Cannabis World Journals - Edition 44 english Cannabis World Journals,2023-04-05 The right reached to reality 2023 is presented as the year of great changes worldwide for the cannabis industry. During the last five years we have observed the transformation that the laws have had to reflect the reality that patients acclaim. The state of Texas has not been the exception and in this next legislative session #88 the opportunity is presented for the right to reach reality. For this reason, in this new edition of Cannabis World Journals we have as a person of the month Mihaela Plesa, a legislative director in Austin who has worked with small businesses throughout Texas while maintaining her passion for politics by collaborating with various organizations such as the National Organization for Young Women (Young NOW) and the National Organization for the Reform of Marijuana Laws (NORML). The CannaGrow section lists the soil conditions for growing medical cannabis in Texas. At CannaCountry we will talk about the United States, its advances in legislation and projections. At CannaLaw we will look at some cannabis litigation, the Compassionate Use Act (Tim Timmons) and the bills on the horizon for the 88th legislative session in Texas. The CannaTrade section talks about how cannabis companies enter the world of activism and regulation and finally, the CannaMed section describes hemp in the food industry as an uncertain but promising development.

Cannabis World Journals - Edition 45 english Cannabis World Journals,2023-05-08 Texas: beyond a utopia, a reality With the legislative session still in effect, Texas moves closer to the industry patients deserve. Some of the most anticipated changes are from Rep. Stephanie Klick's House Bill 1805 and dispensary licensing. The bill aims to increase the allowed amount of THC in medical cannabis and add chronic pain to the list of accepted medical conditions, as well as expanding state coverage. What once seemed like a utopia is becoming closer to reality. For this reason, in this new edition of Cannabis World Journals, Ethan Russo, a well-known neurologist, researcher, and author with a focus on psychopharmacology and the endocannabinoid system, is featured as the person of the month. In the CannaGrow section, the varieties of cannabis that should be produced to offer therapeutic benefits to patients in Texas are analyzed. In CannaCountry, we will talk about the United States, its progress in legislation, and projections. In CannaLaw, some cannabis litigation and the two faces of the cannabis industry in Texas are discussed. Brave New Weed Joe Dolce,2016-10-04 The former editor-in-chief of Details and Star adventures into the fascinating brave new world of cannabis, tracing its history and possible future as he investigates the social, medical, legal, and cultural ramifications of this surprisingly versatile plant. Pot. Weed. Grass. Mary Jane. We all think we know what cannabis is and what we use it for. But do we? Our collective understanding of this surprising plant has been muddled by politics and morality; what we think we know isn't the real story. A war on cannabis has been waged in the United States since the early years of the twentieth century, yet in the past decade, society has undergone a massive shift in perspective that has allowed us to reconsider our beliefs. In Brave New Weed, Joe Dolce travels the globe to tear down the cannabis closet and de-mystify this new frontier, seeking answers to the questions we didn't know we should ask. Dolce heads to a host of places, including Amsterdam, Israel, California, and Colorado, where he skillfully unfolds the odd, shocking, and wildly funny history of this complex plant. From the outlandish stories of murder trials where defendants claimed insanity due to marijuana consumption to the groundbreaking success stories about the plant's impressive medicinal benefits, Dolce paints a fresh and much-needed portrait of cannabis, our changing attitudes toward it, and the brave new direction science and cultural acceptance are leading us. Enlightening, entertaining, and thought-provoking, Brave New Weed is a compelling read that will surprise and educate proponents on both sides of the cannabis debate.

Women & Weed Elana Frankel, 2020-03-17 It's easy to feel overwhelmed by the newfound power of buying and using pot. So, first things first - here's a basic look at the plant. What is it? Where has it been? And how do you use it? Even if you consider yourself a pro, a little refresher could not hurt. As cannabis moves towards legalization and declining social stigma, the green rush has ignited an entrepreneurial spark and that means blazing new trails, and inspiring others. Entrepreneurs are known for heading out into uncharted territory with superhuman dedication. Add to that the grey area of working in the cannabis industry and you've got possibilities...challenging but feasible. One thing is for certain, women are flocking to the industry and don't mind working in high-risk, uncharted territory. Women are starting businesses, growing and extracting, working in real estate and the medical community. Today, at least 25% of executive-level roles in the industry are held by women and that is a slight edge over U.S. businesses as a whole (23%). However, when it comes to cannabis, it's rarely obvious what to do next in the ever-changing political, social and medical scene, and, traditionally a woman would have relied on herself when challenges arise. In this premium book, the power of personal narratives brings a better understanding to these complex issues. When asked to share their own stories within the context of the industry, the women on these pages made connections between their own biographies and the industry, and happily pass on that knowledge. Maybe the reader will see herself in these pages or perhaps she is still learning and unlearning. (Don't worry, we've got a primer for you!) Either way, readers will soon realize that they are not alone and there are resources to get more involved.

Weed the People Bruce Barcott, 2015-04-07 There is no other organization whose inner workings are more secretive than the Vatican - the spiritual and physical center - of the Catholic Church. Now, with a dynamic new leader in Pope Francis, all eyes are upon the church, as this immensely popular Pope seeks to bring the church back from the right to center, in what can almost be described as a populist stance, blurring the lines between politics, religion and culture. With topics including women, finance, scandal, and reform at the fore, never before have so many eyes been upon the church in what could be its defining moment for modern times. Now the most respected journalist covering the Vatican and the Catholic Church today, John L. Allen, reveals the inner workings of the Vatican to display the vast machinery, and the man at the helm in a way that no other writer can. The Boston Globe has stated that John L. Allen 'is basically the reporter that bishops and cardinals call to find out what's going on within the confines of the Vatican.'
