**Tuscaloosa** G. Ward Hubbs,Tuscaloosa Tourism & Sports Commission,2019 A lavishly illustrated history of this distinctive city's origins as a settlement on the banks of the Black Warrior River to its development into a thriving nexus of higher education, sports, and culture In both its subject and its approach, Tuscaloosa: 200 Years in the Making is an account unlike any other of a city unlike any other--storied, inimitable, and thriving. G. Ward Hubbs has written a lively and enlightening bicentennial history of Tuscaloosa that is by turns enthralling, dramatic, disturbing, and uplifting. Far from a traditional chronicle listing one event after another, the narrative focuses instead on six key turning points that dramatically altered the fabric of the city over the past two centuries. The selection of this frontier village as the state capital gave rise to a building boom, some extraordinary architecture, and the founding of The University of Alabama. The state's secession in 1861 brought on a devastating war and the burning of the university by Union cavalry; decades of social adjustments followed, ultimately leading to legalized racial segregation. Meanwhile, town boosters set out to lure various industries, but with varying success. The decision to adopt new inventions, ranging from electricity to telephones to automobiles, revolutionized the daily lives of Tuscaloosans in only a few short decades. Beginning with radio, and followed by the Second World War and television, the formerly isolated townspeople discovered an entirely different world that would culminate in Mercedes-Benz building its first overseas production plant nearby. At the same time, the world would watch as Tuscaloosa became the center of some pivotal moments in the civil rights movement--and great moments in college football as well. An impressive amount of research is collected in this accessibly written history of the city and its evolution. Tuscaloosa is a versatile history that will be of interest to a general readership, for scholars to use as a starting point for further research, and for city and county school students to better understand their home locale.

**Ready All! George Yeoman Pocock and Crew Racing** Gordon Newell,2015-07-27 In the 1920s, an upstart West Coast college began to challenge the Eastern universities in the ancient sport of crew racing. Sportswriters scoffed at the “crude western boats” and their crews. But for the next forty years, the University of Washington dominated rowing around the world. The secret of the Huskies’ success was George Pocock, a soft-spoken English immigrant raised on the banks of the Thames. Pocock combined perfectionism with innovation to make the lightest, best-balanced, fastest shells the world had ever seen. After studying the magnificent canoes built by Northwest Indians, he broke with tradition and began to make shells of native cedar. Pocock, who had been a champion sculler in his youth, never credited his boats for the accomplishments of a crew. He wanted every rower to share his vision of discipline and teamwork. As rowers from the University of Washington went on to become coaches at major universities across the country, Pocock’s philosophy—and his shells—became nationally famous in the world of crew. Drawing on documents provided by Pocock’s family, photographs from the University of Washington Crew Archives, and interviews with rowers who revered the man, Newell evokes the times as well as the life of this unique figure in American sport.

Southern Religion, Southern Culture Darren E. Grem,Ted Ownby,Jr., James G. Thomas,2018-12-17 Contributions by Ryan L. Fletcher, Darren E. Grem, Paul Harvey, Alicia Jackson, Ted Ownby, Otis W. Pickett, Arthur Remillard, Chad Seales, and Randall J. Stephens Over more than three decades of teaching at the University of Mississippi, Charles Reagan Wilson's research and writing transformed southern studies in key ways. This volume pays tribute to and extends Wilson's seminal work on southern religion and culture. Using certain episodes and moments in southern religious history, the essays examine the place and power of religion in southern communities and society. It emulates Wilson's model, featuring both majority and minority voices from archives and applying a variety of methods to explain the South's religious diversity and how religion mattered in many arenas of private and public life, often with life-or-death stakes. The volume first concentrates on churches and ministers, and then considers religious and cultural constructions outside formal religious bodies and institutions. It examines the faiths expressed via the region's fields, streets, homes, public squares, recreational venues, roadsides, and stages. In doing so, this book shows that Wilson's groundbreaking work on religion is an essential part of southern studies and crucial for fostering deeper understanding of the South's complicated history and culture.

**Invisible and Inaudible in Washington** Edelgard Elsbeth Mahant,Graeme Stewart Mount,1999 How does the United States view Canada? As a country too unimportant to deserve any defined policy, or one that is to be used simply to complement the U.S. mission in the world? This book investigates the gap between Canadian perceptions of American policy toward Canada and actual U.S. policy.Mahant and Mount examine details of White House policy from 1945 to the 1980s to assess the extent to which the United States could be said to have had a Canada policy. They use a large number of cases dealing with political and economic issues to illustrate their arguments, concluding that for the most part Canada has been unimportant in Washington. In so doing, they challenge the popular nationalist view that Canada has been treated as peripheral and dependent, and the impression that Canadian advice has been respected and taken into account by Washington. **A Fire to Win** John Lombardo,2007-04-01 A Fire to Win is an honest and revealing biography of Woody Hayes, a man who ranks in the pantheon of football coaches. Woody Hayes is one of the greatest football coaches in history—and one of the most fascinating. More than a brilliant coach, he was a complicated, contradictory man. The former history teacher would tout the ideals of democracy yet run his football empire as an absolute monarchy. But he had a surprisingly altruistic side, hidden from the public,. and Hayes visited local hospitals, donated his time, money, and advice, and insisted that his players graduate. More than just a standard biography, A Fire to Win explores the psychological motivations of one of the most complex of coaches. First and foremost, Woody Hayes was a coach—and his achievements are stunning. While at Ohio State, he won five national titles, and thirteen Big Ten Conference championships, made eight Rose Bowl appearances, and earned two national Coach of the Year awards. His killer instincts, honed in the navy, where he commanded a destroyer escort in the Pacific during World War II, helped him lead his teams to a 30-9 winning average. Moreover, Hayes's lifetime coaching record, 238-72-10, puts him in the first rank of college coaching immortals. No other coach has won more games in a shorter period. John Lombardo uses his extensive sports writing experience to craft an accurate portrait of one of the most complex and fascinating figures in football. Countless

interviews of former players, assistant coaches, administrators, faculty, associates, and friends shape the image of Hayes and his career, which spanned the mid-1940s to the late 1970s during a tremendous period of change in American society.

**Scoreboard, Baby** Ken Armstrong,Nick Perry,2010-01-01 Now, in Scoreboard, Baby, Armstrong and Perry go behind the scenes of the Huskies' Cinderella story to reveal a timeless morality tale about the price of obsession, the creep of fanaticism, and the ways in which a community can lose even when its team wins. The authors unearth the true story from firsthand interviews and thousands of pages of documents: the forensic report on a bloody fingerprint; the notes of a detective investigating allegations of rape; confidential memoranda of prosecutors; and the criminal records of the dozen-plus players arrested that year with scant mention in the newspapers and minimal consequences in the courts. The statement of a judge, sentencing one player to thirty days in jail, says it all: to be served after football season.

**Strong to Save** Jarrod Denman Schenewark,1998

**Fear No Man** Mike Gastineau,2021-08-11 This is the story of perhaps the greatest University of Washington Husky football team ever—and arguably, one of the top college football teams of all time. The 1991 Huskies, helmed by legendary coach Don James, chalked up a 12-0 record and won the Rose Bowl. They outscored opponents by an average of 31 points per game and the team included no less than 25 future NFL players. Alongside the Miami Hurricanes, the Huskies were recognized as national cochampions. How did a team built on contradictions—with an old-school coach, noted for his traditional approach, and a team of notably rambunctious players—make it work? Drawing on dozens of new interviews with athletes, coaching staff, and more, Seattle sports journalist Mike Gastineau tells a lively story of the unexpected twists of an epic season. Packed with never-before-told stories, his research offers new insider perspectives on iconic plays, outsized personalities, and an unusual set of team dynamics that led to one perfect season.

Bob Erlich and countless other Marylanders salute the cherished history of thoroughbred racing, though jousting is the official state sport. This volume highlights the people, places, races, faces, and, most important of all, the horses that have held the public's attention and bolstered Maryland's economy for several centuries. Subjects range from the legendary to the forgotten and from millionaires to railbirds. Horse racing is a great equalizer, drawing fans of all ages and walks of life.
