The Tsinghua University Warring States Bamboo Manuscripts Volume One: The Yi Zhou Shu and Pseudo-Yi Zhou Shu Chapters

Edward L. Shaughnessy, 2023-03-01 In July of 2008, Tsinghua University recovered a batch of Warring States bamboo slips from abroad. These were referred to as the Bamboo slips collected by Tsinghua University, i.e., the Tsinghua Manuscripts. A large part of the Tsinghua Manuscripts is comprised of early classical and historical texts. Among these, some can be compared with transmitted classics such as the Shang Shu or “Elevated Scriptures”, but many more are previously unseen texts that have been lost for over two-thousand years. These manuscripts have immense value for understanding the original state of pre-Qin classical texts and for reconstructing early Chinese history. A panel of experts convened to evaluate the manuscripts said of them: these Warring States bamboo slips are tremendously valuable historical artifacts, whose contents speak to the very core of traditional Chinese culture. This is an unprecedented discovery, one which will inevitably attract the attention of scholars both here and abroad. It promises to have a lasting impact in many different disciplines, including but not limited to Chinese history, archaeology, paleography and philology. In order to further develop the international impact of scholarship on the Tsinghua Manuscripts, and stimulate international academic exchange, the Tsinghua University Research and Conservation Center for Unearthed Texts and the University of Chicago Creel Center for Chinese Paleography entered into an agreement to work together on “An International Collaborative Project of Studying and Translating the Tsinghua Bamboo Manuscripts,” which had a planned scope of 18 volumes. Under the leadership of Professor Huang Dekuan of the Tsinghua University Research and Conservation Center for Unearthed Texts, a team was set up to bring together the latest research developments so as to reorganize and collate the Tsinghua Manuscripts. These collated interpretations form a solid basis for the translation work, and in close cooperation with the translation team, together the teams advance the compilation of The Tsinghua University Warring States Bamboo Manuscripts: Studies and Translations book series. Under the leadership of Professor Edward L. Shaughnessy of the University of Chicago Creel Center for Chinese Paleography, a team of scholars specializing in ancient Chinese culture trained at universities such as Harvard, Oxford, and Chicago, was set up to form an exceptional translation team and academic advisory committee, to advance the translation of the Tsinghua Manuscripts. The Tsinghua University Warring States Bamboo Manuscripts: Studies and Translations 1, The Yi Zhou Shu and Pseudo-Yi Zhou Shu Chapters, as the first volume of this series, written and translated by Edward L. Shaughnessy, provides an English translation, introduction, and study of the Tsinghua Manuscripts seen in or related to the Yi Zhou Shu or “Leftover Zhou Scriptures.” The book further provides several insights into the formation and transmission of the Yi Zhou Shu. International experts gave high praise in their review of the book, noting that the book reflects the highest standards of scholarship on ancient Chinese culture, adding that it is not just accessible to experts but presented in a format attractive to a broad readership.

Legends of the Warring States J. Crump, 2022-07-07 The origins of the Chan-kuo Ts’è (Intrigues of the warring states) as an entity can be traced to a palace librarian at the Han Court, Liu Hsiang (76–6 BCE), who compiled and edited the pre-Han texts (c. 300–221 BCE) into a single volume and gave the collection a name. Thereafter, surviving manuscripts show the Chan-kuo Ts’è circulated during the Later Han Dynasty. Sometime during the years of decline and following the fall of the Han Dynasty, the Chan-kuo Ts’è began to acquire the aura of a wicked book, somewhat analogous to Niccolò Machiavelli’s *The Prince*. From time to time it was seen as one of a number of books that could unlock immense power in an era characterized both by widespread illiteracy and

common belief in literacy and scholarship as the best if not the only vehicle to any goal. After 400 CE, there is no record of the text until it was reconstructed by an 11th-century scholar, Tseng Kung, who formed a model for critical circulation for the next nine centuries. This volume presents selections and commentary by the premier Western translator and interpreter of the Chan-kuo Ts'e—ninety pieces singled out for their literary sophistication and sprightliness of conception. It also features more complete warring states narratives, the “romances”—persuasions of four of the best-known figures, Fan Chü, Chang Yi, Su Ch'in, and Ch'un-shen Chün, augmented by biographical material from the Shi-chi. This reader highlights both the nature of Chan-kuo Ts'e, an important pre-Han collection, and its considerable pleasures.

Strategies of the Warring States Liu Xiang, The Zhan Guo Ce, also known in English as the Strategies of the Warring States, is an ancient Chinese text that contains anecdotes of political manipulation and warfare during the Warring States period (5th to 3rd centuries bc).[1] It is an important text of the Warring States Period as it describes the strategies and political views of the School of Diplomacy and reveals the historical and social characteristics of the period. The Zhan Guo Ce recounts the history of the Warring States from the conquest of the Fan clan by the Zhi clan in 490 BC up to the failed assassination of Qin Shi Huang by Gao Jianli in 221 BC. The chapters take the form of anecdotes meant to illustrate various strategies and tricks employed by the Warring States. With the focus thus being more on providing general political insights than on presenting the whole history of the period, there is no stringent year-by-year dating such as that found in the preceding Spring and Autumn Annals. Stories are sorted chronologically by under which ruler they take place, but within the reign of a single king there is no way to tell if the time elapsed between two anecdotes is a day or a year. The book comprises approximately 120,000 words, and is divided into 33 chapters and 497 sections.

The Warring States Greg Strandberg,2015-06-22 War looms in the land that will one day become China. Seven States battle for power and influence in the waning days of the Zhou Dynasty, and each of them wants to be the best. The State of Wei is one, and in 403 BC Marquis Wen of Wei finally conquers the small state of Zhongshan by flooding it with the diverted Fan River. His power stands unopposed. A ceremony of honor is called in the capital city of Luoyang; Wen's finally being recognized by the King of Zhou. Unfortunately two other states are as well, and these Three Jins must now stand on an equal footing. Must, that is, until the peaceful balance is uprooted and the Seven States start down a path of war.

Origins of Chinese Music (2007 Edition - EPUB) Lim SK,2018-09-21 From the early days, musical instruments in China were made from everyday items: hunting tools, trees, bamboo and even bones. During the Zhou dynasty, there were about 70 instruments. Today, there are hundreds. But have you ever wondered how these musical instruments in China came about? Well, in this book, the evolution of Chinese music over the centuries is examined, from prehistoric times, through the Qin, Han, Sui and Tang dynasties, all the way to our modern times. In addition, the origins and characteristics of specific musical instruments are explored, giving insight in one's understanding of these instruments. Legendary accounts related to historical personalities are also featured, including: * How two phoenixes helped Fuxi, the earliest ancestor of the Chinese, add music to the lives of the people. * How the musical talents of some individuals were so high they could sense evil elements in a piece of music. * How Wangzi Qiao became an immortal from playing the sheng. Indeed, this book holds a treasury of fascinating information and stories pertaining to Chinese musical instruments. This is definitely something any music lover should have in his collection.

Democratizing Luxury Annika A. Culver,2023-12-31 Democratizing Luxury explores the interplay between advertising and consumption in modern Japan by investigating how Japanese companies at key historical moments assigned value, or luxury, to mass-produced products as an important business model. Japanese name-brand luxury evolved alongside a consumer society emerging in the late nineteenth century, with iconic companies whose names became associated with quality and style. At the same time, Western ideas of modernity merged with earlier artisanal ideals to create Japanese connotations of luxury for readily accessible products. Businesses manufactured items at all price points to increase consumer attainability, while starkly curtailing production for limited editions to augment desirability. Between the late nineteenth and twenty-first centuries, control over family disposable income transformed Japanese middle-class women into an important market. Growth of purchasing power among women corresponded with Japanese goods diffusing throughout the empire, and globally after the Asia-Pacific war (1931–1945). This book offers case studies that examine affordable luxury consumer items often advertised to women, including drinks, beauty products, fashion, and timepieces. Japanese companies have capitalized on affordable luxury since a flourishing domestic mercantile economy began in the Tokugawa period (1603–1868), showcasing brand-name shops, renowned artisans, and mass-produced woodblock prints by famous artists. In the late nineteenth century, personalized service expanded within department stores like Mitsukoshi, Shiseidō cosmetic counters, and designer boutiques. Shiseidō now globally markets invented traditions of omotenashi, Japanese "values" of hospitality expressed in purchasing and consuming its products. In postwar times, when a thriving democracy and middle-class were tied to greater disposable income and consumerism, companies rebuilt a growing consumer base among cautious shoppers: democratizing luxury at reasonable prices and maintaining business patterns of accessibility, high quality, and exemplary service. Nationalism amid economic success soon blended with myths of unique Japanese identity in a mass consumer society, suffused by

commodity fetishism with widely available brand names. As the first comprehensive history of iconic Japanese name brands and their unique connotations of luxury and accessibility in modern Japan and elsewhere, *Democratizing Luxury* explores company histories and reveals strategies that lead customers to consume these alluring commodities.

Ancient China John S. Major,Constance A. Cook,2016-09-22 Ancient China: A History surveys the East Asian Heartland Region – the geographical area that

eventually became known as China – from the Neolithic period through the Bronze Age, to the early imperial era of Qin and Han, up to the threshold of the medieval period in the third century CE. For most of that long span of time there was no such place as China; the vast and varied territory of the Heartland Region was home to many diverse cultures that only slowly coalesced, culturally, linguistically, and politically, to form the first recognizably Chinese empires. The field of Early China Studies is being revolutionized in our time by a wealth of archaeologically recovered texts and artefacts. Major and Cook draw on this exciting new evidence and a rich harvest of contemporary scholarship to present a leading-edge account of ancient China and its antecedents. With handy pedagogical features such as maps and illustrations, as well as an extensive list of recommendations for further reading, *Ancient China: A History* is an important resource for undergraduate and postgraduate courses on Chinese History, and those studying Chinese Culture and Society more generally.

Iron and Steel in Ancient China Donald B. Wagner, 2021-12-06 This book is a study of the production and use of iron and steel in China up to the second century B.C., and simultaneously a methodological study of the reconciliation of archaeological and written sources in Chinese cultural history. An introductory chapter describes and discusses the available sources and their use, gives a brief outline of early Chinese archaeology and history, and develops certain important themes, especially the interaction of North and South in early China. Further chapters consider the invention of iron in a barbarian culture of southeast China, its spread to the area of Chinese culture, and the development of a large-scale iron industry in the third century B.C. The technology of iron production in early China is considered in two chapters, on the microstructures of wrought and cast iron artifacts.
