through the story of one of its treasured, ambivalent, and sometimes wayward sons. Readers will gain a fertile understanding of the Southern upbringing, education, and literary battles that produced the brilliant poet who was Allen Tate.

Positioning the Academic Library within the University Leo Appleton,2021-05-13 Academic libraries are facing uncertain times. The international higher education environment is very volatile and academic libraries and librarians can play a major role in helping to strategically position their parent institution within it. In doing so, there needs to be clarity as to what the position of the academic library is with regard to the role and function it has within the university and how library leadership can have pan-institutional influence and impact. There are several ways in which the academic library can position itself and this collection demonstrates many of these. Strategic alignment with the university and its mission is a fundamental part of successful positioning, as is being flexible, adaptable and responsive to changing needs, requirements and expectations. Developments in

research support and scholarly communications, as well as super-convergences with other academic support departments, are examples of such responsiveness. These topics along with other emerging themes, such as library functions and institutional partnerships and collaborations, are all discussed in the book and provide the reader with a rich variety of reflections and case studies on how academic libraries, from across the globe, have addressed their position within their institution. This book was originally published as a special issue of the journal *New Review of Academic Librarianship*.
