📖 **SUPER-STICKY WeCHAT AND CHINESE SOCIETY** Yujie Chen,Zhifei Mao,Jack Linchuan Qiu,2018-07-13 This book provides a balanced and nuanced study of how the super-sticky WeChat platform interweaves into the fabric of Chinese social, cultural, and political life. It keeps the wider global and national social media landscape in view and compares and contrasts WeChat with Weibo, QQ and other Western social media platforms.

📖 **WeCHAT AND THE CHINESE DIASPORA** Wanning Sun,Haiqing Yu,2022-03-31 WeChat (the international version of Weixin), launched in 2012, has rapidly become the most favoured Chinese social media. Globally available, equally popular both inside and outside China and widely adopted by Chinese migrants, WeChat has fundamentally changed the ways in which Mandarin-speaking migrants conduct personal messaging, engage in group communication and community business activities, produce and distribute news, and access and share information. This book explores a wide range of issues connected to the ways in which WeChat works and is used, across the world among the newest members of the Chinese diaspora. Arguing that digital/social media afford a great degree of individual agency, as well as a collective capacity for sustaining an 'imagined community', the book shows how WeChat's assemblage of infrastructure and regulatory frameworks, technical capabilities, content and sense of community has led to the construction of a particular kind of diasporic Chinese world, at a time marked both by China's rise, and anxiety about Chinese influence in the West. Chapter 2 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

📖 **THE FIRST SUPERAPP** Kevin Shimota,2022-07-05 China has leapfrogged past the West in many areas of tech - China's mobile payments have surpassed the United States 100-fold and most Chinese consumers haven't used cash or a credit card for years - and at the center of this new digital revolution is WeChat, the world's first superapp. For people in China, WeChat is now the everything app - wallet, social media, messaging, food ordering, bill paying, game playing and much more. And companies across the world are only now racing to catch up by creating a similar, all-encompassing digital phenomenon. The First Superapp provides a glimpse of the future, and Kevin Shimota, a former top executive at WeChat, tells the inside story of how this phenomenon began in the context of China's unique internet. He tells the story of WeChat's creation and its climb to become the first superapp, providing insights on the psyche of WeChat's founder, and of modern China tech to explain the fundamentals of these new innovations and how the framework they form could be reproduced beyond China.

📖 **PRACTICAL WeCHAT MARKETING 94 WAYS** Andy Ng,2020-03-11 WeChat has been around since 2011, but many people outside China still do not know how to use it. 📖 **How To Be Wechat Businessmen** Yan Zhi,2020-03-02 This is a story of bad people. WeChat is just a small merchant selling goods on the mobile end, they mainly use WeChat as a platform for network promotion. My name is Lin Jian, I am just a WeChat merchant, a group that many people avoid. My tiny life in this vast network, but truth, life and death, betrayal and love and hate of the entanglement, let me not only in this one. If the lover, do not see clear hearts, bloody gains and losses and always let me doubt: friends and enemies are not really the same? Looking back, the shopping mall full of profits will always have a method and endless struggle that you and I can't figure out. There are no black and white in this place. There is only a fight to the death. So how could there be a good person, he was really fickle.

📖 How To Sell Big On WeChat (English Edition) Nora Holtmann, 2020-03-22 How to sell big on WeChat This book explains everything you need to know about the largest social media channel in China. In the book, you will learn how to win customers and sell products via WeChat and how to place your company in the Chinese market. Does the Chinese market seem like a book with seven seals to you? Or you want to reach Chinese consumers in Germany? Are you looking for an opportunity to open up a new market for your products? Or you just want to take a look into the future and see how the market could develop shortly? This guide helps! The more you deal with retail marketing in China, the more extensive and confusing the topic seems to become. Because in China, social media and retail are much more closely intertwined than in other markets. The biggest difference is that you can shop directly out of the social media channel WeChat because the retailers promote their products directly on the WeChat channel. Also, there is - how practical - a direct WeChat pay function, so that marketing, sales, and transaction are all handled directly via the same platform. This trend could also become established in Germany in a short time. If you want to know today how modern consumer marketing works via WeChat in China, then you will find all the important information, explained simply and comprehensibly, in this book! The following topics are discussed in this book: What is WeChat and what can you do with it? Why do Chinese consumers love WeChat? What is the importance of WeChat in the international market? Why is WeChat also important for the German market? How do you get in touch with Chinese WeChat influencers? How do e-commerce and cashless payments via WeChat work with WeChat Pay? How can you scale your business via WeChat? And much more... That's why this book is important for you: Chinese consumers prefer beer, chocolate, and German sights. In many cases, however, you can't buy German products at all because they hardly have any cash. Chinese tourists spend millions in Germany every year - as long as these hotels, retail companies or souvenir providers allow payment with appropriate payment systems. The book gives you a complete overview of the various functions of WeChat and how you can use them for your business. You will learn how to manage your WeChat account correctly and get tips on customer acquisition. And much more... This book leaves no questions about WeChat unanswered. It explains how to set up your WeChat channel sensibly right from the start and how you can scale your success as you progress. This guide is recommended to everyone, who would like to come into business contact with the million Chinese who visit the world as tourists. Who plans to sell German products in China via WeChat, is interested in marketing in China, which deals with the social media channel WeChat, or would like to take a look into the future of retail. Use the know-how of Nora Holtmann to lead your business into the future. Learn which trends from China await us here in Germany. Be among the first to benefit from this know-how.
