**Weird Worlds** David A. J. Seargent, 2013-04-18 "Weird Worlds" is the third book in David Seargent's "Weird" series. This book assumes a basic level of astronomical understanding and concentrates on the "odd and interesting" aspects of planetary bodies, including asteroids and moons. From our viewpoint here on Earth, this work features the most unusual features of these worlds and the ways in which they appear "weird" to us. Within our own Solar System, odd facts such as the apparent reversal of the Sun in the skies of Mercury, CO2-driven fountains of dust on Mars, possible liquid water (and perhaps primitive life!) deep within the dwarf planet Ceres, and a variety of odd facts about the planetary moons are all discussed. A special chapter is devoted to Saturn's giant moon Titan, and its methane-based weather system and "hydrological" cycle. This chapter also includes recent speculation on the possibility of methane-based organisms and the form that these might take, if they really do exist. Beyond our Solar System, the book looks at the range of worlds discovered and hypothesized. In "Weird Worlds," the author discusses planets where temperatures are so high that it rains molten iron, and others so cold that liquid methane floods across plains of ice! Worlds are described where the lightest element acts like a metal and where winds blow at thousands of miles per hour - as well as possible planets whose orbits are essentially parabolic. In keeping with previous titles in David Seargent's "Weird" series, "Weird Worlds" contains several projects that astronomers of all levels can undertake.

John Carter of Mars Marv Wolfman, Edgar Rice Burroughs, 2011 In this volume, John Carter, an ex-soldier turned prospector, is transported to Mars - 'Barsoom, ' as it is known to its natives - under mysterious circumstances. He becomes dedicated to protecting his new home and newly found love, the princess Dejah Thoris, from warring alien civilizations and a host of deadly Barsoomian beasts

*The Complete Weird Worlds* , 2023-01-03 It has been gone for three decades, but the titles of Eerie Publications are still sought after and enjoyed by readers across the world. Over a 15-year span (1966-1981) Eerie Publishing made its mark as a publisher of B&W horror magazines, competing primarily with the Warren titles and a few of the more successful Marvel magazines. Their output was a mix of original stories and plenty of reprints from the pre- and post-code era. WEIRD WORLDS, a SF/Fantasy/Horror hybrid comic, was stocked with B&W versions of 1950s stories, many extensively reworked. We have indicated the original artist for the stories where this is known, but in many cases the style has been hidden under the alterations, a fascinating look at how stories were repurposed for a new generation. This is the complete 5-issue series, collected in print for the first time!

**Strange Worlds** Jeff Doten, 2011-09-26 The world needs more sword and planet stories ! The Strange Worlds Anthology is a large format (7x10) collection of eight stories and one full color comic book. Each Story is illustrated with a full color mock paperback cover and three black and illustrations.

**Strange New Worlds** Ray Jayawardhana, 2013-04-21 An insider's look at the cutting-edge science of today's planet hunters In Strange New Worlds, renowned astronomer Ray Jayawardhana brings news from the front lines of the epic quest to find planets—and alien life—beyond our solar system. Only in the past two decades, after millennia of speculation, have astronomers begun to discover planets around other stars—thousands in fact. Now they are closer than ever to unraveling distant twins of the Earth. In this book, Jayawardhana vividly recounts the stories of the scientists and the remarkable breakthroughs that have ushered in this extraordinary age of exploration. He

describes the latest findings—including his own—that are challenging our view of the cosmos and casting new light on the origins and evolution of planets and planetary systems. He reveals how technology is rapidly advancing to support direct observations of Jupiter-like gas giants and super-Earths—rocky planets with several times the mass of our own planet—and how astronomers use biomarkers to seek possible life on other worlds. *Strange New Worlds* provides an insider's look at the cutting-edge science of today's planet hunters, our prospects for discovering alien life, and the debates and controversies at the forefront of extrasolar-planet research. In a new afterword, Jayawardhana explains some of the most recent developments as we search for the first clues of life on other planets.

**Strange Worlds** Victoria Pearson, 2013-05-31 Slip into fifteen dark tales that show the world through a strange new perspective. Take your imagination on a journey that begins before birth and continues long after death, stopping off to marvel, tremble and wonder at the strange worlds in between. Meet zombies, vampires, leprechauns, even a genie, as you have never seen them before. Ponder what the world feels like for a child as yet unborn, spend a sleepless night with a would-be murderer, and see what becomes of the angel who trades places with one of the most vulnerable in our society. Find out what life feels like when you can no longer rely on your senses, when you have no-one left to trust, not even yourself... If you like your short fiction shrouded in darkness and sprinkled with the strange, then this is the collection for you. Leap into the unknown, and see the world through someone else's mind...

Weird Worlds Steve Carter, Antoinette Rydyr, 2017-01-26 Contains adult themes and/or strong language.

**Weird Worlds** Aaron Lopresti, Kevin Maguire, Jerry Ordway, 2011-12-01 Lobo has met another survivor of his home-world, Czarnia. But how can she exist, when Lobo himself killed them all? Plus, witness the gruesome origin of Garbageman, with Batman hot on his heels.

*Bruce Coville's Strange Worlds* Steven Roman, 2000 A collection of short stories about life on other planets.

**Weird Worlds of Joel Jenkins** Joel Jenkins, 2013-05-01 From an ancient temple in the icy Martian mountains to a forbidden road haunted by the ghost of an Indian brave, this collection of tales will take you on a thrilling journey. Meet vampire hunters, a rock musician who takes on the heavyweight champion of the world, the reluctant warrior of the mystical land of Saffronia, giant Nazi robots, and the Mormon gunfighter Porter Rockwell ... as well as a few hungry apes and one very lovely assassin.

**The Weird World of Eerie Publications** Mike Howlett, 2010 Eerie Publications' horror magazines brought blood and bad taste to America's newsstands from 1965 through 1975. Here's the sordid background behind this mysterious comics publisher, featuring astonishingly red reproductions of many covers and the most spectacularly creepy art.

**Wally Wood** Wallace Wood, 2012 *Strange Worlds of Science Fiction* is the most extensive collection to-date, of sci-fi comics by Hall of Fame creator Wallace Wood.--P. [4] of cover.

**Strange Worlds Four Issue Super Comic** Wally Wood, 2016-03-09 The first comic-book series to be titled *Strange Worlds* ran 15 issues published in two sequences by Avon Comics. Issues #1-10 ran cover-dated November 1950 to November 1952. No issues #11-17 were released, and the series began publication again with #18, having taken over the numbering of the defunct Avon comic *Eerie*. This second sequence ran through issue #22 (Oct./Nov. 1954 - Sept./Oct. 1955). One ongoing feature in the otherwise anthological title was Kenton of the Star Patrol. While Avon was a minor comics publisher in relation to such contemporaneous industry leaders as Atlas Comics, DC Comics, and EC Comics, the series featured artwork by such top talents as Wally Wood, who would soon go on to become an industry star at EC; Joe Kubert, later a signature artist of DC's Hawkman and Sgt. Rock; portrait painter Everett

Raymond Kinstler and Western-art painter Charles Sultan, early in their careers; and seminal African-American comics artist Alvin C. Hollingsworth a.k.a. Alvin Holly.

The Weird Indexes of Eerie Publications Mike Howlett,

*Dark Dreams and Weird Worlds* Gary Hill, 2017-10-12 Covering ground ranging across science fiction and horror (and even a bit of fantasy), this collection has 18 pieces of fiction from nine different writers. The writers included in this book are: Heath D. Alberts Kurt Belcher Bill Camp Henrik Sandbeck Harksen Gary Hill Ken Lateer Ian Christopher LeBlanc Mark Matzeder Dustin Urness

Weird Worlds of Joel Jenkins 2 Joel Jenkins, Morgan Abbot, Jackson, 2014-11-20 From the ghoul haunted graveyards of New Orleans to the luminescent caverns that conceal the mushroom fields of Mars, visit the weird worlds of Joel Jenkins. Roar across Australia's Nullarbor Plains with a storm of cataclysmic force upon your tail. Fend off a bull-turned-zombie in the rings of Tijuana, fight a running gun battle in the streets of the Old West with Sam Houston's most famous son--the silver tongued lawyer Temple Houston, pit yourself against assassins a mile in the sky, and fight a deadly battle atop a wizard's tower in the City of Corruption. Meet the Native American gunfighter and demon slayer Lone Crow, skateboarding zombie killer Samuel T. Ogden and his lovely companion Katie Lowe, the slightly mad Martian scientist Sar Savaht, and his deadly wife, Bucky and Candice Thunder--speed demons extraordinaire, and a few others drawn from the strange corridors of Jenkins' mind.

**The WEIRDest People in the World** Joseph Henrich, 2020-09-08 A New York Times Notable Book of 2020 A Bloomberg Best Non-Fiction Book of 2020 A Behavioral Scientist Notable Book of 2020 A Human Behavior & Evolution Society Must-Read Popular Evolution Book of 2020 A bold, epic account of how the co-evolution of psychology and culture created the peculiar Western mind that has profoundly shaped the modern world. Perhaps you are WEIRD: raised in a society that is Western, Educated, Industrialized, Rich, and Democratic. If so, you're rather psychologically peculiar. Unlike much of the world today, and most people who have ever lived, WEIRD people are highly individualistic, self-obsessed, control-oriented, nonconformist, and analytical. They focus on themselves--their attributes, accomplishments, and aspirations--over their relationships and social roles. How did WEIRD populations become so psychologically distinct? What role did these psychological differences play in the industrial revolution and the global expansion of Europe during the last few centuries? In *The WEIRDest People in the World*, Joseph Henrich draws on cutting-edge research in anthropology, psychology, economics, and evolutionary biology to explore these questions and more. He illuminates the origins and evolution of family structures, marriage, and religion, and the profound impact these cultural transformations had on human psychology. Mapping these shifts through ancient history and late antiquity, Henrich reveals that the most fundamental institutions of kinship and marriage changed dramatically under pressure from the Roman Catholic Church. It was these changes that gave rise to the WEIRD psychology that would coevolve with impersonal markets, occupational specialization, and free competition--laying the foundation for the modern world. Provocative and engaging in both its broad scope and its surprising details, *The WEIRDest People in the World* explores how culture, institutions, and psychology shape one another, and explains what this means for both our most personal sense of who we are as individuals and also the large-scale social, political, and economic forces that drive human history. Includes black-and-white illustrations.
