All the Ugly and Wonderful Things Bryn Greenwood,2016-08-09 - A New York Times and USA Today bestseller - Book of the Month Club 2016 Book of the Year - Second Place Goodreads Best Fiction of 2016 A beautiful and provocative love story between two unlikely people and the hard-won relationship that elevates them above the Midwestern meth lab backdrop of their lives. As the daughter of a drug dealer, Wavy knows not to trust people, not even her own parents. It's safer to keep her mouth shut and stay out of sight. Struggling to raise her little brother, Donal, eight-year-old Wavy is the only responsible adult around. Obsessed with the constellations, she finds peace in the starry night sky above the fields behind her house, until one night her star gazing causes an accident. After witnessing his motorcycle wreck, she forms an unusual friendship with one of her father's thugs, Kellen, a tattooed ex-con with a heart of gold. By the time Wavy is a teenager, her relationship with Kellen is the only tender thing in a brutal world of addicts and debauchery. When tragedy rips Wavy's family apart, a well-meaning aunt steps in, and what is beautiful to Wavy looks ugly under the scrutiny of the outside world. A powerful novel you won't soon forget, Bryn Greenwood's *All the Ugly and Wonderful Things* challenges all we know and believe about love. 31 Books Bringing the Heat this Summer –Bustle Top Ten Hottest Reads of 2016 –New York Daily News Best Books of 2016 –St. Louis Post Dispatch

The Lost Colony and Hatteras Island Scott Dawson,2020-06-15 New archeological discoveries may finally solve the greatest mystery of Colonial America in this history of Roanoke and Hatteras Islands. Established on what is now North Carolina's Roanoke Island, the Roanoke Colony was intended to be England's first permanent settlement in North America. But in 1590, the entire population disappeared without a trace. The only clue to their fate was the word "Croatoan" carved into a tree. For centuries, the legend of the Lost Colony has captivated imaginations. Now, archaeologists from the University of Bristol, working with the Croatoan Archaeological Society, have uncovered tantalizing clues to the fate of the colony. In *The Lost Colony and Hatteras Island*, Hatteras native and amateur archaeologist Scott Dawson compiles what scholars know about the Lost Colony along with what scholars

have found beneath the soil of Hatteras.

Unsportsmanlike Conduct Jessica Luther, 2016-09-06 Of all the many problems facing college football, the most severe by far is the shocking number of rape cases involving athletes. And, as Luther makes abundantly clear in this impeccably researched volume, those numbers are only the tip of the iceberg, thanks to the contagion of cover-ups instigated by coaches and university officials, often with the support of police . . . Most important, Luther devotes part two of her book to changing the playbook, offering specific suggestions like “fire people” and “hire women” that throw down a gauntlet to those in power. *Unsportsmanlike Conduct* is not always easy to read—the text necessarily relies on numerous statistics and detailed summaries of court cases—but, nevertheless, it is almost certainly the most important sports book of the year. -- Booklist Starred Review Highly relevant, hard-hitting, much-needed information that reveals the widespread existence of rape by sports players on college campuses. --Kirkus Reviews We as a society owe a great debt to Jessica Luther. She has spent the last several years of her professional life dedicated primarily to reporting on the epidemic of sexual assault in college sports—football in particular. Her debut book *Unsportsmanlike Conduct: College Football and the Politics of Rape*, published on Dave Zirin's “Edge of Sports” imprint at Akashic Books, isn't simply a tell-all; she has rewritten the playbook for collegiate sports culture, giving survivors and supporters a reason to be hopeful about rooting for our teams without further sacrificing who we are. -- The Establishment The latest from Akashic's Edge of Sports imprint. Football teams create playbooks, in which they draw up the plays they will use on the field. Playbooks are how teams work and why they win. This book is about a different kind of playbook: the one coaches, teams, universities, police, communities, the media, and fans seem to follow whenever a college football player is accused of sexual assault. It's a deep dive into how different institutions--the NCAA, athletic departments, universities, the media--run the same plays over and over again

when these stories break. If everyone runs his play well, scrutiny dies down quickly, no institution ever has to change how it operates, and the evaporation of these cases into nothingness looks natural. In short, this playbook is why nothing ever changes. Unsportsmanlike Conduct unpacks this societal playbook piece by piece, and not only advocates that we destroy the old plays, but also suggests we replace them with ones that will force us to finally do something about this issue. Political sportswriter and Edge of Sports imprint curator Dave Zirin (the Nation) has never shied away from criticizing that which die-hard sports fans hold dear. The Edge of Sports titles will address issues across many different sports—football, basketball, swimming, tennis, etc.—and at both the professional and nonprofessional/collegiate levels. Furthermore, Zirin brings to the table select stories of athletes' journeys and what they are facing and how they evolve both in their sport as well as against the greater backdrop of one's life's odyssey.

Blind Injustice Mark Godsey, 2019-02-05 In this unprecedented view from the trenches, prosecutor turned champion for the innocent Mark Godsey takes us inside the frailties of the human mind as they unfold in real-world wrongful convictions. Drawing upon stories from his own career, Godsey shares how innate psychological flaws in judges, police, lawyers, and juries coupled with a "tough on crime" environment can cause investigations to go awry, leading to the convictions of innocent people. In *Blind Injustice*, Godsey explores distinct psychological human weaknesses inherent in the criminal justice system—confirmation bias, memory malleability, cognitive dissonance, bureaucratic denial, dehumanization, and others—and illustrates each with stories from his time as a hard-nosed prosecutor and then as an attorney for the Ohio Innocence Project. He also lays bare the criminal justice system's internal political pressures. How does the fact that judges, sheriffs, and prosecutors are elected officials influence how they view cases? How can defense attorneys support clients when many are overworked and underpaid? And how do juries overcome bias leading them to believe that police and expert witnesses know more than they do about what evidence means? This book sheds a harsh light on the unintentional yet routine injustices committed by those charged with upholding justice. Yet in the end, Godsey recommends structural, procedural, and attitudinal changes aimed at restoring justice to the criminal justice system.

Politics on Display Todd Makse, Scott Minkoff, Anand Sokhey, 2019-04-05
Political yard signs are one of the most ubiquitous and conspicuous features of American political campaigns, yet they have received relatively little attention as a form of political communication or participation. In *Politics on Display*, Todd Makse, Scott L. Minkoff, and Anand E. Sokhey tackle this phenomenon to craft a larger argument about the politics of identity and space in contemporary America. Documenting political life in two suburban communities and a major metropolitan area, they use an unprecedented research design that leverages street-level observation of the placement of yard signs and neighborhood-specific survey research that delves into the attitudes, behavior, and social networks of residents. The authors then integrate these data into a geo-database that also includes demographic and election data. Supplemented by nationally-representative data sources, the book brings together insights from political communication, political psychology, and political geography. Against a backdrop of conflict and division, this book advances a new understanding of how citizens experience campaigns, why many still insist on airing their views in public, and what happens when social spaces become political spaces.
