In Lost Washington, D.C., John DeFerrari investigates the bygone institutions and local haunts of the nineteenth and twentieth centuries. Washington may seem eternal and unchanging with its grand avenues and stately monuments, but longtime locals and earlier generations knew a very different place. Discover the Washington of lavish window displays at Woodies, supper at the grand Raleigh Hotel and a Friday night game at Griffith Stadium. From the raucous age of burlesque at the Gayety Theater and the once bustling Center Market to the mystery of Suter's Tavern and the disappearance of the Key mansion in Georgetown, DeFerrari recalls the lost city of yesteryear.

**Establishing Congress** Kenneth R. Bowling,Donald R. Kennon,2005 Establishing Congress: The Removal to Washington, D.C., and the Election of 1800 focuses on the end of the 1790s, when, in rapid succession, George Washington died, the federal government moved to Washington, D.C., and the election of 1800 put Thomas Jefferson and the Democratic-Republican party in charge of the federal government.Establishing Congress dispels the myths and misinformation that surround the federal government's move to Washington and demonstrates that the election of 1800 changed American party politics forever, established the success of the American experiment in government, and completed the founding of the Republic. It also contends that the lame-duck session of Congress had far-reaching implications for the governance of the District of Columbia. Later chapters examine aspects of the political iconography of the capitol--one illuminating Jefferson's role in turning the building into a temple for the legislature and an instrument for nation-building, another examining the fascinating decades-long debate over burying George Washington in the Capitol. The collection considers as well the political implications of social life in early Washington, examining the political lobbying by Washington women within a social context and detailing the social and political life in the city's homes, hotels, boardinghouses and eating messes. Establishing Congress is an invaluable reference work for anyone interested in these pivotal moments in American history.Kenneth R. Bowling is co-editor, with Donald R. Kennon, of *Inventing Congress: Origins and Establishment of the First Federal Congress* (Ohio, 1999), *Neither Separate nor Equal: Congress in the 1790s* (Ohio, 2000), and *The House and Senate in the 1790s: Petitioning, Lobbying, and Institutional Development* (Ohio, 2002).Donald R. Kennon is chief historian of the U.S. Capitol Historical Society. He is general editor of the Ohio University Press series *Perspectives on the History of Congress, 1789-1801*, which contains the present volume, and the series *Perspectives on the Art and*

This volume’s unique interdisciplinary approach using historical, sociological, anthropological, economic, geographic, political, and linguistic theories and approaches, captures the comprehensive factors related to changes taking place in one of the world’s most important cities. Capital Dilemma clarifies how preexisting urban social hierarchies, established mainly along race and class lines but also along national and local interests, are linked with the city’s contemporary inequitable growth. While accounting for historic disparities, this book reveals how more recent federal and city political decisions and circumstances shape contemporary neighborhood gentrification patterns, highlighting the layered complexities of the modern national capital and connecting these considerations to Washington, DC’s past as well as to more recent policy choices. As we enter a period where advanced service sector cities prosper, Washington, DC’s changing landscape illustrates important processes and outcomes critical to other US cities and national capitals throughout the world. Southwest Washington Paul K. Williams,2005 Southwest Washington, D.C., is a defined neighborhood even without a proper name; the quadrant has a clear border southwest of the U.S. Capitol Building, nestled along the oldest waterfront in the city. Its physical delineations have defined it as a community for more than 250 years, beginning in the mid-1700s with emerging farms. By the mid-1800s, a thriving urban, residential, and commercial neighborhood was supported by the waterfront where Washingtonians bought seafood and produce right off the boats. In the 1920s and 1930s, an aging housing stock and an overcrowded city led to an increase of African Americans and Jewish immigrants who became self-sufficient within their own communities. However, political pressures and radical urban planning concepts in the 1950s led to the large-scale razing of most of SW, creating a new community with what was then innovative apartment and cooperative living constructed with such unusual building materials as aluminum.
