Culture as Weapon Nato Thompson, 2017-01-17 One of the country's leading activist curators explores how corporations and governments have used art and culture to mystify and manipulate us. The production of culture was once the domain of artists, but beginning in the early 1900s, the emerging fields of public relations, advertising and marketing transformed the way the powerful communicate with the rest of us. A century later, the tools are more sophisticated than ever, the onslaught more relentless. In *Culture as Weapon*, acclaimed curator and critic Nato Thompson reveals how institutions use art and culture to ensure profits and constrain dissent--and shows us that there are alternatives. An eye-opening account of the way advertising, media, and politics work today, *Culture as Weapon* offers a radically new way of looking at our world.

The Business of Guns David Wilson, The manufacturers, retailers, and vendors of guns do a brisk business each day in the United States. The millions of guns bought and sold add up to billions of dollars of revenue and thousands of jobs, boosting city, state, and national economies. Major manufacturers can churn out millions of guns in a single year, while tens of thousands of

individual retailers make gun ownership available throughout the nation. On the surface, purchasing a firearm from a gun store in the United States requires passing a series of legal hurdles, including a background check. However, gun stores are far from the only venue in the country to purchase a gun. Gun shows and Internet sales make it possible to connect buyers and sellers with as little oversight as the sale of a television, reducing or even eliminating the security checks on the exchange of deadly weapons.
