Oyo State (Nigeria)

Annual Insurance Report of the Insurance Superintendent, of the State of Illinois Illinois. Office of the Insurance Superintendent, 1915

EU Cohesion Policy John Bachtler, Peter Berkowitz, Sally Hardy, Tatjana Muravska, 2016-10-26 The Open Access version of this book, available at <http://www.tandfebooks.com/doi/view/10.4324/9781315401867>, has been made available under a Creative Commons Attribution-Non Commercial-No Derivatives 3.0 license. This book brings together academics, members of European institutions, and regional and national level policymakers in order to assess the performance and direction of EU Cohesion policy against the background of the most significant reforms to the policy in a generation. Responding to past criticisms of the effectiveness of the policy, the policy changes introduced in 2013 have aligned European Structural and Investment Funds with the Europe 2020 strategy and introduced measures to improve strategic coherence, performance and integrated development. **EU Cohesion Policy: Reassessing performance and direction** argues that policy can only be successfully developed and implemented if there is input from both

academics and practitioners. The chapters in the book address four important issues: the effectiveness and impact of Cohesion policy at European, national and regional levels; the contribution of Cohesion policy to the Europe 2020 strategy of smart, sustainable and inclusive growth; the importance of quality of government and administrative capacity for the effective management of the Funds; and the inter-relationships between institutions, territory and place-based policies. The volume will be an invaluable resource to students, academics and policymakers across economics, regional studies, European studies and international relations.
