Blocked on Weibo Jason Q. Ng,2013-08-06 Though often described with foreboding buzzwords such as The Great Firewall and the censorship regime, Internet regulation in China is rarely either obvious or straightforward. This was the inspiration for China specialist Jason Q. Ng to write an innovative computer script that would make it possible to deduce just which terms are suppressed on China's most important social media site, Sina Weibo. The remarkable and groundbreaking result is *Blocked on Weibo*, which began as a highly praised blog and has been expanded here to list over 150 forbidden keywords, as well as offer possible explanations why the Chinese government would find these terms sensitive. As Ng explains, Weibo (roughly the equivalent of Twitter), with over 500 million registered accounts, censors hundreds of words and phrases, ranging from fairly obvious terms, including tank (a reference to the Tank Man who stared down the Chinese army in Tiananmen Square) and the names of top government officials (if they can't be found online, they can't be criticized), to deeply obscure references, including hairy bacon (a coded insult referring to Mao's embalmed body). With dozens of phrases that could get a Chinese Internet user invited to the local police station for a cup of tea (a euphemism for being detained by the authorities), *Blocked on Weibo* offers an invaluable guide to sensitive topics in modern-day China as well as a fascinating tour of recent Chinese history.

Weibo Feminism Aviva Xue,Kate Rose,2022-08-25 On China's biggest social media platform, Weibo, feminists are staying one step ahead of the censors. *Weibo Feminism* is the first book to explore in-depth the connections and forms of resistance that feminist activists in China are making in online spaces despite increasing crackdowns on free speech and public expression. Aviva Wei Xue and Kate Rose explore the many forms of contemporary feminism in China, from activist campaigns against sexual harassment and domestic violence, through to Weibo Reading groups of feminist texts and subversive online novels published on the platform. The book includes an in-depth case study of feminist support networks for overwhelmingly female frontline medical staff that have sprung up on social media in the wake of the COVID-19 pandemic. *Weibo Feminism* goes on to asks what lessons are being learned in contemporary China for the cause of social justice for women around the world.

Micro-blogging Memories Eileen Le Han,2016-09-27 This book offers an in-depth account of social media, journalism and collective memory through a five-year analysis of Weibo, a leading Chinese micro-blogging platform, and prism of transitional China in a globalizing world. How does society remember public events in the rapidly changing age of social media? Eileen Le Han examines how various kinds of public events are shared, debated, and their historical significance and worthiness of remembrance highlighted on Weibo. Journalism plays a significant part in mobilizing collective remembering of these events, in a society with rapidly changing topics on the platform, the tightening state control, and nationalism on the rise. The first five years of Weibo reflect a dramatic change in Chinese society, where journalists, media professionals, and opinion leaders in other fields of expertise, together with ordinary citizens directly affected by these changes in everyday life collaborate to witness the rapid social transition.

DISCURSIVE CONSTRUCTION OF ONLINE IDENTITIES BY CHINESE CELEBRITIES ON SINA WEIBO MINFEN LIN,2020-05-28 Weibo, a hybrid of Twitter and Facebook, a popular microblogging service platform originated from China, has become one of the leading SNSs in Greater China Region. It features huge numbers of active users as well as verified high-profiled celebrity users and corporate users. Incorporating the insights from socio-psychology field to build an integrated framework of analysis for describing and explaining the processes and products of online identity construction by Chinese celebrities, the book represents an attempt to investigate how Chinese celebrities discursively construct their personal and social identities on Sina Weibo. The book can serve as a reference to the research on identity construction with its significant insights regarding the multi-faceted nature and relational dynamics of identity construction on social media and the uncovering of linguistic acts and features constituting relational identity. In addition, the insights from the study could be a reference to provide practical implications for personal branding and personal rapport management in the new Web 2.0 era.

Blocked on Weibo Jason Ng,2013-08-27 Lists over one hundred words and phrases that are

blocked on China's most popular social networking site, offering possible explanations as to why these terms are deemed so damaging or dangerous by the government.

Discursive Constructions of Corporate Identities by Chinese Banks on Sina Weibo Wei Feng, 2017-06-09 This book addresses the discursive construction of corporate identities in social media on the part of Chinese corporations, particularly highlighting how followers of corporate social media co-create corporate identities during firm-follower interactions. Toward this end, it pursues an integrated sociolinguistics approach combining e.g. thematic analysis, interactional analysis and in-depth interviews. Readers will also find extensive information on the brand-new dialogic framework of corporate identity formation. The book offers an insightful and revealing guide for both practitioners/trainers and teachers in corporate communication who are faced with the challenges of managing public relations and corporate images in the age of social media. It can also serve as a valuable case study for those readers who are fascinated by the Chinese economy and discourse analysis of the Chinese language.

Weibo Addiction in China Kun Xu, 2013

Social Media and e-Diplomacy in China Ying Jiang, 2017-08-09 As with many spheres of public life, public diplomatic communication is being transformed by the boom of social media. More than 165 foreign governmental organisations in China have embarked on the use of Weibo (a hybrid of Facebook and Twitter in China) to engage with Chinese citizens and reach out to youth populations, one of the major goals of current public diplomacy efforts. This exciting new pivot, based on systemic research of Weibo usage by embassies in China, explores the challenges and the limits that the use of Chinese Weibo (and Chinese social media in general) poses for foreign embassies, and considers ways to use these or other tools. It offers a systematic study of the effectiveness and challenges of using Weibo for public diplomatic communication in and with China. Addressing the challenges of e-diplomacy, it considers notably the occurrence of cyber-nationalism on Weibo and encourages a critical look at its practice, arguing how it can contribute to the goals of public diplomacy.

中国网络文化研究, 2020

Chinese New Media Cultures in Transition Minghua Wu, 2019 Chinese New Media Cultures in Transition: Weibo and the Carnavalesque is an important contribution to international scholarship on Chinese social media and its role in empowering ordinary Chinese netizens to challenge and influence government and mainstream media policies and practices in ways not possible prior to the widespread availability of digital media. This book develops a new model for understanding Chinese netizens' model of participation in online discussions--Carnavalesque Participatory Discourse--that integrates Bakhtin's concept of Carnavalesque discourse with concepts drawn from the Chinese cultural context, Weiguan and Meizhi. The model is then applied to case studies of three different major social media events in China, illustrating the usefulness of the model and illuminating scholarly understanding of the features and social-political significance of Chinese online discourse. Chinese New Media Cultures in Transition demonstrates that participating in online discourse and communities in China that are not explicitly political but are playful and humorous can lead to citizen empowerment.
