The Routledge Handbook of the Sociology of Sport is a landmark publication that brings together the most important themes, theories and issues within the sociology of sport, tracing the contours of the discipline and surveying the state-of-the-art. Part One explores the main theories and analytical approaches that define contemporary sport sociology and introduces the most important methodological issues confronting researchers working in the social scientific study of sport. Part Two examines the connections and divisions between sociology and cognate disciplines within sport studies, including history, anthropology, economics, leisure and tourism studies, philosophy, politics and psychology. Part Three investigates how the most important social divisions within sport, and in wider society, are addressed in sport sociology, including 'race', gender, class, sexuality and disability. Part Four explores a wide range of pressing contemporary issues associated with sport, including sport and the body, social problems associated with sport, sport places and settings, and the global aspects of sport. Written by a team of leading international sport scholars, including many of the most well-known, respected and innovative thinkers working in the discipline, the Routledge Handbook of the Sociology of Sport is an essential reference for any student, researcher or professional with an interest in sport.

Game On Sue Anstiss, 2021-09-02 Shortlisted for the

Sunday Times Sports Book Awards 2022 Longlisted for the William Hill Sports Book of the Year 2021 Sport has an extraordinary, unique capacity to challenge and change society – to bring joy and hope; to improve physical and mental health, reduce loneliness and build self-esteem and happiness. It's also a multi-billion-pound commercial industry that can transform lives, businesses, nations and regions. Why has half the population been deprived of access to something so culturally powerful? In recent years, the landscape for women's sport has finally begun to shift. We've seen significant increases in investment, spectators and media coverage. More women as professional athletes and taking influential roles as board directors, editors, officials and CEOs. Yet female athletes still don't get equal opportunities or funding. In many sports, women receive less prize money, lower sponsorship revenues and a tiny fraction of the media coverage. Drawing on her own experiences, and interviews with high profile Olympic and Paralympic champions, broadcasters, journalists, sports scientists, CEOs, officials and sponsors, Sue Anstiss investigates why women have been excluded from the world of sport for centuries – and why we are now witnessing positive change as never before. *Game On* is a celebration of the trailblazing women opening doors for others and a manifesto for women's sport – a rallying cry to ensure the progress we are currently seeing goes from strength to strength.

Never Shut Up Marcellus Wiley, 2018-10-23 Ex-NFL player, gentleman scholar, and Fox Sports personality Marcellus Wiley sucks you into a world of inner-city violence, Ivy League intrigue, and pro-football escapades that's one part touching, one part hilarious, and all parts impossible to put down. Marcellus Wiley has never had a problem expressing his opinion, whether it was growing up

in Compton with a football tucked under his arm, or going to college at Columbia University, where he learned to survive Advanced Calculus and self-important pseudo-intellectuals. Or making it to the NFL against all odds, where he put together a ten-year career of massive paydays, massive painkillers, and massive sacks of everyone from Steve Young to Peyton Manning. Now, in *Never Shut Up*, Fox Sports' hottest rising persona doesn't hold back as he goes off on everything that's controversial with the game today, from concussions to political protests to inherent violence that's worse than the hood he grew up in. Not because he hates football, but because he wants to save it. Marcellus has never held back, even when a lot of people wanted him to. Now, he's letting it all hang out--right there on each page. Way more than just another book about the latest NFL scandals, this warm, moving, and genuinely funny story of awkward transitions, family loyalty, fame, fortune, and failure will make you fall in love with Marcellus--and football--all over again. In *Never Shut Up*, Marcellus will take you on a truly unique journey from Crenshaw to Broadway to the Buffalo Bills and back again, sometimes making you laugh, sometimes making you cry, but always leaving you entertained.

Digital Media Sport Brett Hutchins, David

Rowe,2013-09-05 Live broadband streaming of the 2008 Beijing Olympics accounted for 2,200 of the estimated 3,600 total hours shown by the American NBC-Universal networks. At the 2012 London Olympics, unprecedented multi-platforming embraced online, mobile devices, game consoles and broadcast television, with the BBC providing 2,500 hours of live coverage, including every competitive event, much in high definition and some in 3D. The BBC also had 12 million requests for video on mobile phones and 9.2 million browsers on its mobile Olympics website and app. This pattern will only intensify at future sport mega events like the 2014 FIFA World Cup and 2016 Summer Olympics, both of which will take place in Brazil.

Increasingly, when people talk of the screen that delivers footage of their favorite professional sport, they are describing desktop, laptop, and tablet computer screens as well as television and mobile handsets. Digital Media Sport analyzes the intersecting issues of technological change, market power, and cultural practices that shape the contemporary global sports media landscape. The complexity of these related issues demands an interdisciplinary approach that is adopted here in a series of thematically-organized essays by international scholars working in media studies, Internet studies, sociology, cultural studies, and sport studies. .

The Procrastination Economy Ethan Tussey, 2020-04-01
2018 Outstanding Academic Title, given by Choice Magazine
How mobile devices make our in-between moments valuable to media companies while also providing a sense of control and connection In moments of downtime – waiting for a friend to arrive or commuting to work – we pull out our phones for a few minutes of distraction. Just as television reoriented the way we think about living rooms, mobile devices have taken over the interstitial spaces of our everyday lives. Ethan Tussey argues that these in-between moments have created a procrastination economy, an opportunity for entertainment companies to create

products, apps, platforms, subscription services, micropayments, and interactive opportunities that can colonize our everyday lives. But as businesses commoditize our free time, and mobile devices become essential tools for promotion, branding and distribution, consumers are using these devices as a means of navigating public and private space. These devices are not just changing the way we spend and value our time, but also how we interact with others and transform our sense of the politics of space. By examining the four main locations of the procrastination economy—the workplace, the commute, the waiting room, and the “connected” living room—Ethan Tussey illuminates the relationship between the entertainment industry and the digitally empowered public.

A Future for Public Service Television Des Freedman, Vana Goblot, 2018-05-04 A guide to the nature, purpose, and place of public service television within a multi-platform, multichannel ecology. Television is on the verge of both decline and rebirth. Vast technological change has brought about financial uncertainty as well as new creative possibilities for producers, distributors, and viewers. This volume from Goldsmiths Press examines not only the unexpected resilience of TV as cultural pastime and aesthetic practice but also the prospects for public service television in a digital, multichannel ecology. The proliferation of platforms from Amazon and Netflix to YouTube and the vlogosphere means intense competition for audiences traditionally dominated by legacy broadcasters. Public service broadcasters—whether the BBC, the German ARD, or the Canadian Broadcasting Corporation—are particularly vulnerable to this volatility. Born in the more stable political and cultural conditions of the twentieth century, they face a range of pressures on their revenue, their remits, and indeed their very futures. This book reflects on the issues raised in Lord Puttnam's 2016 Public Service TV Inquiry Report, with contributions from leading broadcasters, academics, and regulators. With resonance for students, professionals, and consumers with a stake in British media, it serves both as historical record and as a look at the future of television in an on-demand age. Contributors include Tess Alps, Patrick Barwise, James Bennett, Georgie Born, Natasha Cox, Gunn Enli, Des Freedman, Vana Goblot, David Hendy, Jennifer Holt, Amanda D. Lotz, Sarita Malik, Matthew Powers, Lord Puttnam, Trine Syvertsen, Jon Thoday, Mark Thompson

The study also takes account of North American Major League Soccer (MLS) in order to provide a more comprehensive overview of the country's football market and to allow for direct comparisons with the aforementioned European competitions. These findings offer valuable insights for US broadcasters, European league organizers and managers to adjust existing strategies and/or develop new strategies in conquering the US football market.
