Donalyn Miller

I Am Reading Kathy Collins, Matt Glover, 2015 It's vital that we support young children's reading in ways that nurture healthy reading identities, that foster an attraction to books and a love of reading, and that teach them how to make meaning in any text they choose, whether or not they can read the words. - Kathy Collins and Matt Glover What do we see when young children interact with books before they can read the words? Kathy Collins and Matt Glover see real reading, characterized by purposeful meaning-making and opportunities for reading growth and language development. One of our biggest hopes, write Kathy and Matt, is to help you see and value all of the powerful work young children do as readers. With I Am Reading you'll see that fostering what little ones do before they can read the words is important early instruction. Kathy and Matt show how to nurture, nudge, and instruct young readers to make meaning in any text, whether or not they are reading the words. They share: observation guides for children reading any kind of book specific descriptions of language and independence development sample reading conferences and whole-class minilessons suggestions for creating reading opportunities in preschool and reading workshops in K-1 action plans to get you going 25 online video clips of children making meaning and teachers supporting them. I Am Reading pairs two important voices in early literacy to remind us that we're teaching children, not reading levels. In the rush toward ever higher reading levels in the early years, write Kathy and Matt, we may fail to value the strategy use and high-level thinking children do before they are reading conventionally. Join Kathy and Matt and look anew at your young readers so you can provide the kind of support that gets them off to a great start.

**What I Am** Divya Srinivasan,2021-08-03 The creator of Little Owl's Night explores and celebrates the complexities of what makes us who we are in this comforting and thoughtful picture book. A young narrator describes herself: a girl, a granddaughter, Indian, and American. Soon, we see the young girl as a plethora of things: selfish and generous, mean and kind, brave and mischievous. While many of these qualities oppose each other, the context and illustrations make it abundantly clear that she speaks the truth. She is a walking contradiction, and that is precisely what makes her both a unique individual and an essential piece of the greater world around her. Divya Srinivasan shows what makes us human and proud to be who we are.

Letters from Paris Juliet Blackwell,2016-09-06 From the New York Times bestselling author of The Paris Key comes the story of a mysterious work of art and the woman inspired to uncover its history in the

City of Light. After surviving the accident that took her mother's life, Claire Broussard has worked hard to escape her small Louisiana hometown. But these days she feels something is lacking. Abruptly leaving her lucrative job in Chicago, Claire returns home to care for her ailing grandmother. There, she unearths a beautiful piece of artwork that her great-grandfather sent home from Paris after World War II. At her grandmother's urging, Claire travels to Paris to track down the century-old mask-making atelier where the object, known only as "L'Inconnue"—or The Unknown Woman—was created. Under the watchful eye of a surly mask-maker, Claire discovers a cache of letters that offers insight into the life of the Belle Epoque woman immortalized in the work of art. As Claire explores the unknown woman's tragic fate, she begins to unravel deeply buried secrets in her own life.

He's got big plans, and no doubt he'll see them through--as he's creative, adventurous, smart, funny, and a good friend. Sometimes he falls, but he always gets back up. And other times he's afraid, because he's so often misunderstood and called what he is not. So slow down and really look and listen, when somebody tells you--and shows you--who they are. There are superheroes in our midst!

*The Book Whisperer* Donalyn Miller,2009-03-16 Turn any student into a bookworm with a few easy and practical strategies Donalyn Miller says she has yet to meet a child she can't turn into a reader. No

matter how far behind Miller's students might be when they reach her 6th grade classroom, they end up reading an average of 40 to 50 books a year. Miller's unconventional approach dispenses with drills and worksheets that make reading a chore. Instead, she helps students navigate the world of literature and gives them time to read books they pick out themselves. Her love of books and teaching is both infectious and inspiring. In the book, you'll find: Hands-on strategies for managing and improving your own school library Tactics for helping students walk on their own two feet and continue the reading habit after they've finished with your class Data from student surveys and end-of-year feedback that proves how well the Miller Method works The Book Whisperer includes a dynamite list of recommended kid lit that helps parents and teachers find the books that students really like to read.

**Where I'm Reading From** Tim Parks, 2015-05-12 Why do we need fiction? Why do books need to be printed on paper, copyrighted, read to the finish? Do we read to challenge our vision of the world or to confirm it? Has novel writing turned into a job like any other? In *Where I'm Reading From*, the novelist and critic Tim Parks ranges over decades of critical reading—from Leopardi, Dickens, and Chekhov, to Virginia Woolf, D. H. Lawrence, and Thomas Bernhard, and on to contemporary work by Peter Stamm, Alice Munro, and many others—to upend our assumptions about literature and its purpose. In thirty-seven interlocking essays, *Where I'm Reading From* examines the rise of the “international” novel and the disappearance of “national” literary styles; how market forces shape “serious” fiction; the unintended effects of translation; the growing stasis of literary criticism; and the problematic relationship between writers’ lives and their work. Through dazzling close readings and probing self-examination, Parks wonders whether writers—and readers—can escape the twin pressures of the new global system and the novel that has become its emblematic genre.

*I am Helen Keller* Brad Meltzer, 2023-08-01 The seventh addition to this New York Times bestselling series spotlights Helen Keller and shows kids that obstacles can create heroes (Cover may vary) When Helen Keller was very young, she got a rare disease that made her deaf and blind. met someone who change her life forever: her teacher, Annie Sullivan. With Miss Sullivan's help, Helen learned how to speak sign language and read Braille. Armed with the ability to express herself, Helen grew up to become a social activist, leading the fight for disabled people and so many other causes. I wish I had had a book like this when I was a kid struggling with gender identity questions. I found it deeply moving in its simplicity and honesty.—Laverne Cox (who plays Sophia in “Orange Is the New Black”) From the time she was two years old, Jazz knew that she had a girl's brain in a boy's body. She loved pink and dressing up as a mermaid and didn't feel like herself in boys' clothing. This confused her family, until they took her to a doctor who said that Jazz was transgender and that she was born that way. Jazz's story is based on her real-life experience and she tells it in a simple, clear way that will be appreciated by picture book readers, their parents, and teachers.

**Readicide** Kelly Gallagher,2023-10-10 Read-i-cide: The systematic killing of the love of reading, often exacerbated by the inane, mind-numbing practices found in schools. Reading is dying in our schools. Educators are familiar with many of the factors that have contributed to the decline, poverty, second-language issues, and the ever-expanding choices of electronic entertainment. In this provocative book *Readicide: How Schools are Killing Reading and What You Can Do About It* , author and teacher Kelly Gallagher suggests it is time to recognize a new and significant contributor to the death of reading: our schools. *Readicide* , Gallagher argues that American schools are actively (though unwittingly) furthering the decline of reading. Specifically, he contends that the standard instructional practices used in most schools are killing reading by:Valuing standardized testing over the development of lifelong readersMandating

breadth over depth in instruction Requiring students to read difficult texts without proper instructional support and insisting students focus on academic texts Ignoring the importance of developing recreational reading Losing sight of authentic instruction in the looming shadow of political pressures Readicide provides teachers, literacy coaches, and administrators with specific steps to reverse the downward spiral in reading-;steps that will help prevent the loss of another generation of readers.
