**Coon Hunting in Schuyler County, Illinois** Don Lerch, 2013-09-10 Don Lerch was born and raised in Schuyler County, Illinois. He began coon hunting as a young boy and continued until he was no longer able to go. As a young boy, coon hunting was a necessity for meals, as there were nine other siblings, and the hides were as important because they would provide money for cloths, shoes, groceries or whatever might be needed for the family. Don and his wife Char retired in 2005 to spend more time together. He lost her in 2006 shortly after retirement. Although she was not a coon hunter, she was a rock of support throughout their marriage. They have two children and seven grandchildren. Don published his first book in 2012 and the response was so great for another one, he began gathering stories and went to work again. These stories generate from six different counties, Adams, Brown, Cass, Fulton, McDonough and Schuyler and span from the 1930's till present day. You will read about heartbreaking losses, mule riding, trying to cross the river without a plug in the boat, forgetting the gun, getting lost and some hunts you wish you had been along for the ride. The thrill of the hunt is priceless. Although Don is no longer able to hunt, the fever is still there, and as long as there are coon hunters, there will be stories, and he will listen.

**Dreaming the Present** Irvin J. Hunt, 2022-02-22 This is a story of art and movement building at the limits of imagination. In their darkest hours, W. E. B. Du Bois, Ella Baker, George Schuyler, and Fannie Lou Hamer gathered hundreds across the United States and beyond to build vast, but forgotten, networks of mutual aid: farms, shops, schools, banks, daycares, homes, health clinics, and burial grounds. They called these spaces cooperatives, local challenges to global capital, where people pooled all they had to meet their needs. By reading their activism as an artistic practice, Irvin Hunt argues that their primary need was to free their movement from the logic of progress. From a remarkably diverse archive, Hunt extrapolates three new ways to describe the time of a movement: a continual beginning, a deliberate falling apart, and a simultaneity, a kind of all-at-once-ness. These temporalities reflect how a people maneuvered the law, reappropriated property, built autonomous communities, and fundamentally reimagined what a movement can be. Their movement was not the dream of a brighter day; it was the making of today out of the stuff of dreams. Hunt offers both an original account of Black mutual aid and, in a world of diminishing futures, a moving meditation on the possibilities of the present.

**The Last of the Market Hunters** Dale Hamm, David Bakke, 1996-09-01 Duck hunting has changed greatly since the days of unlimited duck kills, as the limit of fifty ducks a day established in 1902 has fallen to the present three. A legitimate hunter now, Dale Hamm learned the art of market hunting—taking waterfowl out of season and selling them to restaurants—from his father during the 1920s. During the 1930s and 1940s, he kept his family alive by market hunting. At the peak of his career, Hamm poached every private hunting club along the Illinois River from Havana to Beardstown. After market hunting died out, Hamm became a legendary and almost respected—albeit controversial—character on the Illinois backwaters. He was eventually invited to hunt on the same clubs from which he had once been chased at the point of a shotgun. He hunted with judges, sheriffs, and the head of undercover operations for the Illinois Department of Conservation, all of whom knew of his reputation. He passed on to these hunting partners a lifetime of outdoor knowledge gained from slogging through mud, falling through ice, hunting ducks at three o'clock in the morning, dodging game wardens, and running the world's only floating tavern. I always said if anyone ever cut open one of us Hamms, all they'd find was duck or fish, Hamm once said of his family. Now in his eighties, Hamm still carries a pellet from a shotgun in his chin to remind him of a shotgun blast that ricocheted off the water and into his face. Bakke notes that it is appropriate that a man who spent his life with a shotgun in his hands should carry a bit of buckshot wherever he goes. Everyone who ever met Dale Hamm has a story about him. His own story is that of a one-of-a-kind character who, in his later years, used his considerable outdoor savvy to conserve the natural resources he once savaged. His time and kind are gone, Bakke notes, and there will never be another like him. This book will be of interest to anyone who has ever been hunting—or who enjoys reading about colorful people and times that exist no more.

**Fixing Illinois** James D. Nowlan, J. Thomas Johnson, 2014-05-30 Persistent problems have left Illinois the butt of jokes and threatened it with fiscal catastrophe. In *Fixing Illinois*, James D. Nowlan and J. Thomas Johnson use their four decades of experience as public servants, Springfield veterans, and government observers to present a comprehensive program of almost one hundred specific policy ideas aimed at rescuing the state from its long list of problems. Nowlan and Johnson start with the history of how one of the most prosperous states of the 1950s became a present-day mess riven by debt and discord and increasingly abandoned by both businesses and citizens. Among their more than ninety proposals to restore Illinois to greatness: • An overhaul of state pension systems that includes more reasonable benefits and lengthening of the retirement age, among other changes; • Reducing one of the nation's highest corporate tax rates to attract business; • Medicare reform through an insurance voucher program; • Demanding that schools raise expectations for success, particularly in rural and impoverished urban areas; • A new approach to higher education that includes a market-driven system that puts funds in the hands of students rather than institutions; • Broadening of the tax base to include services and reduction in rates; • The creation of a long-term plan to maintain the state's five-star transportation infrastructure; • Raising funds with capital construction bonds to update and integrate the antiquated information systems used by state agencies; • Uprooting the state's entrenched culture of corruption via public financing of elections, redistricting reform, and revolving door prohibitions for lawmakers. Pointed, honest, and pragmatic, *Fixing Illinois* is a plan for effective and honest government that seeks an even nobler end: restoring our faith in Illinois's institutions and reviving a sense of citizenship and state pride.

*Colonels in Blue--Illinois, Iowa, Minnesota and Wisconsin* Roger D. Hunt, 2019-07-05 The sixth in a series documenting Union army colonels, this biographical dictionary lists regimental commanders from Illinois, Iowa, Minnesota and Wisconsin. A brief sketch of each is included--many published here for the first time--giving a synopsis of Civil War service and biographical details, along with photos where available.

**Chicago** John F. McDonald,2015-08-14 Chicago went from nothing in 1830 to become the second-largest city in the nation in 1900, while the Midwest developed to become one of the world's foremost urban areas. This book is an economic history of the Chicago metropolitan area from the 1820s to the present. It examines the city in its Midwestern region and compares it to the other major cities of the North. This book uses theories of the economics of location and other economic models to explain much of Chicago's history. Chicago maintained its status as the second-largest city through the first decades of the 20th century, but rapid growth shifted to the Sunbelt following World War II. Since the 1950s the city's history can be divided into four distinct periods; growth with suburbanization (1950-1970), absence of growth, continued suburbanization, and central city crisis (1970-1990), rebound in the 1990s, and financial crisis and deep recession after 2000. Through it all Chicago has maintained its position as the economic capital of the Midwest. The book is a synthesis of available literature and public data, and stands as an example of using economics to understand much of the history of Chicago. This book is intended for the college classroom, urban scholars, and for those interested in the history of one of world's foremost urban areas.

**Energy: Sources, Utilization, Legislation, Sustainability, Illinois As Model State** G Ali Mansoori,Nader Enayati,L Barnie Agyarko,2015-11-05 This 800-page premier book on energy focuses on energy sources, utilizations, legislations and sustainability as it relates to a state, a province, or a country, or a community within a state. This book presents various kinds of energy sources, ways to convert energy for end use, better use of energy towards conservation and energy- and environmental-sustainability. As a very proper model-state the authors chose the State of Illinois which has the largest overall fossil energy reserves, including the largest strippable bituminous coal reserves; the largest user of nuclear energy in USA and has also been investing in all kinds of renewable energies including wind energy, solar energy, biofuels, geothermal energy, and various energy storage options. In the authors' opinion, State of Illinois is a pioneer in legislations for proper development and use of all kinds of energy. Their motivation to do this project was to educate the public (including students, energy engineers and planers, as well as state- and country-wide policy makers)about all aspects of energy.In this book, the authors present various energy sources, conversions technologies, and conservation possibilities. In every case, the authors have presented various options available for a country, for a state, or for a community to achieve its goal of energy sufficiency, clean environment and as a result, sustainability. Variety of schemes related to each energy source and its related conversion technologies are presented and sustainability of renewable energy sources is discussed. All the possible energy sources including coal, natural gas, petroleum, nuclear, solar, wind, biofuels and geothermal energy are presented in this book, as well as energy storage options. The authors have also presented various ways of dealing with carbon dioxide, which is produced from fossil fuels combustion, including its collection, transportation, storage and sequestration. The energy storage systems presented in this book will facilitate reliable and full integration of renewable power to the grid.

**Neoliberal Chicago** Euan Hague,2016-12-12 The neoliberal philosophy of fiscal austerity aligned with reduced regulation has transformed Chicago. As pursued by mayor Rahm Emanuel and his predecessor Richard M. Daley, neoliberalism led officials to privatize everything from parking meters to schools, gut regulations and social services, and promote gentrification wherever possible. The essayists in Neoliberal Chicago explore an essential question: how does neoliberalism work on the ground in today's Chicago? Contextual chapters explore race relations, physical development, and why Chicago embraced neoliberalism. Other contributors delve into aspects of the neoliberal vision, neoliberalism's impact on three iconic city spaces, and how events like the 2008 foreclosure crisis and the bid to attract the Olympic Games reveal the workings of neoliberalism. Contributors: Stephen Alexander, Larry Bennett, Michael Bennett, Carrie Breitbach, Sean Dinces, Kenneth Fidel, Roberta Garner, Euan Hague, Black Hawk Hancock, Christopher Lamberti, Michael J. Lorr, Martha Martinez, Brendan McQuade, Alex G. Papadopoulos, Rajiv Shah, Costas Spirou, Carolina Sternberg, and Yue Zhang.
