Uta Kohl, Andrew Charlesworth

*Watford: A History* Mary Forsyth, 2015-10-05 This volume explores the history of Watford from the earliest times to the 1970s. Set against a background of some of the major events in English history, it tells the story of how a small medieval settlement became the town we see today. Drawing on thirty years of research, Mary Forsyth provides a fascinating insight into the changing face of the town, the local characters who inspired and instigated its transformation, and the national events that shaped its development through the ages. Illustrated with selected images from Watford Museum and the author's own collection, it will interest newcomers and local residents alike, celebrating the history of this major Hertfordshire town.

**Information Technology Law** Uta Kohl,Andrew Charlesworth,2016-08-25 The fifth edition of Information Technology Law continues to be dedicated to a detailed analysis of and commentary on the latest developments within this burgeoning field of law. It provides an essential read for all those interested in the interface between law and technology and the effect of new technological developments on the law. The contents have been restructured and the reordering of the chapters provides a coherent flow to the subject matter. Criminal law issues are now dealt with in two separate chapters to enable a more focused approach to content crime. The new edition contains both a significant amount of incremental change as well as substantial new material and, where possible, case studies have been used to illustrate significant issues. In particular, new additions include: • Social media and the criminal law; • The impact of the decision in Google Spain and the 'right to be forgotten'; • The Schrems case and the demise of the Safe Harbour agreement; • The judicial reassessment of the proportionality of ICT surveillance powers within the UK and EU post the Madrid bombings; • The expansion of the ICANN gTLDs and the redesigned domain name registration and dispute resolution processes.
