Risk and Health Communication in an Evolving Media Environment H Dan O'Hair,2018-01-12 Broadcast media has a particular fascination with stories that involve risk and health crisis events-disease outbreaks, terrorist acts, and natural disasters-contexts where risk and health communication play a critical role. An evolving media landscape introduces both challenges and opportunities for using communication to manage extreme events and hazardous contexts. Risk and Health Communication in an Evolving Media Environment addresses issues of risk and health communication with a collection of chapters that reflect state-of-the-art discussion by top scholars in the field. The authors in this volume develop unique and insightful perspectives by employing the best available research on topics such as brand awareness in healthcare communication, occupational safety, climate change communication, local broadcasts of weather emergencies, terrorism, and the Ebola outbreak, among many other areas. It features analysis of new and traditional media that connects disasters, crises, risks, and public policy issues into a coherent fabric. This book bridges a substantial, but sometimes disconnected body of literature, and by doing so asks how contexts related to risk and health communication are best approached, how researchers balance scientific findings with cultural issues, and how scholars study an increasingly media-savvy society with traditional research methods.

Life's Been a Blast Emily Lyons,Jeff Lyons,2005 Emily Lyons survived a bomb detonated by Eric Robert Rudolph in Birmingham, Alabama on Jan 29th, 1998. Rudolph was on the FBI's Top Ten for over five years with a reward of one million dollars. The manhunt cost \$30 million. Emily sustained extensive injuries, including the loss of her eye. This book is about the attack, but there is so much more - love and hate, life and death, joy and sorrow. Most of all, it is about survival. Tragic events do not make a person special. Life knocks everybody down. What counts is how you stand up afterwards. Emily faced her injuries head on and with a smile. This bombing was an unforgivable act that strikes at the heart of the constitutional freedoms and individual liberties all Americans hold dear. --President Clinton. In an era of terrorism, Emily Lyons proves its failure. It has made her more outspoken, more likely to smile, and even more treasured by her husband. Her personal story is an inspiration to all. --Gloria Steinem. Thank you so much for your courage. --Katie Couric, Today Show. Emily and Jeff's inspiring story is one of overcoming tragedy with love and humor. --Rick Journey and Janice Rogers, WBRC.

**Hook, Line and Supper** Hank Shaw,2021-04 Quite possibly the only fish and seafood cookbook you'll ever need, from the author of the award-winning website Hunter Angler Gardener Cook. So many people get all tense when faced with a piece of fish or a bag of shrimp. It's understandable: you went through all that effort to catch it, or, if you bought it from the store, we all know that fish isn't cheap. You don't want to mess things up. Hook, Line and Supper aims to cure that stage fright once and for all by breaking down the essence of fish and seafood cookery, allowing you to master the methods that bring out the best in whatever you catch or bring home from the market. Rather than focusing on specific species, Hook, Line and Supper zeroes in on broad, widely applicable varieties of fish - both freshwater and salt - that can substitute for each other, and clearly and carefully provides master recipes and techniques that will help you become a more competent and complete fish and seafood cook. Hank Shaw, an award-winning food writer, angler, commercial fisherman and cook at the forefront of the wild-to-table revolution, provides all you need to know about buying, cleaning, and cooking fish and seafood from all over North America. You'll find detailed information on how best to treat these various species from the moment they emerge from the water, as well as how to select them in the market, how to prep, cut and store your fish and seafood. Shaw's global yet approachable recipes include basics such as classic fish and chips and smoked salmon; international classics like Chinese steamed fish with chiles, English fish pie, Mexican grilled clams, and Indian

crab curry; as well as deeply personal dishes such as a Maine style clam chowder that has been in his family for more than a century. It also features an array of fish and seafood charcuterie, from fresh sausages and crispy skin chips, to terrines and even how to make your own fish sauce. The most comprehensive guide to preparing and cooking fish and seafood, Hook, Line and Supper will become an indispensable resource for anglers as well as home cooks looking for new ways to cook whatever fish or seafood that strikes their fancy at the market.

*Birmingham First Black in Blue* Leroy Stover,2014-11-26 Birmingham's First Black in Blue should be required reading for all Americans. This first-person memoir traces the often-difficult path that Leroy Stover had to take to make it from a farm in rural Alabama to his position as the pioneering first black police officer on the City of Birmingham's force. How to Hustle and Win Supreme Understanding,2008-06-19 Likened to a 48 Laws of Power for young Black men, this book presents Black biographies, history, and current events in a language that the Hip-Hop generation will understand and relate to. Each story or essay is framed within the context of a life lesson, each one being of vital importance to the survival, redemption, and ultimate success of our dying Black generation. Both the positive and negative sides of the Black experience are explored in detail, from the lives of infamous drug dealers and pimps to the exploits of Black revolutionaries and activists. In addition, several How To sections outline simple strategies for self-development. Packed with useful information, from the best way to handle confrontations with police, to the continuing relevance of the 1919 race riots, this book has been compared to an urban Encyclopedia Africana. Others have called it a Blueprint for Black Power for a generation struggling with materialism and short attention spans. This book is guaranteed to change the world by changing the way millions of people think and live. In How to Hustle and Win, author Supreme Understanding tells, in often graphic detail, stories like that of the infamous Philadelphia Black Mafia, Harlem's heroin kingpin Frank Lucas, and former gang leader Stanley Tookie Williams. In between and throughout these tales, he weaves life lessons and guidance, turning sordid stories of crime and urban despair into an educational experience. Whereas Robert Greene's bestselling 48 Laws of Power used iconic figures from classical history to illustrate the guidelines for personal success, How to Hustle and Win is filled with the exploits of rappers, gangsters, radicals, and revolutionaries. This is a new kind of Black history book, and its intent is the motivation and achievement of a new kind of reader. Although today's literary market has seen an influx of self-help books attending to a variety of issues, few books have attempted to address the concerns of young Black men, struggling to find direction. It is this group that author Supreme Understanding names as one of most troubled demographics in American society today. On the book's website, the author comments: Unfortunately, few authors actively target this audience, and those who do are either not speaking their language, or not interested in pushing for change. This is why How to Hustle and Win was written. This book will change the minds of millions of young men of color, and by doing this, it will ultimately change the world. Revolutionary aspirations aside, How to Hustle and Win's groundbreaking concept results in a truly appealing work. Its essays are delivered in short bursts, none of them over four pages long, making it ideal for struggling readers and those with shorter attention spans. At the same time, the book is filled with a wealth of information that would enlighten educated readers equally. In fact, the author juxtaposes his own personal tales of early delinquency and misdirection with his later years of professional success, including obtaining a doctorate in education at the age of 26.
