**Dictionary of Steroids** R.A. Hill, H.L.J. Makin, D.N. Kirk, G.M. Murphy, 1991-05-23 This dictionary, the first extensive compilation since Fieser's Steroids in 1959, is one of a uniform series derived from the Chapman and Hall Chemical Database. For the first time bibliographic, structural and chemical data on over 10,000 of the most important steroids has been brought together to provide an invaluable reference work for chemists working in this field. The dictionary documents all known naturally occurring steroids (sterols, bile acids, sapogenins, cardanolides, bufanolides, steroidal alkaloids) and an extensive selection of the most important synthetic and semisynthetic steroids. The presentation of data is uniform with the established Dictionary of organic compounds, fifth edition, with accurately drawn diagrams showing stereochemistry and comprehensive, labelled bibliographies giving rapid access to primary

literature sources. A small proportion of entries are based on entries in the Dictionary of organic compounds which have been substantially expanded and brought up to date with references to the recent literature (coverage up to August 1990). The majority are wholly new with particularly strong natural product coverage. Access to this information is provided by name, molecular formula, CAS registry number, type of compound, and species indexes--which comprise Volume 2. **The Sanctuary of Demeter and Kore** Nancy Bookidis,2010-10-31 The fifth part of the Corinth volume dedicated to the Sanctuary of Demeter and Kore publishes the large-scale terracotta sculpture found in the sanctuary. Extending from the late 7th through the 4th century B.C., the sculpture consists of fragments from 132 to as many as 147 statues, from half- to nearly life-size. These are, for the most part, statues of young males, both draped and nude, although females and seated infants appear as well. Several introductory chapters discuss the types represented, the findspots and possible original placement of the sculptures, and the techniques involved in their construction. The fragments are presented in 156 well-illustrated catalogue entries. This volume greatly expands our knowledge of the history of Corinth, broadening our understanding both of cult practices at the site and of the manufacture of terracotta sculpture.
