**Walking in Two Worlds** Wab Kinew,2021-09-14 An Indigenous teen girl is caught between two worlds, both real and virtual, in the YA fantasy debut from bestselling Indigenous author Wab Kinew. Perfect for fans of Ready Player One and the Otherworld series. Bugz is caught between two worlds. In the real world, she's a shy and self-conscious Indigenous teen who faces the stresses of teenage angst and life on the Rez. But in the virtual world, her alter ego is not just confident but dominant in a massively multiplayer video game universe. Feng is a teen boy who has been sent from China to live with his aunt, a doctor on the Rez, after his online activity suggests he may be developing extremist sympathies. Meeting each other in real life, as well as in the virtual world, Bugz and Feng immediately relate to each other as outsiders and as avid gamers. And as their connection is strengthened through their virtual adventures, they find that they have much in common in the real world, too: both must decide what to do in the face of temptations and pitfalls, and both must grapple with the impacts of family challenges and community trauma. But betrayal threatens everything Bugz has built in the virtual world, as well as her relationships in the real world, and it will take all her newfound strength to restore her friendship with Feng and reconcile the parallel aspects of her life: the traditional and the mainstream, the east and the west, the real and the virtual.

**The Imaginary App** Paul D. Miller,Svitlana Matviyenko,2014-08-29 The mobile app as technique and imaginary tool, offering a shortcut to instantaneous connection and entertainment. Mobile apps promise to deliver (h)appiness to our devices at the touch of a finger or two. Apps offer gratifyingly immediate access to connection and entertainment. The array of apps downloadable from the app store may come from the cloud, but they attach themselves firmly to our individual movement from location to location on earth. In The Imaginary App, writers, theorists, and artists—including Stephen Wolfram (in conversation with Paul Miller) and Lev Manovich—explore the cultural and technological shifts that have accompanied the emergence of the mobile app. These contributors and interviewees see apps variously as “a machine of transcendence,” “a hulking wound in our nervous system,” or “a promise of new possibilities.” They ask whether the app is an object or a relation, and if it could be a “metamedium” that supersedes all other artistic media. They consider the control and power exercised by software architecture; the app's prosthetic ability to enhance certain human capacities, in reality or in imagination; the app economy, and the divergent possibilities it offers of making a living or making a fortune; and the app as medium and remediator of reality. Also included (and documented in color) are selected projects by artists asked to design truly imaginary apps, “icons of the impossible.” These include a female sexual arousal graph using Doppler images; “The Ultimate App,” which accepts a payment and then closes, without providing information or functionality; and “iLuck,” which uses GPS technology and four-leaf-clover icons to mark places where luck might be found. **Advances in The Human Side of Service Engineering** Tareq Z. Ahram,Waldemar Karwowski,2016-07-26 This book explores the different ways in which human-factors engineering influences organizations’ and enterprises’ well-being and competitiveness. It covers a wealth of interrelated topics such as service engineering, service science, human-computer interaction, service usability, attitude and opinion assessment, servicescape design and evaluation, and training for service delivery. Further topics include service systems modeling, anthropology in service science, and customer experience, as well as ethical issues and the impact of an aging society. Based on the AHFE 2016 International Conference on The Human Side of Service Engineering, held on July 27-31, 2016, in Walt Disney World®, Florida, USA, the book provides readers with a comprehensive, general view of current research and challenges in the important field of service engineering. It also provides practical insights into the development of services for different kinds of organizations, including health care organizations, aviation providers, manpower allocation, hospitality and entertainment, as well as banking and financial institutions.

**Composition in Convergence** Diane Penrod,2005-03-23 Composition in Convergence: The Impact of New Media on Writing Assessment considers how technological forms--such as computers and online courses--transform the assessment of writing, in addition to text classroom activity. Much has been written on how technology has affected writing, but assessment has had little attention. In this book, author Diane Penrod examines how, on the one hand, computer technology and interactive material create a disruption of conventional literacy practices (reading, writing, interpreting, and critique), while, on the other hand, the influence of computers allows teachers to propose and develop new models for thinking and writing to engage students in real-world settings. This text is intended for scholars and educators in writing and composition, educational assessment, writing and technology, computers and composition, and electronic literacy. In addition, it is appropriate for graduate students planning to teach and assess electronic writing or teach in online environments.

**Advances in Network-Based Information Systems** Leonard Barolli,Natalia Kryvinska,Tomoya Enokido,Makoto Takizawa,2018-08-27 This book presents the latest research findings and innovative theoretical and practical research methods and development techniques related to the emerging areas of information networking and their applications. Today’s networks and information systems are evolving rapidly, and there are several new trends and applications, such as wireless sensor networks, ad hoc networks, peer-to-peer systems, vehicular networks, opportunistic networks, grid and cloud computing, pervasive and ubiquitous computing, multimedia systems, security, multi-agent systems, high-speed networks, and web-based systems. These networks have to deal with the increasing number of users, provide support for different services, guarantee the QoS, and optimize the network resources, and as such there are numerous research issues and challenges that need to be considered and addressed.

**The Art of Taking a Walk** Anke Gleber,1999 Anke Gleber examines one of the most intriguing and characteristic figures of European urban modernity: the observing city stroller, or flaneur. In an age transformed by industrialism, the flaneur drifted through city streets, inspired and repelled by the surrounding scenes of splendor and squalor. Gleber examines this often elusive figure in the particular contexts of Weimar Germany and the intellectual sphere of Walter Benjamin, with whom the concept of flânerie is often associated. She sketches the European influences that produced the German flaneur and establishes the figure as a pervasive presence in Weimar culture, as well as a profound influence on modern perceptions of public space. The book begins by exploring the theory of literary flânerie and the technological changes--street lighting, public transportation, and the emergence of film--that gave a new status to the activities of seeing and walking in the modern city. Gleber then assesses the place of flânerie in works by Benjamin, Siegfried Kracauer, and other representatives of Weimar literature, arts, and theory. She draws particular attention to the works of Franz Hessel, a Berlin flaneur who argued that flânerie is a reading of the city that perceives passersby, streets, and fleeting impressions as the transitory signs of modernity. Gleber also examines connections between flânerie and Weimar film, and discusses female flânerie as a means of asserting female subjectivity in the public realm. The book is a deeply original and searching reassessment of the complex intersections among modernity, vision, and public space.

**Beginning Windows Store Application Development – HTML and JavaScript Edition** Scott Isaacs,Kyle Burns,2013-09-09 Beginning Windows Store Application Development – HTML and JavaScript Edition introduces you to the Windows 8 modern app design paradigm and the new Windows 8 programming model developed around this paradigm. You'll learn to build rich, immersive

applications designed to run on the many devices powered by Windows 8. The authors draw on their extensive practical experience to provide not only a comprehensive introduction to the model and its features, but guidance on best practices and a real-world sample application that you develop over the course of the book. Beginning Windows Store Application Development – HTML and JavaScript Edition also emphasizes how devices will be used and applications will be built in a world that has become far more connected. The book takes you beyond the syntax of any development language and examines factors such as application design, user experience, social integration, and maintaining data and settings across multiple devices. What you'll learn Apply Windows 8 modern UI style design guidelines to build effective user interfaces Use the new programming libraries available in Windows 8 Effectively use application tiles and notifications Integrate with Windows by exposing your application's data to Windows Search and Share menus Consume services to bring data into your application Use the cloud to share data and application settings across multiple devices Publish your applications in the Windows Store Who this book is for Beginning Windows Store Application Development – HTML and JavaScript Edition is for the novice programmer with a basic understanding of web development who is interested in learning how to build the next generation of applications designed to run on Windows 8. Readers who already have an understanding of HTML, CSS and JavaScript will get the most out of the book. It also is an excellent choice for more experienced developers who want to get started programming for Windows 8. *Exploring Autodesk Revit 2021 for MEP, 7th Edition* Prof. Sham Tickoo,2020-12-06 Exploring Autodesk Revit 2021 for MEP book covers the detailed description of all basic and advanced workflows and tools to accomplish an MEPF (Mechanical, Electrical, Plumbing, and Fire Fighting) project in a BIM environment.It explores the processes involved in Building Information Modeling. The topics covered in this book range from creating building components, HVAC system, electrical system, plumbing system, and Fire protection system to designing conceptual massing, performing HVAC heating and loading analysis, and creating rich construction documentation. In Revit MEP 2021 book, special emphasis has been laid on the concepts of space modeling and tools to create systems for all disciplines (MEP). Each concept in this book is explained using the detailed description and relevant graphical examples and illustrations. The accompanying tutorials and exercises, which relate to the real world projects, help you understand the usage and abilities of the tools available in Autodesk Revit 2021. In addition, the chapters in this book are punctuated with tips and notes to make the concepts clear, thereby enabling the readers to create their own innovative projects. Salient Features Comprehensive book that covers all major Revit MEP tools and concepts. Coverage of advanced concepts such as worksharing, families, and system creation. Detailed description on building envelope, spaces and zones, HVAC system, electrical system, fire fighting system, and plumbing system. Step-by-step explanation that guides the users through the learning process. Effectively communicates the utility of Revit 2021 for MEP. Self-Evaluation Test and Review Questions at the end of chapters for self assessment. Table of Contents Chapter 1: Introduction to Autodesk Revit 2021 for MEP Chapter 2: Getting Started with an MEP Project Chapter 3: Creating Building Envelopes Chapter 4: Creating Spaces and Zones, and Performing Load Analysis Chapter 5: Creating an HVAC System Chapter 6: Creating an Electrical System Chapter 7: Creating Plumbing Systems Chapter 8: Creating Fire Protection System Chapter 9: Creating Construction Documents Chapter 10: Creating Families and Worksharing Index

**Text, Speech, and Dialogue** Kamil Ekštejn,František Pártl,Miloslav Konopík,2021-08-30 This book constitutes the proceedings of the 24th International Conference on Text, Speech, and Dialogue, TSD 2021, held in Olomouc, Czech Republic, in September 2021.\* The 2 keynote speeches and 46 papers presented in this volume were carefully reviewed and selected from 101 submissions. The topical sections Text, Speech, and Dialogue deal with the following issues: speech recognition; corpora and language resources; speech and spoken language generation; tagging, classification and parsing of text and speech; semantic processing of text and speech; integrating applications of text and speech processing; automatic dialogue systems; multimodal techniques and modelling, and others. \* Due to the COVID-19 pandemic the conference was held in a hybrid mode.

Research Methods in Applied Behavior Analysis Jon S. Bailey,Mary R. Burch,2002-02-13 This very practical, how-to text provides the beginning researcher with the basics of applied behavior analysis research methods. In 10 logical steps, this text covers all of the elements of single-subject research design and it provides practical information for designing, implementing, and evaluating studies. Using a pocketbook format, the authors provide novice researcher with a steps-for-success approach that is brief, to-the-point, and clearly delineated.

*Phenomenology and the Future of Film* J. Chamarette,2012-09-28 Using hybrid phenomenological approaches to film, this book focuses on how moving images are 'experienced' and 'encountered' as well as 'read' and 'viewed'. Its close engagements with films and installations by four contemporary French filmmakers explore the limits and possibilities of 'cinematic' subjectivity.

**Think 4B Student's Book and Workbook Quick** Herbert Puchta,Jeff Stranks,Peter Lewis-Jones,2018-04-05 Challenge and inspire your teenage learners to think beyond language. Think is a fresh, vibrant and upbeat course designed to engage teenage learners and make them think. As well as building students' language skills, it offers a holistic approach to learning: developing their thinking skills, encouraging them to reflect on values and building self-confidence. Topics are chosen to appeal to and challenge teenagers, firing their imagination and ensuring effective learning. This split combo edition includes 4 Students' Book and Workbook units combined plus access to the online learning management platform with extra resources interactive activities. Teachers can use the platform to track students' progress and ensure more effective learning.

Pro iOS 5 Augmented Reality Kyle Roche,2012-02-01 Augmented reality takes the real world and through the use of graphics, sound and other effects allows you to enhance the environment. It

makes a game more real. Your social media app puts you where you want to be or go. Pro iOS 5 Augmented Reality walks you through the foundations of building an augmented reality application for the iPhone or iPad. From using MapKit, to the accelerometer and magnetometer, to integrating facial recognition and Facebook data, you'll learn the building blocks of creating augmented reality applications. Case studies are included in this one-of-a-kind book and you'll learn how to create augmented reality apps that unleash the full potential of the on-board sensors and camera. This book complements other iOS game or social media apps development books available from Apress. After reading Pro iOS 5 Augmented Reality, you'll be able to build augmented reality rich media apps or integrate all the best augmented reality techniques and tools into your existing apps.

*Internet of Vehicles - Safe and Intelligent Mobility* Ching-Hsien Hsu,Xia Feng,Xingang Liu,Shangguang Wang,2015-11-28 This book constitutes the refereed proceedings of the Second International Conference on Internet of Vehicles, IOV 2015, held in Chengdu, China, in December 2015. The 40 full papers presented were carefully reviewed and selected from 128 submissions. They focus on the following topics: IOV architectures and applications; intelligent mobility; V2V and M2M communications; and modeling and simulations.

*Exploring Autodesk Revit 2021 for Architecture, 17th Edition* Prof. Sham Tickoo,2020-08-09 Exploring Autodesk Revit 2021 for Architecture is a comprehensive book written to cater to the needs of the students and the professionals who are involved in Building Information Modeling (BIM) Profession. Revit 2021 book is a gateway to power, skill, and competence in the field of architecture and interior presentations, drawings, and documentations. In this book, the author has emphasized on the concept of designing, creating families, massing, documentation, rendering orthographic and perspective views of building, usage of other advanced tools. In addition, Revit 2021 for Architecture book covers the description of various stages involved in rendering the model in Enscape plug-in. In this book, the chapters have been punctuated with tips and notes that provide additional information on the concept. The highlight of Revit 2021 book is that each concept introduced in it is explained with the help of suitable examples for better understanding. The simple and lucid language used in Revit 2021 book makes it a ready reference for both beginners and intermediate users. Also, the book covers enhancements and new features in Revit 2020. This book is also an ideal guide for students who are appearing for Autodesk Revit Certified Professional and Revit Certified User Exams, especially for Architecture. This book can also be used as a guide for students and professionals who are planning to make their career in BIM industry through learning of Revit. Salient Features Detailed explanation of architectural tools of Autodesk Revit Heavily illustrated text Introduction to Enscape Rendering Real-world structural projects given as tutorials Tips and Notes throughout the book Self-Evaluation Tests, Review Questions, and Exercises at the end of the Chapters. *Transparency in a New Global Order* Christina Garsten,Monica Lindh De Montoya,2008-01-01 This book argues that transparency is a concept that has gained increasing currency and favour as an organizing principle and administrative goal in recent years. Calls for transparency have been directed towards states, markets, corporations and national political processes as well as towards large institutions such as the European Union. Focusing on empirically rich case studies, the contributors explore the ideas and practices of transparency in different contexts, encouraging a discussion of the many facets of the term and its strengths, ambiguities and limitations. They aim to shed light on the powerful global discourse and practices contained in the concept, and to fill a gap in the literature since few attempts have, until now, been made to examine the actual content and practice of transparency. Also discussed are the complex negotiations through which it is determined what should be displayed and what should remain hidden, the uses of power and control, and the processes through which transparency is, or is not, achieved. This analysis of the concepts, models and metaphors that guide and shape organizational, social and aesthetical practices today will provide a much-needed contribution to the literature for academics, researchers and students focusing on these areas.

**Designing and Delivering Training** David Simmonds,2003 David Simmonds' book focuses on the blend between theory and practice. It will not be (merely) a "how-to" set of checklists for operational practitioners, nor (just) an academic review of the literature for strategic managers. Instead, each chapter will specifically combine the relevant thinking with appropriate real-life evidence, through the use of pedagogical features.
