Lost Teams of the Midlands Mike Bradbury,2013-10 Association Football did not magically begin with the formation of the Football Association in 1863: for centuries before, leather and rag balls had been kicked about, often as a smoke-screen for a jolly good brawl amongst the ruffians of the town or village! In medieval times, the common people from all over the Midlands would chase after a stuffed leather football, sometimes from dawn till dusk, from one end of town to the other. Football, in all its various forms, was the game of the people. Centuries later, in England's universities and public schools, the game was brought under a unified set of rules by middle and upper-class young men who formed exclusive football clubs for their fellows and tried to keep the Association game between themselves. Back in the Midlands, however, pioneering men started football teams for the working-class society, and within a decade, there were hundreds of such teams from Worcester to Sheffield. Football had been given back to the common man. This book gives an insight into over sixty small clubs who were the mainstay of organised football across the Midlands from the embryonic 1860s to beyond professionalism in the 1890s. Many new details and photographs are being published for the first time, as the author travels all over the eight counties of

the Midlands to find the lost grounds and the Lost Teams of the Midlands. In This Book, Author Mike Bradbury Brings together a history and description of over sixty of the most prominent lost' Midlands football clubs from the Victorian era, many defunct even before 1900 Discovers the location of the lost Trapezium Ground in Wednesbury Discovers the location of the Shrubbery Ground where Tipton FC played in the 1870s Establishes four of the grounds used by Derby Junction and other Derby teams Establishes the site of Derby Midland FC's lost ground near the railway station Discovers the true origins of Walsall Town Football Club Unearths previously unpublished pictures of Wellington St. George's and their Shropshire ground Discovers the previously unknown team colours for over twenty teams featured in this book, including Notts Olympic, B'ham Excelsior, Calthorpe, Derby Junction, Staveley Unravels the mystery of the two St. George's football teams in the Birmingham area Finds out what became of Walsall's oldest team, Rushall Rovers Publishes unseen photographs of Birmingham's oldest team, Saltley College, and their ground within the college Discovers the first two grounds of the early Bloxwich FC (Strollers) Presents maps showing the lost locations of the grounds of Rushall Rovers, Smethwick Carriage Works, Lozells FC, Wednesbury Strollers, Crosswells FC, and others Unearths the 1873 advert where players are asked to form the Walsall Football Club Discovers the lost' football ground at Aston Cross, used by Aston Shakespeare and Aston Victoria Finds and gets access to the lost' ground of the Willenhall Pickwicks, seven-times Staffordshire Junior Cup finalists Photographs all three grounds of pioneering Birmingham club, Calthorpe FC, and unearths their colours and their link to Aston Villa Discovers the lost' Vulcan ground used by early Derby teams in the city centre Has created a web site featuring over 100 photographs and maps of teams, players, and grounds, details of which are given inside the book

The Leaguers Dr. Matthew Taylor,2005-01-01 Manchester United is the most recognized sports team in the world, with an audience of millions around the globe, surpassing even the New York Yankees. David Beckham's exploits—and marital woes—are known worldwide. The Football Association of England has become a multi-billion dollar industry. But how did English football become not only the defining sport of the nation but also one of the most successful sports in the world? With *The Leaguers*, football historian Matthew Taylor tells the story of the early days of professional football in England, revealing the distant origins of today's game. Making extensive use of archival materials from football clubs, unions, and associations, Taylor presents a compelling picture of football teams and players in the early days of the twentieth century, tracing the development of the system of professional teams from the hundreds of town, club, and school teams that dotted the countryside. The top tier of those teams comprised the Football League that by the 1920s was synonymous with the very idea of professional football in the minds of fans and sportswriters alike. *The Leaguers* illuminates the role played by the Football League—and by successful clubs in the League such as Arsenal and Aston Villa—as the rules, standards, and structure of the modern game were being codified. Taylor also considers the careers and influences of early players, including such well-known names as Billy Meredith, Dixie Dean, and Alex James. As football's popularity grew and sports media proliferated, players found themselves becoming national stars, their portraits on cigarette cards bought by fans throughout England. The first full-length history of the early days of the Football League, *The Leaguers* will be essential reading for football fans who want to know how their favorite sport grew from modest origins to the worldwide phenomenon that is English football today.

Football Fans, Their Information, The Web and The Personal Home Page Shant

Narsesian,2010-01-08 From the early days of the Internet to the present day, the World Wide Web has developed into one of the world's largest information resources. One of the first genres of web pages, which was also one of the first information resources, was the Personal Home Page (PHP). Over this same period of time, professional football in England has created the world's richest league and by extension an abundance of football-related PHPs. This book examines the role of the PHP as an information resource using the subject area of professional football in England. A holistic

approach was taken so as to view the PHP in a broader context, as one information resource amongst many, including non-PHPs and even offline information resources (e.g. reference books). Within this study, football fans were interviewed along with web authors, surveys were carried out (by distributing both online and offline questionnaires) and additional research was also carried out online, examining football-related PHPs and online web collaborations. Results suggest that whilst there are many informational benefits to be found on PHPs, such as plentiful unique information, they have low levels of use amongst football fans. The study concludes by proposing an avenue to the maximisation of the informational benefit of PHPs through a blueprint for a type of communal football website called the Club Community Composite Page (CCCP). Overall, several contributions are made to the field of information science, most notably attaining an improved understanding of PHPs as unique and accurate information providers online and devising new research methods for PHP research. In particular, the method of identification of PHPs developed here will be a useful tool for future researchers of PHPs. The contributions of this work are likely to be of value to researchers working in relevant sub-fields of information science, such as information seeking, web genres, grey literature and virtual communities.

Twenty Football Towns Steve Leach, 2020-08-06 In our world of global superstar footballers, it's easy to forget the grassroots of a sport where loyalty to a hometown club is often rock solid – and counts for everything. Even as local communities come under threat, football fandom still pulls us together. But why is this? What is the special magic that connects towns and teams? For many of us, the local club offers it all: passion, hope, heartache, drama. And a sense of belonging. The town where we grew up and all the places we've lived are the bedrock of our lives, and memories of seeing the local team play are inextricably intertwined with our sense of place and identity. Steve Leach spends a year visiting the twenty towns and clubs that are special to him. He celebrates the distinctiveness of these places, the fascinating differences between Lincoln and Leyton, Barrow and Birmingham, Macclesfield and Morecambe – towns and teams that may not be glamorous, but they are unique and, more importantly, they are home.

Who Are Ya? Kevin Day, 2020-10-01 Excellent – The Times Kevin's immense knowledge shines on every page. – Gary Lineker A football book by a fan for the fans. A treasure trove. – Alan Davies An entertaining romp through the back alleys and glamour parks of English football. – FourFourTwo Partly autobiographical, partly polemical, but mostly funny, *Who Are Ya?* is a snapshot of modern football, exploring the history of all 92 English Football League clubs. During his time as a broadcaster, Kevin Day has spoken to thousands of football players, managers and most importantly fans from across the generations. He spent thousands of hours crossing the country on trains, planes, automobiles, coaches – and once a donkey called Lightning – watching football at all levels. This book is the result of that: a tale of being chased down a railway line at Cardiff, a story of meeting George Best, an account of a lady getting her first Hull City tattoo at the age of 80! Crisply funny and with a host of celebrity football fan contributors – including Stephen Fry, Jo Brand, Alfie Boe, Eddie Izzard, Gabby Logan, and Romesh Ranganathan – *Who Are Ya?* celebrates the joys and

miseries of being a football supporter.

90 Minutes from Europe Simon Turner, 2022-02-07 90 Minutes from Europe tells the story of how an innovative British Airways advertising slogan foretold Walsall's greatest ever cup run; an adventure that saw the club defeat Arsenal, stun Liverpool and come closer to reaching Europe than anyone would have dared imagine. It's a tale so implausible that you just couldn't make it up.

The Association Game Matthew Taylor, 2013-10-18 The story of British football's journey from public school diversion to mass media entertainment is a remarkable one. The Association Game traces British football from the establishment of the earliest clubs in the nineteenth century to its place as one of the prominent and commercialised leisure industries at the beginning of the twenty first century. It covers supporters and fandom, status and culture, big business, the press and electronic media and development in playing styles, tactics and rules. This is the only up to date book on the history of British football, covering the twentieth century shift from amateur to professional and whole of the British Isles, not just England.

Cherry Picking: Life Between the Sticks Steve Cherry, Jonathan Nicholas, 2019-02-26 Steve Cherry was born into a large family in 1960 in the Nottinghamshire pit village of Calverton. His family initially assumed that he would follow his father and brother into the nearby pit, but it was clear from an early age that he had a special relationship with football, and this quickly became his main obsession in life. Aged 15, Steve was already goalkeeping in the local colliery team playing with and against full grown miners when he was spotted by a scout from Derby County, then in the top table of English football. He signed as a schoolboy before turning professional, and was capped for England several times in his youth before eventually winning Derby County's 'Player of the Year' in 1983. He then played for Walsall, again winning 'Player of the Year', before heading south for Plymouth Argyle where he distinguished himself by winning 'Player of the Year.' After a short time at Chesterfield he joined the boyhood club of his dreams, Notts County just after Neil Warnock arrived. County progressed from the bottom of Division Three up to the top of English football via two Wembley play-off wins, and yet again Steve won 'Player of the Year'. He left Notts in 1995 for a return to Plymouth Argyle via Watford, then Rotherham United, Rushden & Diamonds, and several other clubs. In his later years Steve used his love of the game to coach young boys in many different teams until only recently hanging up his boots. Steve worked with some of the best football managers in the business and played against some of the English football greats. He played for a dozen clubs in 743 League games and is still fondly remembered and welcomed back at all of them.
