Drew A. Swanson

The Railroad Tycoon Who Built Chicago Jack Harpster, 2009-08-28 William Butler Ogden was a pioneer railroad magnate, one of the earliest founders and developers of the city of Chicago, and an important influence on U.S. westward expansion. His career as a businessman stretched from the streets of Chicago to the wilds of the Wisconsin lumber forests, from the iron mines of Pennsylvania to the financial capitals in New York and beyond. Jack Harpster's *The Railroad Tycoon Who Built Chicago: A Biography of William B. Ogden* is the first biography of one of the most notable figures in nineteenth-century America. Harpster traces the life of Ogden from his early experiences as a boy and young businessman in upstate New York to his migration to Chicago, where he invested in land, canal construction, and steamboat companies. He became Chicago's first mayor, built the city's first railway system, and suffered through the Great Chicago Fire. He had diverse business interests that included real estate, land development, city planning, urban transportation, manufacturing, beer brewing, mining, and banking, to name just a few. Harpster, however, does not simply focus on the business mogul; he delves into the heart and soul of the man himself—Ogden was a dedicated family man, a noted raconteur, a respected philanthropist, and a friend to many of the era's rich and powerful. *The Railroad Tycoon Who Built Chicago* is a meticulously researched and nuanced biography set against the backdrop of the historical and societal themes of the nineteenth century. It is a sweeping story about one man's impact on the birth of commerce in America. Ogden's private life proves to be as varied and interesting as his public persona, and Harpster weaves the two together into a colorful tapestry of a life well and usefully lived.

The New Chardonnay Heather Cabot, 2020-08-11 "The inside scoop on how marijuana landed on Main Street . . . and why it's coming soon to a city near you."—Katie Couric From gleaming dispensaries stocked with elegantly wrapped edibles to the array of CBD lotions and oils for sale at your local drugstore to tastemaker Martha Stewart cooking up marijuana munchies on prime-time television, one thing is clear: Pot has fully shed its stoner image. In this deeply reported journey into the new world of legal cannabis, award-winning reporter Heather Cabot takes readers on the road with Snoop Dogg and his business partner Ted Chung as they roll out the star's own brand of bud; to California wine country, where chefs and vintners are ushering in a new age of elevated dining; on wild adventures with marijuana mogul Beth Stavola, for whom fending off shady characters is just another day at the office; and to rural Canada to meet the Willy Wonka of Weed. Drawing on exclusive interviews with some of the biggest names in the world of cannabis, Cabot's book explores the confluence of social, economic, and political forces that have brought marijuana into the mainstream. Among them, outrage over the racial injustice of U.S. drug laws, the booming self-care industry catering to stressed-out professionals and busy parents in search of better sleep and more sex, seniors clamoring for natural alternatives to opioids to manage their aches and pains, and tens of millions of investor dollars fueling a frenetic "green rush" mentality. The story of an astonishing rebranding, *The New Chardonnay* explores how a plant that was once the subject of multimillion-dollar public service announcements came to spark new culinary trends; inspire new uses for health, beauty, and wellness; and generate hundreds of thousands of jobs and untold tax revenue—all while remaining

federally illegal in America.

The Weed Runners Nicholas Schou, 2013-09-01 Make no mistake: the US government's hundred-year-old war on marijuana isn't over. Some 20 million Americans have been arrested on marijuana charges so far. The American marijuana industry remains underground, where modern-day moonshiners who view themselves as tomorrow's Johnnie Walkers continue to take immeasurable personal risks to fulfill America's incessant demand for weed. Drawing on unparalleled access to sources ranging from lawyers to cannabis club owners, from outlaw cultivators to industry entrepreneurs, *The Weed Runners* is both journalistic exposé and adventure story.

Weed I.M. Stoned, 2009-10-18 Weed. Pot. Mary Jane. Grass. No matter what you call marijuana, it's still dope. In this irreverent and all-inclusive look at cannabis, you will learn all there is to know about the psychoactive substance Bill Clinton didn't inhale - but many others did - including: How pot can help cure a hangover Why The Man really doesn't want to legalize weed How to make a bong from an apple The real deal behind Reefer Madness And more! From how to grow it, ways to consume it, and places to hide it, to myths debunked, stupid crimes, and pot in pop culture, this smokin' book is guaranteed to keep you giggling - long after the buzz wears off.

Big Weed Christian Hageseth, Joseph D'Agnes, 2015-04-21 An inside look at the legal marijuana industry and the huge economy it's creating—from the founder of Green Man Cannabis, the fastest-growing marijuana producer in the country

Weed Land Peter Hecht, 2014-04-07 Written by Peter Hecht, an award-winning journalist from The Sacramento Bee, *Weed Land* takes readers into the laboratories of researchers who challenged federal drug policy with clinical studies revealing the medical benefits of cannabis. It also explores an exploding marijuana marketplace that pitches compassionate healing with the pure joy of pot. And it takes readers inside the law enforcement backlash -- and unfolding consequences -- of a federal crackdown on America's largest marijuana economy.--www.Amazon.com.

Craft Weed Ryan Stoa, 2018-11-13 How the future of post-legalization marijuana farming can be sustainable, local, and artisanal. What will the marijuana industry look like as legalization spreads? Will corporations sweep in and create Big Marijuana, flooding the market with mass-produced weed? Or will marijuana agriculture stay true to its roots in family farming, and reflect a sustainable, local, and artisanal ethic? In *Craft Weed*, Ryan Stoa argues that the future of the marijuana industry should be powered by small farms—that its model should be more craft beer than Anheuser-Busch. To make his case for craft weed, Stoa interviews veteran and novice marijuana growers, politicians, activists, and investors. He provides a history of marijuana farming and its post-hippie resurgence in the United States. He reports on the amazing adaptability of the cannabis plant and its genetic gifts, the legalization movement, regulatory efforts, the tradeoffs of indoor versus outdoor farms, and the environmental impacts of marijuana agriculture. To protect and promote small farmers and their communities, Stoa proposes a Marijuana Appellation system, modeled after the wine industry, which would provide a certified designation of origin to local crops. A sustainable, local, and artisanal farming model is not an inevitable future for the marijuana industry, but *Craft Weed* makes clear that marijuana legalization

has the potential to revitalize rural communities and the American family farm. As the era of marijuana prohibition comes to an end, now is the time to think about what kind of marijuana industry and marijuana agriculture we want. Craft Weed will help us plan for a future that is almost here.

The Little Green Book of Weed Dr. Seymour Kindbud, 2010-07-27 For marijuana aficionados of all ages, a neat little handbook of all things pot related. A take on the "Little Black Book," which reveals all the secrets of its owner, the Little Green Book is a personal repository of all things its owner likes about smoking pot. Highlighted by quotes from world-famous pot smokers, the book is part journal, part celebration of the community of pot smokers. It includes chapters on cannabis facts, healthy munchies, movie madness, and even your rights as a pot smoker. With lots of places for personal notes.

TIME Marijuana Goes Mainstreet Barcott, Bruce, 2017-04-14 Welcome to the end of the war on pot. With more landmark legislation in 2016, marijuana has continued its march toward legalization and normalization, 29 states having gone medically legal. In this updated adaptation, based on Bruce Barcott's groundbreaking book *Weed the People*, we look at some of the key issues surrounding pot: What benefits has it shown in treating conditions ranging from glaucoma to multiple sclerosis to PTSD? How did it come to be classified as a Schedule I drug? Who are the harvesters, investors and entrepreneurs bringing pot out of the shadows and grow rooms and into the marketplace? How does such a marketplace come to exist amid a complicated regulatory framework? Where do we go from here, at a time when states are increasingly pro-legalization but a new federal administration could change things at any time?

World Wide Weed Tom Decorte, Gary W. Potter, Martin Bouchard, 2011 As we start the second decade of the 21st century, the new cannabis industry continues to fascinate both casual and academic observers of the drug scene. Researchers around the world have become increasingly interested in the phenomenon, aiming to describe, and potentially explain, the rapid switch from importation to domestic production in their own countries. Takes an interdisciplinary look at global trends in cannabis cultivation. It will serve as an exemplar for wider discussions of key theories and concepts relating to the spread not just of cannabis cultivation, but also of illegal markets more generally, the actors that operate within these markets and the policies and practices that are employed in response to developments within these markets. From publisher description.

Marijuana Business J.D. Rockefeller, 2015-07-03 So you've packed your bags, loaded your van and are ready to join the Green Rush along with thousands of others looking to try their luck at opening and running successful marijuana dispensaries and businesses in states like Arizona, Colorado, Georgia, Alaska and others. The business is big: According to CNBC, the marijuana industry in the U.S. alone is worth an estimated \$45 billion and it continues to grow. As of January 1, 2014, the state of Colorado became the first to have dispensaries where marijuana could be grown and sold legally. Because of this legalization, medical dispensaries in Colorado are now able to apply for special licenses that allow them to sell marijuana for medical and recreational use to the public. However, the costs of cannabis retail sales don't come cheap: Marijuana dispensaries and businesses can expect to pay tens of thousands on operating licenses and application fees. Background checks and residency requirements for business owners are there to make sure that not anyone can start their own dispensary and sell marijuana. Today, marijuana dispensaries are not just in Colorado but have grown to other states like California, Alaska, Florida and the like. Marijuana dispensaries have the added advantage in that they don't only have to sell weed to card-holding patients, but to recreational smokers as well. In this book you will learn: - How to Open a Medical Marijuana Dispensary: A Bit of Background - A Look at How Marijuana Dispensaries Work - Challenges of a Marijuana Medical Dispensary - What to Do When Opening a Medical Marijuana Dispensary - The Kind of Costs and Revenues to Expect From A Medical Marijuana Dispensary - What Are the Auxiliary Benefits of Starting a Medical Marijuana Dispensary? - Other Important Considerations to Make Before Starting And Running A Medical Marijuana Dispensary Let's get started!

Too High to Fail Doug Fine, 2012-08-02 The first in-depth look at the burgeoning legal cannabis industry and how the "new green economy" is shaping our country. The nation's economy is in trouble, but there's one cash crop that has the potential to turn it around: cannabis (also known as marijuana and hemp). According to Time, the legal medicinal cannabis economy already generates \$200 million annually in taxable proceeds from a mere two hundred thousand registered medical users in just fourteen states. But, thanks to Nixon and the War on Drugs, cannabis is still synonymous with heroin on the federal level even though it has won mainstream acceptance nationwide. ABC News reports that underground cannabis's \$35.8 billion annual revenues

already exceed the combined value of corn (\$23.3 billion) and wheat (\$7.5 billion). Considering the economic impact of Prohibition—and its repeal—Too High to Fail isn't a commune-dweller's utopian rant, it's an objectively (if humorously) reported account of how one plant can drastically change the shape of our country, culturally, politically, and economically. Too High to Fail covers everything from a brief history of hemp to an insider's perspective on a growing season in Mendocino County, where cannabis drives 80 percent of the economy (to the tune of \$6 billion annually). Investigative journalist Doug Fine follows one plant from seed to patient in the first American county to fully legalize and regulate cannabis farming. He profiles an issue of critical importance to lawmakers, media pundits, and ordinary Americans—whether or not they inhale. It's a wild ride that includes swooping helicopters, college tuitions paid with cash, cannabis-friendly sheriffs, and never-before-gained access to the world of the emerging legitimate, taxpaying "ganjaprenneur."

Cannabiz John Geluardi, 2016-01-08 Cannabiz tells one the most important

political and business stories of our generation: the transformation of a counterculture movement into a growth industry with staggering potential. Charting the rise of medical marijuana in California and 14 other states, award-winning journalist John Geluardi vividly recounts the movement's early activism, its legal challenges and victories, and its emergence as a commercial and political force. Tracing the history of marijuana in the United States, Cannabiz also reports on the industry's key players, political allies and opponents, internal strife, and audacious aspirations—including a 2010 ballot initiative to legalize the adult use of marijuana in California. Along the way, Geluardi describes local efforts to regulate dispensaries, ranging from workable ordinances in some cities to bureaucratic paralysis in Los Angeles, where dispensaries came to outnumber McDonalds franchises. He also reports on efforts in Humboldt County, the heartland of marijuana cultivation, to keep pot illegal—and prices high. Adroitly profiling this unique industry, Cannabiz tells a distinctively American story—one whose colorful characters and fascinating details evoke Prohibition and the Gold Rush.

Humboldt Emily Brady, 2013-06-18 In the vein of Susan Orlean's *The Orchid Thief* and Deborah Feldman's *Unorthodox*, journalist Emily Brady journeys into a secretive subculture—one that marijuana built. *Humboldt: Life on America's Marijuana Frontier* Say the words Humboldt County to a stranger and you might receive a knowing grin. The name is infamous, and yet the place, and its inhabitants, have been nearly impenetrable. Until now. *Humboldt* is a narrative exploration of an insular community in Northern California, which for nearly 40 years has existed primarily on the cultivation and sale of marijuana. It's a place where business is done with thick wads of cash and savings are buried in the backyard. In Humboldt County, marijuana supports everything from fire departments to schools, but it comes with a heavy price. As legalization looms, the community stands at a crossroads and its inhabitants are deeply divided on the issue—some want to claim their rightful heritage as master growers and have their livelihood legitimized, others want to continue reaping the inflated profits of the black market. Emily Brady spent a year living with the highly secretive residents of Humboldt County, and her cast of eccentric, intimately drawn characters take us into a fascinating, alternate universe. It's the story of a small town that became dependent on a forbidden plant, and of how everything is changing as marijuana goes mainstream.

A Golden Weed Drew A. Swanson, 2014-08-12 Drew A. Swanson has written an “environmental” history about a crop of great historical and economic significance: American tobacco. A preferred agricultural product for much of the South, the tobacco plant would ultimately degrade the land that nurtured it, but as the author provocatively argues, the choice of crop initially made perfect agrarian as well as financial sense for southern planters. Swanson, who brings to his narrative the experience of having grown up on a working Virginia tobacco farm, explores how one attempt at agricultural permanence went seriously awry. He weaves together social, agricultural, and cultural history of the Piedmont region and illustrates how ideas about race and landscape management became entangled under slavery and afterward. Challenging long-held perceptions, this innovative study examines not only the material relationships that connected crop, land, and people but also the justifications that encouraged tobacco farming in the region.
